INTRODUCTION

Public Law 2009 chapter 571, Part FFF (see appendix A) was enacted by the Second Regular Session of the 124th Legislature as part of the "supplemental budget." Part FFF has two primary components relative to the allocation of slot machine revenue as required by 8 MRSA §1036 (see appendix B). First, it requires reporting to the Joint Standing Committees on Legal and Veterans' Affairs and Appropriations and Financial Affairs from recipients of slot revenue allocation by September 15th of each year. This report is required to include historical allocation and expenditure information beginning with the fiscal year 2005-06, when the racino that operates slot machines began operations.

The funds listed in Part FFF required to submit the annual reports are as follows:

- The Fund to Supplement Harness Racing Purses (Title 8 section 298);
- The Sire Stakes Fund (Title 8, section 281);
- The Agricultural Fair Support Fund (Title 7, section 91);
- The University of Maine System Scholarship Fund (Title 20-A, section 10909);
- The Maine Community College System for scholarship distribution (in accordance with Title 20-A, section 12716);
- The Fund to Encourage Racing at Maine's Commercial Tracks (Title 8, section 299); and
- The Fund to Stabilize Off-track Betting Facilities (Title 8, section 300).

The second component of Part FFF directed the Joint Standing Committee on Legal and Veterans' Affairs to conduct a review of the allocation of funds required by current law and to make recommendations that address an appropriate framework for ongoing review of slot machine revenue allocation. This framework would provide for consideration of the adequacy of distribution of revenue among existing and potential new purposes and to compare to the principles of allocation of slot revenue or future casinos with the intent of the voters who approved the operation of gambling facilities.

The Legal and Veterans' Affairs Committee was authorized to hold four meetings to accept the initial slot revenue recipient reports, conduct its review and make recommendations. The first meeting was held on August 17th when the committee reviewed the current law that provides for the allocation of slot machine revenue, a description of the funds that receive revenue, the original allocation that was part of the 2003 citizen initiative that first authorized the operation of slot machines and a history of dollars distributed since the slot machine facility in Bangor began operating in November of 2005. Committee members also communicated to slot revenue recipient's specific information that they wished to be included in the revenue recipient reports due on September 15th. The second meeting was held on September 27th. All of the reports requested or required in accordance with Part FFF were received by the September 15th deadline with the exception of the report from the off-track betting facility in Sanford and the commercial harness racing track in Scarborough (these reports were received just prior to the committee's third meeting). The committee allowed for presentation of the reports, a question and answer period and an opportunity for anyone in attendance to offer comment on the allocation of racino revenue. The third meeting of the committee was held on October 13th. At this meeting the committee reviewed a flow chart that shows the distribution of slot machine revenue including secondary distributions prescribed by statute, like the Harness Racing Commission Operating account and

agricultural fair premiums (see appendix D). A framework for reporting was proposed and statutory changes were recommended. The final meeting, held on November 16, 2010 allowed for review of the recommendations made in this report.

BACKGROUND

The 2003 Citizen's Initiative and LD 1820

In November of 2003, Maine voters supported a measure placed on the ballot as a result of a citizen's initiative that proposed to allow the operation of slot machines at existing commercial harness racing tracks. The vote was 272,394 to 242,490 in favor of the measure. The question read:

"Do you want to allow slot machines at certain commercial horse racing tracks if part of the proceeds are used to lower prescription drug costs for the elderly and disabled, and for scholarships to the state universities and technical colleges?"

The law that passed was originally proposed as LD 1371 (see appendix G) An Act to Allow Slot Machines at Commercial Horse Racing Tracks. Soon after the commencement of the Second Regular Session of the 121st Legislature in January 2004, Governor Baldacci submitted LD 1820 An Act to Establish the Gambling Control Board to License and Regulate Slot Machines at Commercial Harness Racing Tracks. LD 1820 repealed LD 1371 and replaced it with a broader regulatory framework that included the establishment of the Gambling Control Board within the Department of Public Safety and prescribed a distribution of slot machine revenue that built upon the distribution established by LD 1371. The following shows a comparison of the distributions of slot machine revenue in each bill:

Initiated Bill 2003 c. 1 (LD 1371)	**Current Law as enacted by LD 1820 PL 2003 c. 687**
No "coin in" – all distributions are from slot revenue after prize pay-outs • 1% to board for administrative expenses (they are authorized to expend up to $250,000 of that for gambling addiction services) • 7% to harness racing purses (all tracks) • 1% to Sire Stakes Fund • 3% Agricultural Fair Support Funds • 10% to Fund for a Healthy Maine for prescription drugs for the elderly • 2% to University of Maine System scholarships via FAME • 1% to Community College System via Board of Trustees (Total 25% of net slot revenue – *IB language referred to this as "gross revenue" meaning coin-in minus pay back to players)	• One percent of the gross revenue or "coin-in" goes directly to the state to cover administrative and enforcement costs. • The remaining net slot machine income (gross revenue after player payouts) is divided, with 61% going to the slot machine operator and 39% to be distributed as follows: o 3 % to the General Fund for administrative expenses of the board, including gambling addiction counseling services; o 10% to supplement harness racing purses; o 3 % to the Sire Stakes Fund to support breeding of Maine Standardbred horses; o 3 % to the Agricultural Fair Support Fund; o 10% to the Fund for a Healthy Maine for prescription drug benefits for the elderly; o 2% for University of Maine System scholarships; o 1% for Maine Community College System scholarships; o 4% to the Fund to Encourage Racing at Maine's Commercial Tracks; o 2% to the Fund to Stabilize Off-track Betting Facilities, to be reduced to 1% after 4 years with the remaining 1% going back to the General Fund; and o 1% to the host municipality.

The changes made by LD 1820 to the distribution framework, often referred to as the "cascade," primarily benefitted the harness racing industry and the general fund.

Slot Revenue Recipients

The Fund to Supplement Harness Racing Purses: This fund was enacted as part of LD 1820 and receives 10% of the net slot revenue that is distributed in accordance with Title 8, section 1036. It provides funds to supplement harness racing purses for races conducted at commercial tracks and agricultural fairs. The fund is distributed using a formula that multiplies the amount of money available in the fund by the number of race dashes assigned to each track as divided by the total number of race dashes assigned to all of the tracks. The two commercial tracks get the bulk of the fund. In 2009, the commercial track in Scarborough received 53.5% of the distribution and the commercial track in Bangor received 23.1% of the distributions from this fund. Ten agricultural fairs divided the remaining distribution of 23.4%.

The Sire Stakes Fund/Standardbred Horses: This fund was established prior to the enactment of LD 1820. It receives a portion of the handle (wagers placed on live harness and simulcast races) that is distributed among members of the live racing and simulcast industry in Maine. The distribution of the live racing and simulcast handle is dictated by Maine Revised Statutes Annotated Title 8, section 286. In addition to the percentage of the harness racing handle, under LD 1820 this fund receives 3% of the net revenue from slot machines. The slot machine revenue distributions are deposited by the Department of Agriculture, Conservation and Forestry into a trust account entitled the Sire Stakes Fund. The statutory purpose of the fund is to encourage and promote the breeding of a strain of Maine Standardbred horses. The disbursements from the fund are required to be directed toward supplementing harness racing purses and the costs of administration of the standard breeder program.

The Agricultural Fair Support Fund: This fund was enacted as part of LD 1820 and receives 3% of the net slot machine revenue distribution. This fund covers the cost of administration for the Fair Coordinator within the Department of Agriculture, Conservation and Forestry and benefits harness racing and fairs generally. After the department's administrative costs, 34% of the fund is distributed to commercial tracks and agricultural fairs that conduct harness racing for purse supplements. It is disbursed using the same formula as the Fund to Supplement Harness Racing purses that is based on the number of dashes run at each track. In 2009, commercial tracks received about 77% of the disbursements from this fund while 9 agricultural fairs shared the remaining 23% of the purse supplement portion of the fund. The other purpose of the Agricultural Fair Support fund, to which 66% of the distribution is dedicated, is to pay fair premiums. Premiums are essentially prizes or awards paid to exhibitors at agricultural fairs ranging from livestock displays to pulling contests to canned goods.

The Fund for a Healthy Maine – Prescription Drugs for the Elderly and Disabled Program: This fund was established prior to the enactment of LD 1820. The Drugs for the Elderly (DEL) program receives funding from other sources in addition to its 10% share of net slot machine revenues. This Department of Health and Human Services administered program pays for all or part of the costs of certain prescription drugs for Maine residents who live at or below the federal poverty line and are age 62 or older or age 19 or older and medically eligible disabled. In 2010, the Legislature passed LD 1668 An Act to Implement the Recommendation of the Initiative to

Streamline State Government (Public Law 2009 c.462) that imposed a temporary cap on slot machine revenue allocated to this fund. Through the year 2012, any money in excess of $4.5 million distributed from net slot machine revenue is forwarded to the general fund as undedicated revenue.

University of Maine System Scholarships: This fund receives 2% of the distribution of net slot machine revenue in accordance with Title 8 section 1036. All revenues credited to this fund are required to be distributed as need-based scholarships for students who are Maine residents attending the University of Maine System. The fund is under the jurisdiction and control of the Board of Trustees of the University of Maine System. Costs of administering these scholarships may not be paid for using scholarship funds.

Maine Community College System Scholarships: This fund receives 1% of the distribution of net slot machine revenue in accordance with Title 8 section 1036. Funds distributed to the system are directed to be used in accordance with scholarship guidelines set forth in statute for the Maine Community College System. These guidelines direct the Board of Trustees of the System to award scholarships based on individual need and worth. Recipients must demonstrate they can complete a course of study successfully, support the expenses of their education and show need of financial assistance.

The Fund to Encourage Racing at Maine's Commercial Tracks: This fund was created with the enactment of LD 1820 and receives 4% of the distribution of net slot machine revenue in accordance with Title 8 section 1036. This fund provides a straight distribution to commercial tracks proportional to the race days conducted by each track. In 2009, the commercial track in Scarborough received approximately 67% of the disbursement while the commercial track in Bangor received the remaining 33%. There is no statutory purpose assigned to this fund. In the event that all commercial tracks operating in the state are authorized to operate slot machines, the distribution to the fund ends.

The Fund to Stabilize Off-track Betting Facilities: This fund was created with the enactment of LD 1820 and until November of 2009, received 2% of the distribution of net slot machine revenue. As of, November 2009, this fund receives 1% of the net slot revenue distribution in accordance with Title 8, section 1036. The money in the fund is disbursed equally among off-track betting facilities (OTBs) that were licensed to operate as of December 31, 2003. In 2009, funds were disbursed to four OTBs throughout the state in Sanford, Brunswick, Lewiston and Waterville. The reduction in the distribution to this fund was part of LD 1820 as enacted and was not reduced as the result of a subsequent legislative action. The general fund now receives the 1% distribution in addition to 3% of net slot machine revenue as prescribed by Title 8 section 1036.

In addition to the statutorily created funds and purposes, the host municipality of Bangor receives a 1% distribution of net slot machine revenue in accordance with Title 8 section 1036.

Revenue from the Operation of Slot Machines

The original initiative and LD 1820 both contained a provision that required local approval by referendum election between December 31, 2002 and December 31, 2003 and for a commercial track to be eligible for a slot machine operator license. Of the two commercial tracks in the state, one in Scarborough and one in Bangor, only Bangor received local approval during that time. So,

in November 2005 the new operators of Bangor Historic Track, Penn National Gaming, opened the Hollywood Slots slot machine facility with just under 500 slot machines. In July of 2008, Hollywood Slots expanded its operation to a newly constructed facility and increased the number of slot machines to 1000.

