1 Emergency preamble. Whereas, acts and resolves of the Legislature do not 2 become effective until 90 days after adjournment unless enacted as emergencies; and 3 Whereas, the sale and use of electric thermal storage devices will enable 4 homeowners to obtain electricity in an efficient and safe manner and improve the 5 efficiency of the electric power system through the use of off-peak electricity; and 6 Whereas, in order to maximize the benefit provided by this Act it is necessary to 7 provide incentives for the use of electric thermal storage devices during the current 8 heating season; and 9 Whereas, in the judgment of the Legislature, these facts create an emergency within 10 the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, 11 12 therefore, 13 Be it enacted by the People of the State of Maine as follows: Sec. 1. 36 MRSA §1760, sub-§9-B, as amended by PL 2007, c. 438, §35, is 14 15 repealed and the following enacted in its place: 16 **9-B. Residential electricity.** Sale and delivery of residential electricity as follows: 17 A. The first 750 kilowatt hours of residential electricity per month; and 18 B. Off-peak residential electricity used for space heating or water heating by means of an electric thermal storage device. For the purpose of this paragraph, "off-peak 19 residential electricity" means the off-peak delivery of residential electricity pursuant 20 to tariffs on file with the Public Utilities Commission and the electricity supplied. 21 22 For the purpose of this subsection, "residential electricity" means electricity furnished to buildings designed and used for both human habitation and sleeping, with the exception 23 24 of hotels. When residential electricity is furnished through one meter to more than one residential unit and when the transmission and distribution utility applies its tariff on a per 25 unit basis, the furnishing of electricity is considered a separate sale for each unit to which 26 the tariff applies. For the purpose of this subsection, "delivery" means transmission and 27 distribution; 28 29 Emergency clause. In view of the emergency cited in the preamble, this 30 legislation takes effect when approved. 31 **SUMMARY** 32 Current law exempts the sale of certain forms of energy, including heating oil, for residential heating, but taxes electricity used to charge electric thermal storage space and 33 water heaters. This bill provides a sales tax exemption for off-peak residential electricity 34 35 used for water and space heating similar to exemptions provided for other forms of 36 energy.
