28 **SUMMARY**

29 This bill limits the scope and effect of the Maine Uniform Building and Energy Code
30 to those municipalities that have adopted or are enforcing the Maine Uniform Building
31 and Energy Code or a portion of the Maine Uniform Building and Energy Code. Under
32 this bill, the requirement that a building official be certified in the enforcement of the
33 Maine Uniform Building and Energy Code, and the inspection of buildings and issuance
34 of occupancy permits only upon compliance with the Maine Uniform Building and
35 Energy Code, applies only in those municipalities that have adopted or are enforcing the
36 Maine Uniform Building and Energy Code or a portion of the Maine Uniform Building
37 and Energy Code. This bill also specifies that a municipality that adopts the Maine
38 Uniform Building and Energy Code or a portion of the Maine Uniform Building and
39 Energy Code may do so by reference, as is allowed for other codes.