In its first full year of operation, 2006, the racino in Bangor generated approximately $37.5 million in net revenue of which $12.4 million was allocated to recipients in accordance with Title 8, section 1036. The racino also deposited 1% of the gross revenue or $5.6 million to the general fund. By the end of 2009, now operating 1000 machines, the racino generated $50.5 million in net revenue with $17.3 million going to section 1036 recipients. In that year, the 1% of the gross deposited to the general fund was $6.2 million. The general fund also receives a percentage of net revenue. For a chart of slot machine revenue, as provided by the racino in Bangor, see appendix C.

At its meeting, held on September 27, 2010, the Legal and Veterans' Affairs Committee received reports from slot machine revenue recipients required to report under Part FFF. In addition to the revenue and expense figures, the reports from members of the harness racing industry also pointed out the role that racino revenue plays in keeping their businesses going. They cited competition for gambling dollars by the expanded state lottery, illegal internet gambling and glitzy casinos within a short drive to the south, as factors that hinder their prosperity. The greater economic and cultural impacts were also central to the reports and were echoed by members of the public who testified during the open comment period of the meeting. Preservation of farmland and open-space, maintaining Maine's agricultural heritage and providing incentives for youth to enter into veterinary and farming careers are the immeasurable benefits of supporting the harness racing industry according to those who offered their comments to the committee. Supporters of the current allocation of slot revenue, relayed stories of farms that were about to be subdivided and sold as house lots that were able to be reclaimed as farmland because of the increased demand for hay, horse training and boarding of horses. They reported that this income allowed for improvements of barns, building of new stables, installation of fencing and the purchase of farm machinery, all to the economic benefit of the greater community.

The importance of the relationship between the members of the industry was stressed by those required to report and reiterated by members of the public who testified. According to their comments, each revenue recipient contributes to the greater goal of maintaining the harness racing tradition and agricultural heritage of the state. They cite the agricultural fairs' role in providing ongoing opportunities for racing and keeping the connection of Maine families to farm life, that for many, is several generations in their past. The commercial tracks, referred to by supporters as a lifeline to the industry, provide the economic incentive for horse owners and breeders to continue in the sport. Reports and comments stressed that off-track betting facilities provide the opportunity for those who can't attend live racing to place wagers on Maine races through simulcasting. The enhancement of purses paid to races running Maine Standardbred horses using dollars from the Sire Stakes Fund ensures that local owners and breeders are invested in the sport and that the industry is not relying on an out-of-state horse supply, according to many breeders who testified. Overall, supporters tried to convey the interconnectedness of the recipients of slot machine revenue and how each is critical to preserving their industry.

Reports were also presented regarding the Drugs for the Elderly Program within the Fund for a Healthy Maine, scholarships for the University of Maine System and scholarships for the

Maine Community College System. Most of the testimony received related to the industry recipients of slot revenue, although there was some discussion among committee members seeking clarification of the funding of DEL and concern expressed that Maine Maritime Academy had been left out of the distribution that benefits the other state public institutions of higher education. All of the reports presented to the committee can be found in the appendix section of the report.

FINDINGS

After reviewing the allocation of slot machine revenue in accordance with Title 8, section 1036, accepting reports from those who receive slot machine revenue and hearing comment from members of the harness racing industry and the general public, the Joint Standing Committee on Legal and Veterans' affairs finds the following:

There has been limited reporting on the use of slot machine revenue allocated in accordance with Title 8, section 1036. Although the amount of revenue generated by the slot machine facility in Bangor has been consistently reported to the Legislature since it began operation in November of 2005, there has been very little information about how that money is spent by those who receive an allocation of slot machine revenue. During joint worksessions on previous biennial and supplemental budgets with the Joint Standing Committee on Appropriations and Financial Affairs, the Legal and Veterans' Affairs committee has been consistently questioned on the purpose of slot revenue allocations and whether or not that purpose is being served. Prior to this report, those questions have not been adequately addressed.

A majority of funds that receive slot revenue have no specific statutory requirements directing how they are to be spent. The Legal and Veterans' Affairs Committee recognizes that part of the intent of the allocation of slot revenue as proposed by the citizen initiative in 2003 and built upon by LD 1820 in 2004, was to support the harness racing industry that was suffering a decline because of the competition for gaming dollars by lotteries, out-of-state casinos and illegal internet gambling and the temptation to develop farm land into housing developments. However, the funds that are designated to provide that support, as described in statute, provide very little, if any, direction on how to spend the money it receives from the operation of slot machines in order to benefit the industry.

The Legislature should have measurable data to help it determine if the current distribution of slot machine revenue distributed is stabilizing or subsidizing the harness racing industry. In order to comply with the charge of Public Law 2009, chapter 571, Part FFF, to develop a framework of reporting that will permit the consideration of the adequacy of distribution of gaming revenue among existing and new potential purposes, the Legislature must have the necessary data to determine if the current allocation is serving the purpose of providing scholarships, providing assistance with prescription drug costs and stabilizing the harness racing industry. The Legal and Veterans Affairs Committee sees a distinction between stabilizing the harness racing industry and subsidizing it. There needs to be transparency and accountability among those who receive slot machine revenue so that the impact of these funds can be thoughtfully measured. Increases in attendance, purse sizes, and the number and amount wagers made at places where harness races are run or simulcast are important to measuring the benefit of the allocation. However, the extended benefits to agriculture, maintenance open farmland and general economy that harness racing provides can not be overlooked. Future reports will provide

recipients with the opportunity to show the value of the harness racing industry to the state and how slot machine revenue supports the purposes for which they were intended.

Voter intent is in the eye of the beholder. Although Part FFF directed this committee to create a reporting framework that takes into consideration principles of allocation consistent with the voters' intent, there is no objective way to determine the voter intent for the allocation of slot machine revenue. Depending on whether a person uses the actual initiative law proposed, the question posed to the voters or the campaign that was waged prior to election-day, the determination of voter intent could vary significantly.

It is difficult to establish a framework for future allocation of gaming revenue because of how racinos/casinos are authorized. To date, the authority to operate a gaming facility like a racino or a casino, has come via the citizen initiative process. Even though some members of the committee strongly support developing a standard of how future gaming revenue should be allocated, a specific percentage to the operator and a specific percentage to the general fund as undedicated revenue, as an example, the provisions of law enacted by citizen initiative are determined by those who apply to circulate petitions and collect signatures to get the measure on the ballot. The Legislature can always offer a competing measure or change the initiative after it becomes law to put this division of gaming revenue into statute, but that is perceived as politically unpalatable by some and an affront to the initiative process by others. However, the standard of reporting recommended in this report should be applied to all future distributions of gaming revenue.

RECOMMENDATIONS

The Legal and Veterans' Affairs committee is not making any recommendations to change the allocation of slot machine revenue. We are recommending a framework of reporting that will provide measurable data for a future Legislature to consider in the event changes to the allocation of revenue are proposed. The framework recommended by this report will focus primarily on harness racing industry recipients and is intended to demonstrate either an increase, decline or stabilizing of participation in the sport of harness racing.

Recipient reporting requirements – The committee recommends the following framework of reporting for harness racing industry recipients. These reports will be submitted directly to the Joint Standing Committees on Legal and Veterans Affairs and Appropriations and Financial Affairs. The first report is due December 1st, 2011. The first report must include the required data for the calendar years 2009, 2010 and up to November 2011. The Director of the Harness Racing Commission is encouraged to develop a format for these reports based on the recommended framework. The reports may include any additional information the slot revenue recipient chooses to offer to demonstrate the extended economic benefits of the industry and the non-dollar value recognized by supporting the harness racing industry.

Commercial track reports shall include:

- The number of people attending harness races;
- The number of individual wagers placed on live harness races, the average wager amount and the total amount wagered;

- The number of individual wagers placed on intra state simulcast races, the average wager amount and the total amount wagered;
- The number of individual wagers placed on inter-state simulcast races, the average wager amount and the total amount wagered;
- The number of Maine-based harness races exported via simulcast;
- The amount of the harness racing handle kept by the commercial track and the distribution of the handle to the state and industry recipients;
- The amount of money received from the handle distribution from wagers at other tracks and off-track betting facilities;
- The amount of revenue from each fund under section 1036 distributed to the commercial track;
- The name of the owner and the primary location of the company licensed to operate the commercial track;
- The number of employees, full-time and part-time, at the commercial track and the total payroll amount for all receiving compensation from the commercial track;
- The amount of dollars spent on capital improvements to the commercial track and related facilities and a description of those improvements. The first report should include the amount spent since November 2005 broken down annually. Subsequent annual reports should include the amount spent on capital improvements the previous calendar year.
- Operating costs for the commercial track;
- Profit and loss or depreciation figures for the commercial track; and
- Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account.

Agricultural fairs that conduct harness racing shall include:

- The number of people attending the fair;
- The number of wagers placed on harness races and the total amount of dollars wagered;
- The number of races exported via simulcast signal;
- The number of full-time and part-time employees of the fair;
- Reimbursements provided to fair volunteers or other fair personnel;
- The amount of dollars spent on capital improvements at the fair location and a description of those improvements. The first report should include the amount spent since November 2005 broken down annually. Subsequent annual reports should include the amount spent on capital improvements the previous calendar year;
- Operating costs for the agricultural fair;
- The amount of the handle retained by the fair and the amount distributed to industry recipients;
- The amount of the handle from the industry received by the fair;
- The amount of revenue distributed in accordance with Title 8, section 1036; and
- Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account.

Agricultural fairs generally, shall include:

- The amount of money spent on fair premiums using revenue allocated from slot machines;
- A detailed accounting of slot machine revenue not used for fair premiums, if any; and

- Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account.

Standard breeders and owners report shall include:

- The number and geographic distribution of licensed breeders in the state;
- The number of horses bred by each breeder and the number of those horses actively racing in Maine;
- The number of horses bred under the program that race out-of-state;
- Whether the number of standard-bred horses in Maine is sufficient to meet the needs of harness races conducted in the state;
- The amount of money received from the allocation of slot machine revenue;
- The amount of money in the Sire Stakes Fund and the amount that is spent to supplement harness racing purses and the average purse amount;
- A detailed accounting of the other uses of the Sire Stakes fund, including direct payment to breeders, promotion contracts, advertising, Maine Harness Horsemen contract and administrative costs; and
- Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account.

Off-track betting facilities reports shall include:

- The number of wagers placed on intra-state and inter-state simulcast races and the total dollar amount for each;
- The number of employees of the facility, full-time and part-time and the total payroll amount for all receiving compensation from the facility;
- The operating costs for the facility;
- The name and primary location of the company licensed to operate the off-track betting facility;
- The amount of dollars spent on capital improvements to the facility and a description of those improvements. The first report should include the amount spent since November 2005 broken down annually. Subsequent annual reports should include the amount spent on capital improvements the previous calendar year;
- The amount of the harness racing handle kept by the OTB and the distribution of the handle to the state and industry recipients;
- The amount of money received from the handle distribution from wagers at tracks and other off-track betting facilities;
- The amount of revenue from each fund under section 1036 distributed to the OTB; and
- Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account.

Consideration of multiple forms of gambling

- Future Legislatures should consider the impact of new and expanded forms of gambling on existing forms, in particular non-profit gaming and off-track betting facilities. Non-profit gaming is critical to supporting the charitable causes to which they are benefitting and

which we all support. Off-track betting facilities, prior to the advent of racinos, provided a lifeline to the harness racing industry when it was desperately needed. The supportive role these forms of gaming have played in the larger gaming arena should be recognized when examining the distribution of future gaming revenue.

Other recommendations

- The Department of Public Safety, Gambling Control Board shall develop a system of reporting slot machine revenue and distributions that allows for verification of revenue reports provided by the slot machine facility operator.
- Future members of the policy committee that oversees gambling laws should conduct a literature review to examine the financial impact of illegal internet gambling on legal forms of gambling.
- Parameters should be established that help define what constitutes a capital improvement among slot revenue recipients.
- Some members of the committee recommend that future members of the policy committee that oversees gambling laws should consider the adequacy of funding for the Prescription Drugs for the Elderly Program and increasing the percentage of slot revenue distribution to UMS and MCCS scholarships and include Maine Maritime Academy in that distribution. In addition, future committee members should determine whether the slot revenue distributions are subsidizing or stabilizing the harness racing industry. If the funds are stabilizing the industry, a cap on the distributions should be considered along with discontinuing the distributions to off-track betting facilities.

APPENDIX A

LD 1671, Public Law 2009, Chapter 571, Part FFF

Appendix A

From LD 1671 Public Law 2009 Chapter 571
"Supplemental Budget"

PART FFF

Sec. FFF-1. 8 MRSA §1036, sub-§5 is enacted to read:

5. Annual report on use of funds. The Department of Agriculture, Food and Rural Resources, Harness Racing Commission, the University of Maine System and the Maine Community College System shall provide an annual report that includes a detailed explanation of how the funds received under subsection 2, paragraph B, C, D, F, G, H or I achieved specific objectives. The report must include detailed historical allocation and expenditure information beginning with fiscal year 2005-06. The reports must be submitted to the joint standing committees of the Legislature having jurisdiction over legal and veterans affairs and appropriations and financial affairs no later than September 15th of each year.

Sec. FFF-2. Review of slot machine revenue distribution. Upon approval of the Legislative Council, the Joint Standing Committee on Legal and Veterans Affairs shall review the current allocation of funds from slot machine facilities in the Maine Revised Statutes, Title 8, section 1036 and any other allocation of funds regarding casinos approved by the Legislature or the voters in the State and make recommendations for any necessary changes.

In conducting its review, the Joint Standing Committee on Legal and Veterans Affairs shall consult with interested groups as it considers appropriate. The committee's recommendations must address, at a minimum, the following issues:

1. The appropriate framework for ensuring thorough and regular reviews of the allocation of revenue from slot machine facilities or approved casinos that consider the adequacy of the distribution of revenue among existing and new potential uses and recipients; and

2. Principles for the allocation of revenue from slot machine facilities or approved casinos consistent with voters' intent.

The Joint Standing Committee on Legal and Veterans Affairs shall, no later than November 3, 2010, submit a report with implementing legislation to the First Regular Session of the 125th Legislature on the issues identified in this Part.

APPENDIX B

Allocation of Funds

Appendix B

8 §1036. ALLOCATION OF FUNDS

1. Distribution for administrative expenses of board. A slot machine operator shall collect and distribute 1% of gross slot machine income to the Treasurer of State for deposit in the General Fund for the administrative expenses of the board.

[2005, c. 663, §11 (AMD) .]

2. Distribution from commercial track. A slot machine operator shall collect and distribute 39% of the net slot machine income from slot machines operated by the slot machine operator to the board for distribution by the board as follows:

A. Three percent of the net slot machine income must be deposited to the General Fund for administrative expenses of the board in accordance with rules adopted by the board, except that of the amount calculated pursuant to this paragraph, the following amounts must be transferred annually to the Gambling Addiction Prevention and Treatment Fund established by Title 5, section 20006 - B:

(1) For the fiscal year beginning July 1, 2011, $50,000;

(2) For the fiscal year beginning July 1, 2012, $50,000; and

(3) For the fiscal year beginning July 1, 2013 and for each fiscal year thereafter, $100,000; [2009, c. 622, §2 (AMD).]

B. Ten percent of the net slot machine income must be forwarded by the board to the Treasurer of State, who shall credit the money to the fund established in section 298 to supplement harness racing purses; [2005, c. 663, §12 (AMD).]

C. Three percent of the net slot machine income must be credited by the board to the Sire Stakes Fund created in section 281; [2005, c. 663, §12 (AMD).]

D. Three percent of the net slot machine income must be forwarded by the board to the Treasurer of State, who shall credit the money to the Agricultural Fair Support Fund established in Title 7, section 91; [2007, c. 466, Pt. A, §29 (RPR).]

E. Ten percent of the net slot machine income must be forwarded by the board to the State Controller to be credited to the Fund for a Healthy Maine established by Title 22, section 1511 and segregated into a separate account under Title 22, section 1511, subsection 11, with the use of funds in the account restricted to the purposes described in Title 22, section 1511, subsection 6, paragraph E. For the fiscal years ending June 30, 2010, June 30, 2011 and June 30, 2012, the amount credited annually by the State Controller to the Fund for a Healthy Maine under this paragraph may not exceed $4,500,000 annually and any funds in excess of $4,500,000 annually during these fiscal years must be credited as General Fund undedicated revenue; [2009, c. 462, Pt. H, §1 (AMD).]

F. Two percent of the net slot machine income must be forwarded by the board to the University of Maine System Scholarship Fund created in Title 20-A, section 10909; [2005, c. 663, §12 (AMD).]

G. One percent of the net slot machine income must be forwarded by the board to the board of trustees of the Maine Community College System to be applied by the board of trustees to fund its scholarships program under Title 20-A, section 12716, subsection 1; [2005, c. 663, §12 (AMD).]

H. Four percent of the net slot machine income must be forwarded by the board to the Treasurer of State, who shall credit the money to the Fund to Encourage Racing at Maine's Commercial Tracks, established in section 299; however, the payment required by this paragraph is terminated when all commercial tracks have obtained a license to operate slot machines in accordance with this chapter; [2005, c. 663, §12 (AMD).]

I. Two percent of the net slot machine income must be forwarded by the board to the Treasurer of State, who shall credit the money to the Fund to Stabilize Off-track Betting Facilities established by section 300, as long as a facility has conducted off-track wagering operations for a minimum of 250 days during the preceding 12-month period in which the first payment to the fund is required. After 48 months of receiving an allocation of the net slot machine income from a licensed operator, the percent of net slot machine income forwarded to the Fund to Stabilize Off-track Betting Facilities is reduced to 1% with the remaining 1% to be forwarded to the State in accordance with subsection 1; and [2005, c. 663, §12 (AMD).]

J. One percent of the net slot machine income must be forwarded directly to the municipality in which the slot machines are located. [2005, c. 663, §12 (AMD).]

[2009, c. 462, Pt. H, §1 (AMD); 2009, c. 622, §2 (AMD) .]

3. Failure to deposit funds. A slot machine operator who knowingly or intentionally fails to comply with this section commits a Class C crime. In addition to any other sanction available by law, the license of that person may be revoked by the board and the slot machines operated by that slot machine operator may be disabled, and the slot machines, slot machines' proceeds and associated equipment may be confiscated by the board and are subject to forfeiture under Title 17-A, section 959 or 960.

[2003, c. 687, Pt. A, §5 (NEW); 2003, c. 687, Pt. B, §11 (AFF) .]

4. Late payments. The board may adopt rules establishing the dates on which payments required by this section are due. All payments not remitted when due must be paid together with interest on the unpaid balance at a rate of 1.5% per month.

[2003, c. 687, Pt. A, §5 (NEW); 2003, c. 687, Pt. B, §11 (AFF) .]

5. Annual report on use of funds. The Department of Agriculture, Food and Rural Resources, Harness Racing Commission, the University of Maine System and the Maine Community College System shall provide an annual report that includes a detailed explanation of how the funds received under subsection 2, paragraph B, C, D, F, G, H or I achieved specific objectives. The report must include detailed historical allocation and expenditure information beginning with fiscal year 2005-06. The reports must be submitted to the joint standing committees of the Legislature having jurisdiction over legal and veterans affairs and appropriations and financial affairs no later than September 15th of each year.

[2009, c. 571, Pt. FFF, §1 (NEW) .]

Statutory Cite for Fund Receiving Net Slot Revenue

Appendix E

Joint Standing Committee on Legal and Veterans Affairs - Tuesday August 17, 2010
Meeting to review the allocation of slot machine revenue in accordance with PL 2009 c. 571 Part FFF – prepared by D. Fox OPLA

Statutory cite for fund receiving net slot revenue	Percent of net slot revenue distribution and 2009 revenue	Comment or additional information
Funds that receive a distribution of net slot machine revenue in accordance with 8 MRSA §1036 sub-2		
8 §298. Fund to supplement harness racing purses **1. Fund created.** A fund is established to supplement harness racing purses to which the commission shall credit all payments received pursuant to section 1036, subsection 2, paragraph B for distribution in accordance with this section. The fund is a dedicated, nonlapsing fund, and all revenues deposited in the fund remain in the fund and must be disbursed in accordance with this section, except that assessments and advances may be withdrawn in accordance with section 267-A. The commission shall distribute in accordance with this section amounts credited to the fund. **2-A. Distribution.** On April 30th, July 30th, October 30th and January 30th of each year, all amounts credited to the fund established by this section as of the last day of the preceding month and not distributed before that day must be distributed to each commercial track, as defined in section 275-A, subsection 1, to each agricultural fair licensee that conducts live racing on fair dates assigned by the commissioner pursuant to Title 7, section 84 and to each agricultural fair licensee that conducts an extended meet as long as that licensee conducted an extended meet in 2005, with each commercial track and each agricultural fair licensee receiving an amount of money determined by multiplying the amount of money available for distribution by a fraction, the numerator of which is the total number of live race dashes assigned to the commercial track or agricultural fair licensee for the year and the denominator of which is the total number of race dashes assigned to all commercial tracks and agricultural fair licensees for the year. The payment in January must be adjusted so that for the prior year each commercial track or agricultural fair licensee entitled to a distribution receives that portion of the total money distributed for the full year from the fund established by this section that is determined by multiplying the total amount of money by a fraction, the numerator of which is the number of live race dashes conducted by the commercial track or agricultural fair licensee during the calendar year that qualify for a distribution and the denominator of which is the total number of race dashes conducted during that calendar year that qualify for a distribution. For	10 % of net slot revenue 2009 revenue: $5,227,968 * $50,000 to operating account to support the administration of the Harness racing commission in accordance with 8 MRSA §267-A	This fund provides funds to supplement harness racing purses for races conducted at commercial tracks and agricultural fairs. The fund is distributed using a formula based on the number of race dashes assigned to a track divided by the number of race dashes assigned to all tracks. **Formula for distribution:** Money available in fund *Multiplied by the fraction* Dashes assigned to a track Dashes assigned to all tracks Dist. = Fund $ X (track dashes/ all dashes) This fund is also authorized to set aside funds to support the operating account provided for under §267-A

purposes of this subsection, a race dash qualifies for distribution if the dash was conducted by a commercial track or by an agricultural fair licensee on dates assigned under Title 7, section 84 or during an extended meet. The funds distributed pursuant to this subsection must be used to supplement harness racing purses. This subsection takes effect December 31, 2009. **3. Rules.** The commission may adopt rules to enforce the obligation of licensees to use funds distributed under this section to supplement harness racing purses and to require licensees to account for funds. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.		Although rules are authorized, none have been adopted under this specific authority to date. Harness Racing commission rules already provide detailed provisions with regard to wagering and distribution of purses.
8 §281. Standard-bred horses The department shall encourage and promote the breeding of a strain of Maine Standardbreds and make provision to encourage donations of the same by licensees or others to persons or institutions within the State for breeding purposes. The commission, by rule, may define a strain of Maine Standardbred, bred or owned in the State of Maine and registered with the department in its registry book. The commission is also authorized to establish necessary fees for horses and races in the establishment of a Maine Standardbred program, the funds from which must be administered by the department by deposit in a trust account entitled Sire Stakes Fund. The fund is a dedicated, nonlapsing fund and all revenues deposited in the fund remain in the fund and must be disbursed in accordance with this section. All disbursements from the fund must be for the purposes of supplementing purses, costs of administration, including assessments and advances withdrawn in accordance with section 267-A, and any other appropriate expenses incurred by the department. A report must be submitted annually by the executive director to the commissioner setting forth an itemization of all deposits to and expenditures from the fund.	3% of net slot revenue 2009 revenue: $1,568,390 **$15,000 to operating account under 8 MRSA §267-A	Also known as sire stakes – which describes purses for races involving Maine Standardbred horses. This fund provides revenue for enhanced purses for sire stakes races and provides support for the operating expenses of the standardbred horse program. This fund is also authorized to provide funds for the Harness Racing Commission operating account

7 §91. AGRICULTURAL FAIR SUPPORT FUND **1. Fund created.** The Treasurer of State shall establish an account to be known as "the Agricultural Fair Support Fund" and shall credit to it all money received under Title 8, section 1036, subsection 2, paragraph D. The fund is a dedicated, nonlapsing fund. All revenues deposited in the fund must be disbursed in accordance with this section, except that assessments and advances may be withdrawn in accordance with Title 8, section 267-A. **2. Disbursement.** No later than January 31st of each year, all funds held as of the end of the previous calendar year in the Agricultural Fair Support Fund must be distributed by the Treasurer of State as follows: A. Thirty-four percent of these funds must be distributed to all commercial tracks as defined in Title 8, section 275-A and to all fair licensees that during the previous year were licensed to and did accept pari-mutuel wagers on harness horse races. These funds must be distributed in the manner prescribed in Title 8, section 298; and B. Sixty-six percent of these funds must be divided among all fair licensees that were licensed during the previous year. These funds must be distributed to licensees according to the proportions established by section 86, subsection 5 and may be used at the licensee's discretion. To receive distribution under this paragraph, a licensee holding pari-mutuel racing in the previous year must have been in compliance with section 89.	3 % of net slot revenue 2009 revenue: $1,568,390 ** $15,000 to operating account under 8 MRSA §267-A	34 % of this fund is distributed to commercial tracks and fairs that conduct live racing. This money is distributed using the same formula as under section 298 for harness racing purse supplements. 66% of this fund is distributed to all fair licensees (whether they race or not). This money is distributed proportionally based on the premiums (prizes) paid to participants for things like displays of livestock or poultry, display of vegetables, plants, flowers, pulling contests, canned goods, crafts et.... This fund also covers the administration of the fair program within the Department of Agriculture ($133,281 in 2009 or 13% of fund after operating account deduction) Fund is authorized to support operating account under 8 MRSA §267-A
8 §299. Fund to Encourage Racing at Maine's Commercial Tracks **1. Fund created.** The Fund to Encourage Racing at Maine's Commercial Tracks is established to provide revenues to Maine's commercial tracks. The fund is a dedicated, nonlapsing fund. All revenues deposited in the fund remain in the fund and must be disbursed in accordance with this section, except that assessments and advances may be withdrawn in accordance with section 267-A. **2. Distribution.** On May 30th, September 30th and January 30th, all amounts credited to the fund established by this section as of the last day of the preceding month and not distributed before that day must be distributed to each commercial track licensed under section 271, with each track receiving that amount of the money available for distribution determined by multiplying that amount times a fraction, the numerator of which is the total number of live race days conducted by the commercial track during the preceding time period and the denominator of	4% of net slot revenue 2009 revenue $2,091,187 ** $20,000 to operating account under 8 MRSA §267-A	Straight distribution to commercial tracks in Scarborough and Bangor Distribution formula based on the formula using the number of race days Distribution: Money available in the fund *Multiplied by the fraction* Number of race days by that track Number of raced days by all tracks

which is the total number of race days conducted by all commercial tracks licensed under section 271 during that time period. The payment in January must be adjusted so that for the prior 3 time periods each commercial track receives that fraction of the total money distributed over the full year from the fund established by this section, the amount determined by multiplying the total amount of money times a fraction, the numerator of which is the number of live race days conducted by the commercial track during the calendar year and the denominator of which is the total number of race days conducted by all commercial tracks licensed under section 271 during that calendar year.		Dist. = Fund $ X (track race days/all race days) Authorized to set aside funds for operating account under 8 MRSA §267-A
8 §300. Fund to Stabilize Off-track Betting Facilities **1. Fund created.** The Fund to Stabilize Off-track Betting Facilities is established to provide revenues to those off-track betting facilities licensed and in operation as of December 31, 2003. The fund is a dedicated, nonlapsing fund. All revenues deposited in the fund remain in the fund and must be disbursed in accordance with this section, except that assessments and advances may be withdrawn in accordance with section 267-A. **2. Distribution.** On May 30th, September 30th and January 30th, all amounts credited to the fund established by this section as of the last day of the preceding month and not distributed before that day must be distributed to each of Maine's off-track betting facilities licensed and in operation as of December 31, 2003. Distributions must be made in equal amounts to each off-track betting facility in operation as of the date of the distribution.	2% until October 2009 1% November 2009 forward (remaining 1% undedicated general fund distribution) 2009 revenue (10 months at 2% and 2 months at 1%) $970,629 **$10,000 to operating account under 8 MRSA §267-A	Distributed equally to all off-track betting facilities 4 facilities in 2009 Waterville Lewiston Brunswick Sanford
22 §1511. Fund for a Healthy Maine established **Subsection 6** E. Prescription drugs for adults who are elderly or disabled, maximizing to the extent possible federal matching funds;	10% of net slot revenue 2009 revenue: $5,227,968	Revenue capped as a result of LD 1668 Public Law c. 462 Part H §1 **Sec. H-1. 8 MRSA §1036, sub-§2, ¶E,** as amended by PL 2005, c. 663, §12, is further amended to read: E. Ten percent of the net slot machine income must be forwarded by the board to the State Controller to be credited to the Fund for a Healthy Maine established by Title 22, section 1511 and segregated into a separate account under Title 22, section 1511, subsection 11, with the use of funds in the account restricted to the purposes described in Title 22, section 1511, subsection 6, paragraph E . For the fiscal years ending June 30, 2010, June 30, 2011 and June 30, 2012, the amount credited annually by the State Controller to the Fund for a Healthy Maine under this paragraph may not

		exceed $4,500,000 annually and any funds in excess of $4,500,000 annually during these fiscal years must be credited as General Fund undedicated revenue;
20-A §10909. University of Maine System Scholarship Fund The University of Maine System Scholarship Fund is created and established as a nonlapsing fund under the jurisdiction and control of the Board of Trustees of the University of Maine System. All revenues credited to this fund must be distributed as need-based scholarships for students attending the University of Maine System. These scholarships may be awarded only to those students who are residents of the State. The fund may not be used for the costs of administering the scholarships. Fees credited from the University of Maine System registration plate pursuant to Title 29-A, section 456 may not be distributed as scholarships to students attending the University of Maine.	2% of net slot revenue 2009 revenue $1,045,594	
§12716. Financial aid **1. State scholarships.** The board of trustees shall develop and administer a program of scholarships for college students. Awards shall be based on evidence of individual need and worth. Students selected to receive a scholarship shall fulfill the following qualifications: A. Show evidence of the qualifications necessary to complete a course of study successfully and to become a competent technical or craft worker in an industrial, administrative or trade pursuit; B. Show demonstrated ability and willingness to support the expenses of education and training; and C. Show demonstrated need of financial assistance to help pay the cost of college attendance.	1% of net slot revenue 2009 revenue: $522,797	
1% to Host municipality	1% of net slot revenue 2009 revenue: $522,797	Host municipality also receives $25,000 of the $75,000 annual renewal fee for a slot machine operator license

STATE OF MAINE
DEPARTMENT OF AGRICULTURE
FOOD AND RURAL RESOURCES

September 9, 2010

Senator Nancy B. Sullivan, Senate Chair
Pamela Jabar Trinward, House Chair
Joint Standing Committee on Legal and Veteran Affairs
100 State House Station
Augusta, ME 04333-0100

Senator Sullivan:
Representative Trinward:

This letter is response to your request for information regarding your review of the distribution of funds generated at the Racino in Bangor, Maine. First let me explain to you that I am the conduit for distributing those revenues generated to support the harness racing industry and the agricultural fairs. The distribution formulas and dates for distribution are found in 8 M.R.S.A. Sections 281 and 298 through 300, inclusive, and 7 M.R.S.A. Section 91.

I believe there is a misunderstanding as to the distribution of funds from the Sire Stakes Program. Each licensed live racing facility hosts a portion of the Sire Stakes Program races throughout the summer and early fall. The Department develops a Purse Construction Sheet that indicates how the purses are to be developed for each of the Sire Stakes races. Each track fills out the form and forwards it to me for verification and then I process the sheets for payment and request the Treasurer of the State to forward the payments to the host track. I do not forward any monies to the individual owners that participate in the races for this program.

The information that was requested by Representative Valentino relative to how much money was paid to each participant in the Sire Stakes Program was developed by the Maine Standardbred Breeders and Owners Association. I have asked that organization to provide that information to the Committee rather than have them pass it thorough this office. I hope this is an acceptable alternative to my making it available since it is their information and not generated by the Commission.

I am attaching a spreadsheet that indicates how much money was received by each qualified licensee for the years 2005 through including 2009. These distributions are based on calendar years pursuant to the above mentioned statutes. Each Fund will have its own spreadsheet which will include the recipient name and amount received for that year. I will also attach a spreadsheet for the Sire Stakes Program that indicates the amount received by each licensee that

hosted one or more of the Sire Stakes Program races. Further I will provide a spreadsheet indicating how much money was transferred from each of the Racino Funds to the Commissions operating budget beginning with Fiscal Year 2009.

I believe that I have provided all the information that has been requested from this office; however, if additional information is required please do not hesitate to contact me.

Sincerely yours,

Henry W. Jackson
Executive Director

ENC.

During the Second Regular Session of the 123rd Legislature the Harness Racing Commission was granted permission to transfer monies from revenues generated for the following Funds: Purse Supplement, Agricultural Fair Support, Sire Stakes, Off-track Betting, and Commercial Racetrack.
The transfer of monies is based on the amount necessary to transfer in proportion to the percentage each Fund receives from the Racino Cascade.

STATE OF MAINE
MAINE DEPARTMENT OF AGRICULTURE, FOOD & RURAL RESOURCES
MAINE HARNESS RACING COMMISSION
28 STATE HOUSE STATION
AUGUSTA, MAINE
04333-0028

John Elias Baldacci
GOVERNOR

Seth H. Bradstreet, III
COMMISSIONER

September 14, 2010

Senator Nancy B. Sullivan, Senate Chair
Representative Pamela Jabar Trinward, House Chair
Joint Standing Committee on Legal and Veteran Affairs
100 State House Station
Augusta, ME 04333-0100

Senator Sullivan:
Representative Trinward:

As requested by the Joint Standing Committee on Legal and Veterans' Affairs, I am submitting this review of the allocation of slot machine revenue in accordance with Public Law 2009c. 571 Part FFF.

This review of the distribution of the Agricultural Fair Support Fund pertains to the Agricultural Fair Coordinator Account (014-01A-5695-01) and the 25 Licensed Agricultural Fairs, all of whom receive funds. 3% of the net revenue from the slot machine facility is distributed to licensed Maine Agricultural Fairs. Of the 3% going to the Maine Agricultural Fairs, 34% of the revenue is distributed to all harness racing tracks (2 commercial tracks and 9 fair tracks) with the remaining 66% going to all licensed Maine Agricultural Fairs. The distribution of the Agricultural Fair Support Fund is done on the calendar year. The funds earned in 2005 were not distributed to the Fairs until early in 2006. The spending of the Racino funds by the Fairs started in calendar year of 2006.

Most all the Maine Agricultural Fairs are run by volunteers, and very few have full time employees. I requested a breakdown of how the Racino money was spent by each Fair, and found that most Fairs did not keep the Racino funds separate from their operating funds. You can see from the enclosed schedules, the money was used to improve the fairgrounds, or to increase premiums paid to exhibitors at the fairs.

Prior to receiving funds from the Agricultural Fair Support Fund Maine Fairs did and still do receive money from the Stipend Fund. This Fund has for the past several years decreased, as its source of money comes from the Harness Racing Handle. This Fund has decreased over 16% since 2003.

The Agricultural Fair Support Fund has made up the shortfall allowing Agricultural Fairs to make needed capital improvements to the grounds, give back more premiums to exhibitors and provided more agricultural demonstrations as well as higher quality entertainment. In short, many of the Maine Fairs would not be able to keep up with the ever changing regulations and requests from the public if the Agricultural Fair Support Fund was not available.

Sincerely,

Frederick B. Lunt, Jr.
Fair Coordinator

Review of Allocation of Slot Machine Revenue
Agricultural Fairs
September 2010

The Agricultural Fair account (014-01A-5695-01) receives 13% of the 66% of the Premium Reimbursement Fund available each year to the 25 Agricultural Fairs since 2005. The funds are used exclusively to support the activities of this program. The Funds are distributed on a calendar year. Funds are used for personal services, fringe benefits, for the Fair Coordinator (Agricultural Promotional Coordinator) testing of pulling animals and the Pull Event Commission expenses. The expenses of the Fair Evaluators are also paid from this account as outline in the State Statutes. Other expenses such as vehicle expense, expenses of the mobile exhibits, travel and general operating expense are paid from these funds.

The following shows the amounts received and amounts expended in totals;

Year	Amount Received		Amount Spent
2006	$9,159.00		$121,204.00
2007	$82,045.00		123,387.00
2008	95,636.00		137,525.00
2009	112,612.00		137,811.00
2010	133,281.00	to April 2010	115,879.00

This account also receives funds from the Stipend Fund. Since 2003 to date this fund has reduces by 16%. The Premium Reimbursement Fund has provided funding to make up for reduction. This account only operates from dedicated funding.

Bangor State Fair
Bangor, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$3,083.00
2007	24,198.00
2008	28,470.00
2009	23,014.00
2010	35,409.00
Total Received	$1,141,740.00

This is a municipal owned and operated Fair. The revenues from the Bangor State Fair become part of the total operating budget of the Bass Park Fund.

Average paid attendance for 2006 to 2009 is 58,000 people.

Clinton Lions Club Fair
Clinton, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006		$1,188.00
2007		10,254.00
2008		13,297.00
2009		18,658.00
2010		22,766.00
	Total Received	$66,163.00

The Fair reported using The Agricultural Fair Support Funds on the following:

New food and office building, improvements to other buildings	$25,587.00
New equipment for buildings and grounds	20,929.00
Sound System updating	1,824.00

Total spent	$35,093.00

Average paid attendance reported for 2006-2009 is 4200 people.

Cumberland Farmers Club
Cumberland Fair
Cumberland, Maine

This Fair received the following funds from the distribution of the Agricultural Support Fund;

2006	$4,823.00
2007	44,033.00
2008	48,765.00
2009	66,335.00
2010	66,415.00
Total Received	$230,371.00

This Fair reported spending the following funds on improvements:

Improvements to buildings	$65,333.00
New fencing	8,551.00
New Maple Sugar House	10,927.00
Payment on Land Purchase	20,527.00
Purchase of equipment	50,014.00
Payment and interest on 2 loans	31,567.00
Electrical and plumbing update of campgrounds	5,796.00
Total Spent	$192,715.00

Average paid attendance reported for 2006-2009 is 24,600 people.

Franklin County Agricultural Society
Farmington Fair
Farmington, Maine

This Fair received the following amounts for the Agricultural Fair Support Fund:

2006	$2,694.00
2007	25,227.00
2008	30,402.00
2009	35,778.00
2010	45,342.00
Total Received	$139,443.00

This Fair used the Agricultural Fair Support Fund on the following:

Rehab an Old School House moved on to grounds	$41,978.00
Hot topped midway area	18,412.00
Repairs to Buildings	34,198.00
Purchased a horse barn on Fair Grounds	38,245.00
New Bathroom	56,624.00
Purchased equipment for Fair Grounds	31,131.00
New Fencing	2,950.00
Total Spent	$223,538.00

Average paid attendance reported for 2006-2009 is 24,600 people

Hancock County Agricultural Society
Blue Hill Fair
Blue Hill, Maine

This Fair received the following funds from Agricultural Fair Support Fund:

2006	$2,112.00
2007	21,330.00
2008	19,897.00
2009	26,370.00
2010	37,837.00
Total Received	$107,546.00

This Fair reported spending the following funds:

Electrical, fencing, and bleachers	$11,476.00
New buildings and additions to existing building	15,000.00
Improvements to infrastructure	50,206.00
Total spent	$76,682.00

Average reported paid attendance for 2006-2009 is 29,600 people.

Harmony Free Fair
Harmony, Maine

This Fair received the following funds from the Agricultural Support Fund:

2006	Was not a licensed Agricultural Fair until 2007	
2007		$2,659.00
2008		6,173.00
2009		7475.00
2010		8,220.00
	Total received	$24,527.00

This Fair spent the Agricultural Fair Support Funds as follows:

Installed Septic System on Grounds	$16,998.00
Built new public bathrooms	63,925.00
Build new animal barn	5,640.00
Built new exhibit hall	12,620.00
Improvement to electrical system	5011.00
Total Spent	$104,194.00

Average reported attendance for 2006-2009 is 9500 people.

Houlton Fair
Houlton, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$2840.00
2007	21,735.00
2008	21,230.00
2009	33,657.00
2010	41,169.00
Total Received	$120,631.00

This Fair reported spending the following funds:

Build new buildings		$6,033.00
Improvements to buildings		12,220.00
Improvements to grounds		7,380.00
Electrical upgrade		9,095.00
New equipment		14,337.00
Upgrade to entertainment		50,837.00
Purchased land for new Fair Grounds	(down payment)	20,000.00
Payment on Exhibit Hall Mortgage		42,500.00
Increased premiums paid		5,500.00
Consultant to lay out new land		7,400.00
Payment on new land		19,005.00
Total Spent		$194,307.00

Average paid attendance reported for 2006-2009 is 12,750 people.

This Fair is now using land owned by the Town. They have built some buildings that they plan to move to their new location once the new Fair Ground is built.

Litchfield Farmers Club, Inc.
Litchfield Fair
Litchfield, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,511.00
2007	13,432.00
2008	16,788.00
2009	19,039.00
2010	25,116.00
Total Received	$75,886.00

This Fair reported spending the following funds:

Increase premiums paid to exhibitors	$37,943.00
New Bathroom	25,158.00
New Livestock scales and building	9,118.00
Repairs and updating of buildings	9,635.00
Additional Entertainment	7,065.00
New Entertainment Stage	8,065.00
Total Spent	$96,984.00

Average paid attendance report for 2006-2009 is 9600 people.

Maine Organic Farmers and Gardeners Association
Common Ground Country Fair
Unity, Maine

This Fair received the following from the Agricultural Fair Support Fund:

2006	$1,059.00
2007	2,668.00
2008	9,338.00
2009	10,598.00
2010	27,337.00
Total received	$51,000.00

This Fair reported using the Agricultural Fair Support Funds along with other funding to upgrade their facility.

Construct new exhibition barns, greenhouses, wind-turbine generator, grey water system, fire suppression system, upgrade electrical systems and install solar panels.	$150,815.00
Purchase livestock gates, land improvement	13,193.00
Install new lighting, new communications equipment, signage	22,260.00
Updated kitchen to comply with food-safety code	28,221.00
Purchase of land	139,000.00
Total spent	$353,489.00

Average reported paid attendance for 2006-2009 is 41,830 people.

New Portland Lions Club Agricultural Fair
North New Portland, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$439.00
2007	4,080.00
2008	3,933.00
2009	3,654.00
2010	5,700.00
Total received	$17,806.00

This Fair reported spending the following funds:

Improvements to buildings and build new buildings	$8,914.00
Improvements to plumbing system	2,357.00
Electrical and PA systems	1,715.00
Repairs to animal pulling ring	1,315.00
Total spent	$14,301.00

Average paid attendance reported for 2006-2009 is 4680 people.

Northern Maine Fair
Presque Isle, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$2,740.00
2007	27,333.00
2008	30,976.00
2009	30,188.00
2010	44,542.00
	Total received $135,779.00

This Fair reported spending the following funds on improvements:

New Building	$125,000.00
Improvements to existing building	31,295.00
New exhibit area	15,000.00
Electrical improvements	52,815.00
Safety Improvements to mechanical pulling track	50,000.00
New fence (State Street)	8,000.00
	Total Spent $282,110.00

Average paid attendance reported for 2006-2009 is 24,800 people.

Ossipee Valley Agricultural Fair
South Hiram, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,615.00
2007	15,418.00
2008	17,396.00
2009	21,034.00
2010	24,043.00
	Total received $79,506.00

This Fair reported spending the following funds on improvements:

Premiums Increase Paid	$8,347.00
Improvements to buildings	4,892.00
Electrical improvements	23,870.00
Plumbing Improvements	4,350.00
Land Improvement	7,014.00
Paving	6,720.00
Digital Time Clock	978.00
	Amount Spent $56,171.00

Average paid attendance reported for 2006-2009 is 6500 people.

Oxford County Agricultural Society
Oxford County Fair
Oxford, Maine

This Fair received the following funds from the Agricultural Fair Support Fund

2006	$1,994.00
2007	18,234.00
2008	21,942.00
2009	27,692.00
2010	24,919.00
	Total Received $94,781.00

This Fair reported the following funds spent on improvements:

New Buildings	$98,034.00
Expo 1 improvements	14,634.00
Electrical Improvements	63,329.00
Fencing	7,987.00
	Amount spent $183,984.00

Average paid attendance reported for 2007-2009 is 21,500 people

Piscataquis Valley Fair
Dover- Foxcroft Fair
Dover- Foxcroft, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,254.00
2007	10,774.00
2008	12,740.00
2009	18,280.00
2010	15,992.00
	Total Received $59,040.00

This Fair reported the following funds spent on improvements:

New Bathroom	$7,503.00
Improvement to existing buildings	11,324.00
New Ice Cream Parlor	6,930.00
New Stage	18,502.00
	Amount Spent $44,259.00

Average paid attendance reported for 2006-2009 is 9280 people.

Pittston Fair
Pittston, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,267.00
2007	9,054.00
2008	12,104.00
2009	18,334.00
2010	18,772.00
	Total received $59,531.00

This Fair reported spending the following funds on new equipment and improvements to the fair grounds.

Building repairs and improvements	$112,748.00
New Equipment	14,106.00
New Buildings	98,242.00
Repairs to utilities	78,147.00
Repairs to outdoor facilities	13,178.00
Total repairs and improvements	$316,421.00

Average paid attendance reported for 2006-2009 is 3390 people.

Sagadahoc Agricultural & Horticultural Society
Topsham Fair
Topsham, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,999.00
2007	9,700.00
2008	12,932.00
2009	20,398.00
2010	23,345.00
	Total received $68,374.00

This Fair reported the following funds spent on improvements:

Repairs to Building (exhibit hall)	$10,800.00
New buildings	4,998.00
New security system	1,347.00
Electrical improvements	23,188.00
Repairs to race track	20,107.00
	Amount spent $60,440.00

Average paid attendance reported for 2006-2009 is 18,800 people.

Skowhegan State Fair
Skowhegan, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$4,417.00
2007	43,167.00
2008	53,582.00
2009	57,891.00
2010	64,444.00
	Total Received $223,501.00

This Fair reported the following funds spent:

New fencing	$9,209.00
New Barn	133,587.00
Purchase of additional Property	84,764.00
Repairs to buildings	15,800.00
Electrical and phone updates	10,594.00
Water line and plumbing improvements	3,727.00
Painting Buildings	6,699.00
New Computers and programs	6,552.00
New Picnic Tables	2,469.00
Paving	17,650.00
	Amount spent $291,251.00

Average paid attendance reported for 2006-2009 is 56,000 people.

Springfield Fair Association, Inc.
Springfield Fair
Springfield, Maine

This Fair received the following funds from the Agricultural Fair Support Fund:

2006	$1,145.00
2007	9,700.00
2008	12,932.00
2009	20,398.00
2010	23,345.00
	Total received $67,520.00

The Fair reported spending the following on repairs, new structures, and equipment:

Repairs to building	$35.190.00
New Structures	25,878.00
Electrical and plumbing improvements	12,299.00

The Acton Fair reported that they have spent the following funds:

Paid off loan on newly constructed bathroom	$5,118.00
Paving on Fair Grounds	5,950.00
Electrical upgrade	3,168.00
Premiums paid to exhibitors	8,960.00
Roof over bleachers	1,050.00
Improvements to Water Supply	2,003.00
New Exhibition/museum Building	32,270.00
Total Spent	$58,519.00

Average paid attendance from 2006 to 2009 has been 10,800 people.

REPORT TO JOINT STANDING COMMITTEE ON LEGAL AND VETERANS AFFAIRS

REVIEW OF ALLOCATION OF SLOT MACHINE REVENUE ('the CASCADE')

Submitted on behalf of

LRI, Inc. d/b/a Winner's Circle OTB

Lewiston, Maine 04240

LRI, Inc. has been in operation as an Off Track wagering facility (OTB) since 1995. At that time, the OTBs in the State of Maine, were the single reason that harness racing continued. Like most parts of this Industry, it was developed to become a viable part of the Industry and provide economic stimulus to the rest of the Industry. It acted as a lifeline, to match changes in technology and the ever changing world. As it did to all of its Industry compatriots that existed prior, it too needed a lifeline, with the addition of a Racino in the State of Maine. Negotiations between the Racino and the Industry produced a model, whereby additional funds not contemplated by the Voter's Referendum, would go to the State of Maine, and each participant in the Industry. The greater good of sustaining the Industry in its entirety and softening the economic hardship that a Racino would place on the Industry was turned in to Legislation by your predecessors on the Legal and Veterans Affair Committee. Through much testimony, and the learning of the Industry, the prior Committee saw economic value in using additional funds which the Racino operator agreed to distribute, to sustain the economic benefit of this proud and historic broad reaching Industry.

The result was exactly as the law had intended. For without this "cascade" many participants in the Industry would no longer be viable. While I won't talk to the benefits achieved by the Sires Stakes, the purses that the Industry races for, the Tracks not fortunate enough to have slot revenue, and the broad based and historic Fairs of our Great State, I will speak to what the cascade has done for the OTBs.

Without this cascade, Lewiston and Brunswick would not have been able to build new facilities and modernize their facilities to reach out further to broaden the fan base. While both of them did their construction at a time when the economy was collapsing; this speaks volumes as to their dedication to the Industry and their reliance on the future of the cascade. Every OTB facility would be operating at a loss if it were not for the cascade. At the time of the Racino

passing, there was legislation that would have placed slot machines in each of the OTBs (as well as Scarborough Downs), giving life blood to them, to the Industry and the State. This legislation was overwhelmingly supported by 85+% of the then existing legislature and waiting for a Governor's signature. As part of the negotiations to not get into a veto fight, the Governor and Legislature suggested with the approval of the Industry and the Racino operator this cascade of funds generated from a percentage of revenue that was suppose to stay with the Racino according to the Voter's Referendum.

It would be a mistake to look at any single portion of the cascade, since each of the participants pay to the State and others, far more than they receive. Since the cascade of funds from the Racino first started, the following chart shows money received by the Lewiston OTB and money generated and paid the State of Maine.

	Racino Fund to OTB	Money Paid to the State of Maine
2005	17,788.56	937,948.81
2006	159,373.20	867,287.00
2007	185,773.20	795,816.80 (NEW OTB Constructed 11/07)
2008	234,785.80	865,996.75
2009	240,157.20	729,929.88
2010 proj	150,943.62 estimate	635,000.00 estimate

As you can see, we pay into the State a far greater amount of money than we generate (money we earn) from the Racino cascade. The economic impact of the funds we generate for the Industry make this an even greater number. Clearly, it would be a mistake and short sighted to change the cascade and lose the benefit of the OTBs.

In our case, the Lewiston OTB went even a step further building a $1 Million facility to revitalize the handle and the funds generated by the OTB. We succeeded but have fallen into one of the worse economic climates of our time. We invested money we needed just to operate to benefit all within the Industry and the State. We invested more than we have received from the cascade. Again, clearly matching the intentions of what this cascade was to do for the OTBs.

It has been questioned as to what guidance or assurance there is that these funds are doing what they were intended. Each year the Racing Commission overseas our financials and our list of capital improvements. Each year it has become clearer that this cascade is necessary for operating expenses alone. We pay too great of a percentage to the State and the Industry

participants with the basic formula of the OTB existence. The Tracks offer the same wagering on out of state signals and keep 50% more of their income. Since 1995, we have operated without the ability to raise pricing since it is a formula of the law, while expenses around us have grown annually. (if they grew 3% per year, then they have gone up 45% since our inception while our ability to raise pricing has been ZERO). We earn and pay to the State a greater income number, than we ever receive from the cascade but we, as participants in the industry participate. We give the State almost 50% of what we earn. To take one away without an adjustment of the other will be suicide and statement that you no longer want the benefit of what these operations bring to the Industry and to the economic impact we create for jobs, local suppliers, real estate taxes and consumer spending. All of these factors were discussed in the "the Economic Impact of the Equine Industry in Maine" as it pertains to the impact of harness racing for the State of Maine. The conclusions were astounding as to the Millions generated and jobs created.

The following outlines our income, money generated for the State of Maine, and the expenses that have been rising over the 15 years of our existence without the ability to raise our pricing. Also note, that almost 50% of our income generated goes to the State. This is the highest taxed OTB model in the United States and for that matter in the world. It is the layered industry that this State has created that makes it work. But like a house of cards, one card removed (one income source changed) and the results will be a crashing of the Industry and many of its participants.

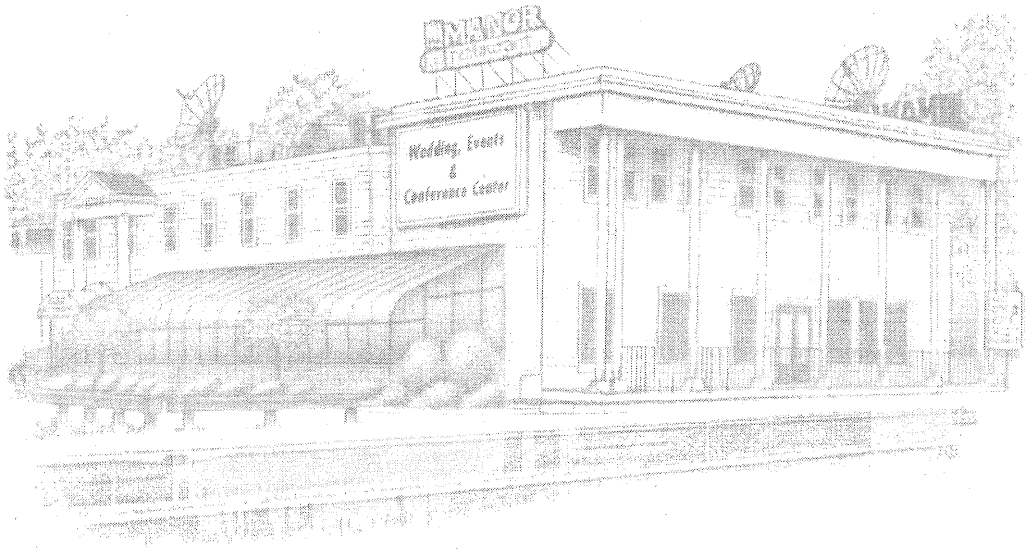
Report to Joint Standing Committee on Legal and Veterans Affairs
Review of Allocation of Slot Machine Revenue



Submitted by
Autotote Enterprises
The Turf Club at John Martin's Manor
55 College Avenue
Waterville, ME

The Turf Club at John Martin's Manor

Autotote Enterprises, Inc. purchased John Martin's Manor in June 2005. The sale included the real estate, restaurant and Off-Track Betting operation.

Autotote continued to operate the restaurant in an effort to preserve jobs, grow the business and maintain a cherished local institution that was an important part of the local community. Unfortunately, declining consumer demand led to the closing of the restaurant in December 2007.

The racino funds, also known as the cascade, are critical in sustaining the operation in the midst of a poor economy, declining handle, escalating costs, and general operating expenses. Without the funds, John Martin's Manor would cease to exist.

The economic benefit of the cascade has been measureable.

Since June 2005 - 2009, Autotote generated $1, 813,953 in payroll employing people in Waterville and surrounding communities. In addition, it has purchased goods and services from numerous small businesses in the area.

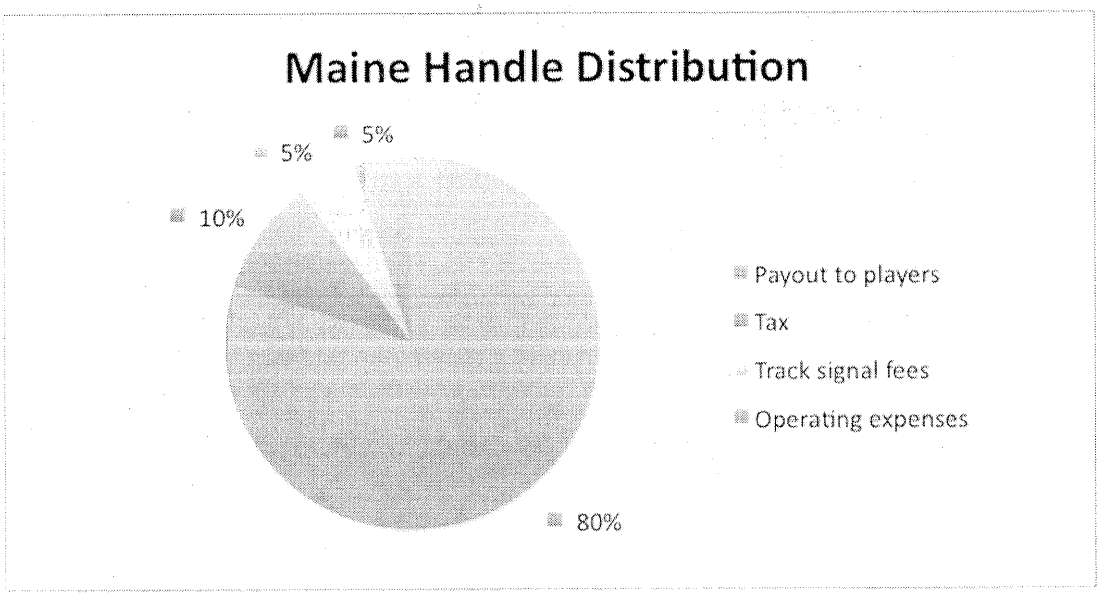
Autotote pays ten percent in state tax that fund purses for the harness industry. From 2005 through 2009, Autotote has paid $2,507,387 in taxes to the State of Maine.

Direct Economic Impact 2005 – 2009	
Pay-Roll	$1,813,953
Tax to State & Industry	$2,507,387

Economics of Pari-Mutuel Wagering

Understanding the economics of pari-mutuel wagering is critical to understanding the obstacles facing off track wagering. When someone places a wager in Maine, approximately 20% of that wager is retained by the operator; however, 80% is redistributed to the players as winning pay-outs. From the 20% that is paid to the operator, the operator has to give one-half to the racing industry. As a result, the operator receives 10% of the wager to cover all other expenses such as track fees, employee compensation, maintenance and repair to the premises and other expenses.

Handle Allocation



From 2005 – 2009, the Turf Club at John Martin's Manor contributed $2,507,387 in tax revenue.

Autotote employed 15 people in 2008 and 14 in 2009.

Employees				
	Full	Part time	Total	Pay-roll
2009	1	13	14	$163,384
2008	1	14	15	$164,066

In a study, *The Economic Impact of the Equine Industry in Maine,* prepared for the Maine Harness Racing Promotion Board and the Maine Farm Bureau Horse Council analyzed the impact of harness racing for the state including live racing and off-track betting facilities. According to the study:

"The direct business sales in 2006 at live racing and off track betting facilities amounted to approximately $20 million. These sales created 500 jobs and $7 million in income.

The indirect, or supply chain impact of the $20 million in business sales amounts to an additional $5 million in business sales, supporting an additional 75 jobs earning an income of about $2 million.

The induced, or consumer spending, impact of the direct and indirect spending amounts to almost $15 million in additional business sales, with another 175 jobs earning approximately $6 million in income.

The $20 million in sales at these live racing and off-track betting facilities results in approximately $40 million in total sales for Maine business and support an estimated 750 jobs earning about $15 million in income."

The regulatory requirements to operate an off track betting facility are costly. For instance, the OTB operators are required to have a Class A Restaurant / Lounge liquor license, which requires the operation of a restaurant. Unfortunately, operating a restaurant is difficult in any climate, but particularly during slower economic times.

Restaurant Operations	2008	2009
Revenue	$58,250	$64,453
Expenses	$162,531	$169,159
Total	- $104,275	-$104,706

Other significant expenses related to daily operations include

Significant Operating Expenses	2008	2009
Handle Related Expenses	$325,972	$256,624
Payroll	$163,384	$164,066
Utilities	$79,456	$69,964
Real Estate & Property Tax	$25,366	$25,366
State Tax	$500,255	$384,385

As such, the cascade has been necessary to keep the operation viable – creating jobs, supporting ancillary businesses and contributing to agribusiness. With the economic constraints imposed on OTB the Cascade is critical to OTB's survival.

The OTB network was established in 1995 to support the harness industry by generating revenue for purses, but the world has changed since the introduction of the OTB in the early nineties. Today, there is increased competition for people's discretionary income, including poker games, internet wagering, slot machines, etc.

It was the establishment of a Racino in Bangor that led to the creation of the cascade to help sustain the Off-Track Betting network, fairs and other segments of the harness industry, because the racing industry would be negatively impacted by competition from slot machines.

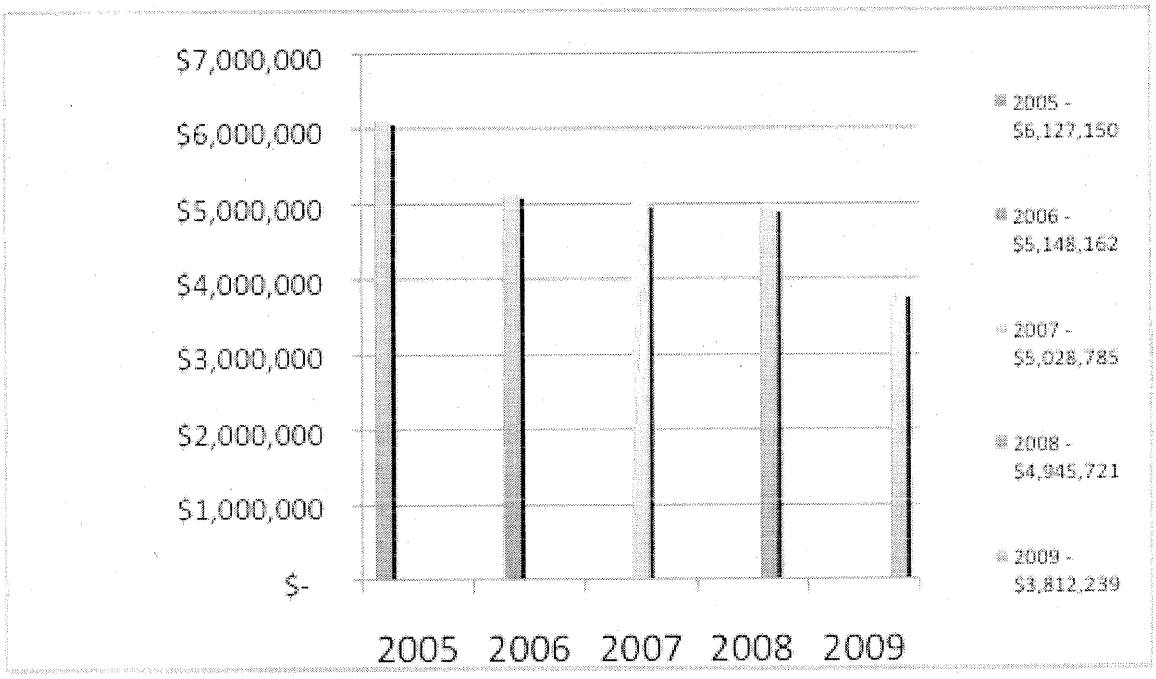
Many states have recognized this dilemma and have voted enthusiastically to support the pari-mutuel industries in their states because they are huge economic generators, employing thousands of people, supporting ancillary businesses, saving green space and sustaining a way of life and the traditional values communities cherish.

Since 2005, John Martin's Manor received $773,731 from the cascade, while providing the State of Maine with substantial tax revenue and employing Maine residents that we estimate has benefitted the State to over $4.3 million. This does not take into account local real estate and property taxes, money spent on goods and services and other expenditures.

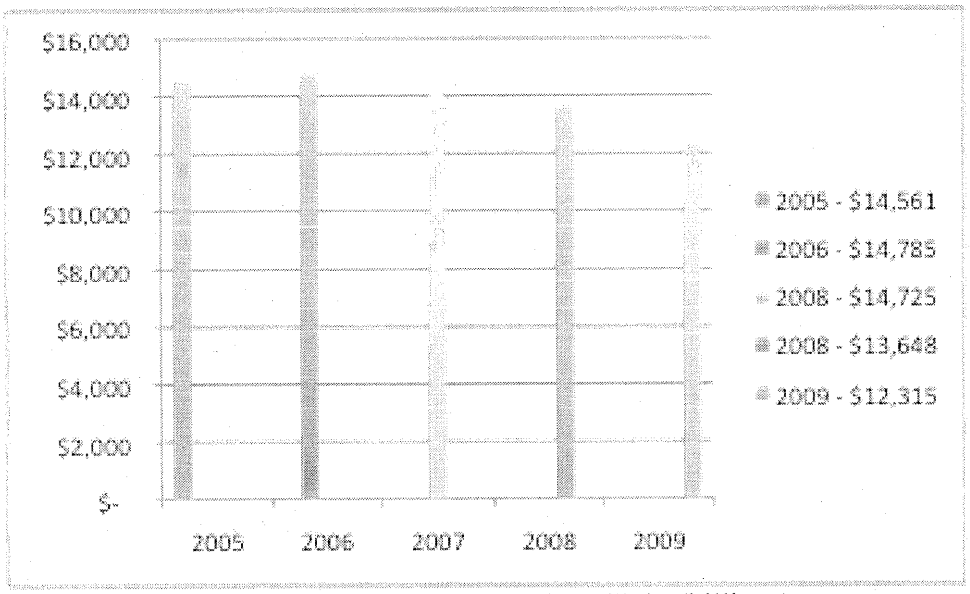
The Cascade is a vital part of the economics of owning and operating an off-track wagering operation in Maine, and AEI is strongly in favor of its continuation.

Declining Business at the Turf Club

Handle (money wagered) has been declining, not only in Maine, but also throughout the industry nationwide. Turf Club Handle:



National Thoroughbred Pari-Mutuel Handle Decline



Information from The Jockey Club. (billions)

Conclusion

The 10% tax on gross handle, increasing costs, declining handle and poor economy make for a difficult business climate. Due to this environment, John Martins Manor is in survival mode. At this time it is difficult to make significant capital expenditures, because the revenue stream may not support a return on investment. With the continued threat that the racino money may be rescinded, making long term decisions becomes difficult.

Autotote elected to preserve the on-going business that it purchased in 2005, generating over $1. 8 million in pay-roll, but was unsuccessful keeping the restaurant operation viable.

Autototote understands the importance to the state of Maine, to the breeders, owners, farm and track employees and ancillary businesses that support this vital agribusiness that has been such a big part of the tradition and history of the state. Autotote will continue to work to improve its operation in order to grow handle, generate revenue for the state and keep people gainfully employed. The continuation of the cascade is critical to the viability and sustainability of the Off-Track Betting operation.

RE: Cascades

Danielle Fox
Office of Policy and Legal Analysis
13 State House Station
Augusta, ME 04333

Dear Ms Fox,

Per the request of LVA, attached are the breakdowns requested for the September 27 Monday morning hearing.

All monies received from years 2005 to mid-2010, $879,296.41, from the Racino disbursements were used to offset expenses incurred during the day to day operations of our facility.

It enabled us to meet payroll, replace & maintain our heating/cooling systems, improve the building interior and exterior, etc. at our previous location of 24 Gurnet Road from 2005 to mid-2008. We were leasing our space from the Atrium Hotel since our inception of the family-oriented Winner's Sports Grill in 1993. In 1996 we opened Midcoast Off-Track Betting, followed by a banquet facility for private and large functions in 2005. The Atrium Hotel ceased their operations on September 11, 2006. From that point on Winner's was forced to heat and provide electricity for the entire building in order to stay open; despite our best efforts to find a new location. In mid-2008, we were given notice to vacate the building in ninety (90) days as it had been sold. From that day forward to present, the monies were used to find a new location and build, equip, and move into our present location at 20 Farley Road, as well as moving & storage expenses incurred for our furniture and equipment during the process. Before being forced to vacate, we employed thirty-plus (30+) people; we currently employ fifteen (15), due to downsizing.

Our intentions are to expand when the current economy improves and employ more people.

At present, we are utilizing the monies to pay down the balance of rebuilding & refurbishing of this location as well as the ongoing expenses of our day to day operations. We are all trying to survive in this industry, in spite of the economy. Our revenue is going down and all related expenses are rising. The vendors can pass on their price increases to us, but we are unable to raise our prices or get a reduction on percentages paid out to the entities involved in this venue. One of our largest money losses is maintaining our restaurant; its revenue does not exceed its expenses; unfortunately we have to continue in this venue according to present dictates of the gaming commission.

Regards,

Gary Sagris, President

Memorandum Submission of Sanford OTB

Members of Joint Standing Committee on Legal Veterans' Affairs,

Please accept this memorandum and the attached spreadsheet as the Sanford OTB's submission of information the Committee has requested concerning the use to which the Sanford OTB has placed the distributions it received under Maine law from the Bangor racino operation. We note initially the following:

1. Under that law, the OTBs' shared distribution has been reduced by one-half, from two percent to one percent;

2. The Fund to Stabilize OTBs was created because at the time the Bangor Racino was approved by Maine voters and by the Maine Legislature, Maine's OTBs were suffering steady declines in revenue; they were required to share substantial revenues with Maine harness racing, while competing with illegal and out-of-state wagering (including wagering on horse races) that does not share revenues with Maine harness racing.

3. The declines in OTB revenues were also attributable to the proliferation of other forms of gaming, including increased slot gaming in the northeast; several of our OTBs, including the OTB in Waterville, were expected to be particularly hard hit by the Bangor racino;

4. The Maine statutes governing the participants in Maine harness racing have long required revenue sharing, under which all venues contribute monies to various funds which are then distributed through the harness racing industry;

At this week's hearing, we sensed that some on the Committee believe no good public-policy justification supports the compelled revenue sharing created by Maine law, including the funds through which Racino revenues are distributed. We respectfully disagree. We note that many government programs are highly regarded precisely because the class of beneficiaries includes participating is substantial. For example, social security and medicare are highly regarded programs precisely because their benefits are available broadly – and not only to those who are considered most needy.

The particular benefit of forced revenue sharing the Maine Legislature has imposed on Maine Harness Racing includes the following benefits:

1. As expressly contemplated by statute it preserves the diversity of Maine's tracks and off-track betting facilities;

2. That diversity brings the enjoyment of harness racing to all corners of the state;

3. Each OTB contributes far more to Maine harness racing than it receives in its distribution from the racino, as is reflected on the attached spreadsheet;

4. The revenue sharing throughout harness racing has fostered a spirit of cooperation and mutual dependence of which both the Maine Legislature and the entire industry ought to be proud.

Thank you for your attention to this matter.

Respectfully submitted,

Sharon Terry, Member

TESTIMONY TO THE LEGAL AND VETERANS AFFAIRS COMMITTEE

REVIEW OF ALLOCATION OF SLOT MACHINE REVENUE ('the CASCADE')

Submitted on behalf of

LRI, Inc. d/b/a Winner's Circle OTB

Lewiston, Maine 04240

LRI, Inc. has been in operation as an Off Track wagering facility (OTB) since 1995. At that time and for the next 12 years, the OTBs in the State of Maine, were the single reason that harness racing, fair racing and the breeders program continued. Like most parts of this Industry, it was developed to become a viable part of the Industry and provide economic stimulus to the rest of the Industry. It acted as a lifeline, to match changes in technology and the ever changing world. As it did to all of its Industry compatriots that existed prior, it too needed a lifeline, with the addition of a Racino in the State of Maine. Negotiations between the Racino and the Industry produced a model, whereby the operator of the Racino would add additional money to the State of Maine, and each participant in the Industry. The greater good of sustaining the Industry in its entirety and softening the economic hardship that a Racino would place on the Industry was turned in to Legislation by your predecessors on the Legal and Veterans Affair Committee. Through much testimony, and the learning of the Industry, the prior Committee saw economic value in using additional funds which the Racino operator agreed to distribute, to sustain the economic benefit of this proud and historic broad reaching Industry.

The result was exactly as the law had intended. For without this "cascade" many participants in the Industry would no longer be viable. While I won't talk to the benefits achieved by the Sires Stakes, the purses that the Industry races for, the Tracks not fortunate enough to have slot revenue, and the broad based and historic Fairs of our Great State, I will speak to what the cascade has done for the OTBs.

Without this cascade, Lewiston and Brunswick would not have been able to build new facilities and modernize their facilities to reach out further to broaden the fan base. While both of them did their construction at a time when the economy was collapsing; this speaks volumes as to their dedication to the Industry and their reliance on the future of the cascade. If it were not for the cascade, every OTB facility would be operating at a loss because of the heavy portion that we pay to ~~the~~ each participant in the Industry. At the time of the Racino passing, there

was legislation that would have placed slot machines in each of the OTBs (as well as Scarborough Downs), giving life blood to them, to the Industry and the State. This legislation was overwhelmingly supported by 85+% of the then existing legislature and waiting for a Governor's signature. As part of the negotiations to not get into a veto fight, the Governor and Legislature suggested with the approval of the Industry and the Racino operator this cascade of funds generated from a percentage of revenue that was suppose to stay with the Racino according to the Voter's Referendum. If we had received the slot machines, the cascade of funds from the Racino would not have been needed.

It would be a mistake to look at any single portion of the Cascade. The Industry is built as a house of cards. First the Commercial meets were developed and added support to the Fairs, and Horsemen and Breeders. Then the OTBs were established and over 50% of their income goes to the State and supports the Commercial meets, Fairs, Horsemen and Breeders. Now the Cascade from the Racino does the same to all entities that existed before them. To take one card out of the structure would create a complete collapse. In the OTBs case, we pay over 4 times more into the Industry and to the State than we take out. Money that we earn, but do not keep because of the support we generate for the others within the Industry. This would all stop if the Cascade were taken away. Not one of the OTBs would survive unless you added back the slot machines that we compromised for this solution or reduced the amounts we place back into the Industry. We have never been an Industry that takes from within. We grow from new additions and work as a unit to support this great industry and the economic and rural benefits that it provides.

Since the Cascade of funds from the Racino first started, the following chart shows money received by the Lewiston OTB and money generated and paid the State of Maine.

	Racino Fund to OTB	Money Paid to the State of Maine
2005	17,788.56	937,948.81
2006	159,373.20	867,287.00
2007	185,773.20	795,816.80 (NEW OTB Constructed 11/07)
2008	234,785.80	865,996.75
2009	240,157.20	729,929.88
2010 proj	150,943.62 estimate	635,000.00 estimate

As you can see, we pay into the State a far greater amount of money than we generate (money we earn) from the Racino cascade. The economic impact of the funds we generate for the

Industry make this an even greater number. Clearly, it would be a mistake and short sighted to change the cascade and lose the benefit of the OTBs. But without the Cascade that is what would happen.

In our case, the Lewiston OTB went even a step further building a $1 Million facility to revitalize the handle and the funds generated by the OTB. We succeeded but have fallen into one of the worse economic climates of our time. We invested money we needed just to operate to benefit all within the Industry and the State. We invested more than we have received from the cascade. Again, clearly matching the intentions of what this cascade was to do for the OTBs.

It has been questioned as to what guidance or assurance there is that these funds are doing what they were intended. Each year the Racing Commission overseas our financials and our list of capital improvements. Each year it has become clearer that this cascade is necessary for operating expenses alone. We pay too great of a percentage to the State and the Industry participants with the basic formula created by the OTB law. The Tracks in the State of Maine offer the same wagering on out of state signals and keep 50% more of their income. Since 1995, we have operated without the ability to raise pricing since it is a formula of the law, while expenses around us have grown annually. (if they grew 3% per year, then they have gone up 45% since our inception while our ability to raise pricing has been ZERO). We earn and pay to the State a greater income number, than we ever receive from the cascade but we, as participants in the industry participate. We give the State almost 50% of what we earn. To take one away without an adjustment of the other will be suicide and statement that you no longer want the benefit of what these operations bring to the Industry and to the economic impact we create for jobs, local suppliers, real estate taxes and consumer spending. All of these factors were discussed in the "the Economic Impact of the Equine Industry in Maine" as it pertains to the impact of harness racing for the State of Maine. The conclusions were astounding as to the Millions generated and jobs created.

You cannot look at just one piece and say, "why not take" or "what if" .... there is a long evolution to this Industry, all of intertwined to keep each component alive. Many people make big economic decisions with the understanding of how money flows from this Industry and to not understand the big picture, and make one source change, will make the house of cards come crashing down. One card removed (one income source changed) and the results will be a crashing of the Industry and many of its participants. Is this what you want ?

The following outlines our income, money generated for the State of Maine, and the expenses that have been rising over the 15 years of our existence without the ability to raise our pricing. Also note, that almost 50% of our income generated goes to the State. This is the highest taxed OTB model in the United States and for that matter in the world. It is the layered industry that this State has created that makes it work. But like a house of cards, one card removed (one income source changed) and the results will be a crashing of the Industry and many of its participants.

HOLLYWOOD Slots
HOTEL & RACEWAY

September 13, 2010

The Honorable,

Sen. William Diamond, Chair
Rep. Emily Cain, Chair
Joint Standing Committee on Appropriations and Financial Affairs

Sen. Nancy Sullivan, Chair
Rep. Pamela Jabar Trinward, Chair
Joint Standing Committee on Legal and Veterans Affairs

Chairmen:

We at Hollywood Slots Hotel & Raceway respectfully submit this information in accordance with Part FFF of Chapter 571.

Bangor Historic Track (BHT) has been in existence since 1883; it has been through several ownership changes and currently is the primary responsibility of the City of Bangor. Hollywood Slots Hotel & Raceway is the lessee for the purpose of operating the harness racing facility, which is required by statute.

The Maine Harness Racing Commission (MHRC) has primary jurisdiction and responsibility for the regulatory and licensing functions of the commercial tracks. The Maine Harness Racing Commission approves all capital expenditures and the licensee uses those monies for the related improvements. Hollywood Slots Hotel & Raceway does not own the BHT, however, the attached charts and spreadsheets clearly establishes our investment in the track as the funds for capital improvements since 2005 well exceeds the allocated funds for capital improvements.

PNG assumed "control" of BHT when the citizen initiative to support gaming and related legislation to establish slots to support the harness racing industry was passed. In 2009, the harness operation employed 43 Mainers-- 5 were full time, 1 part time, and 24 seasonal/occasional, there were also 13 outside contractors. There are no attendance records as there is no admission fee for attendance. One can assume that attendance has fallen over the past several years by observing the decrease in revenue.

The Fund that the industry established, fittingly named the Commercial Meet Stabilization Fund, has allowed the commercial tracks to continue to operate. It has begun to do what it was intended to do—stabilize the industry. The Fund has allowed the horsemen to continue to operate and purchase horses from the breeders, which in turn, has allowed the fairs to have the horse supply and to continue to offer a product rich in history for Mainers to enjoy.

In closing, without the Commercial Meet Fund, BHT will be unable to operate at losses in the hundreds of thousands of dollars. BHT, and other commercial tracks like us, are the foundation for the industry; they create the horse supply needed to supply the fairs and all the affected vendors related to horse racing. If the commercial tracks do not exist, an entire industry will be extinct.

Thank you in advance for your time and if you have any questions, please feel free to contact me.

Sincerely,

R. Corey Smith
Director of Raceway Operations

Consolidated Submission of Davric Maine Corporation to the Joint Standing Committee of Legal and Veterans' Affairs

Introduction

To facilitated the committee's review, pursuant to 8 M.R.S. §1036(5) of the effect of racino distributions, Davric Maine Corporation submits this consolidated and supplemental submission explaining how the distributions to it of racino revenues from the fund known as the "Fund to Encourage Racing at Maine's Commercial Tracks," have satisfied their intended purpose of preserving the diversity of Maine's tracks and encouraging the conduct of live racing.

Summary

As previously outlined in the remarks of Sharon Terry, the funds have been essential to Davric's continued existence and operation. Maine voters in 2003, voted to allow both commercial tracks to operate slot machines. The details of the referendum, however, were drafted by consultants for an investor with an option to buy the Bangor racing operation, and he included a very short deadline to secure local approval, expecting that it would be more difficult for the southern Maine track to secure that approval. Faced with potential industry opposition to his referendum, the investor agreed to work with the industry to change that provision and also to divert a portion of his own share of his racino revenues to Davric and to others in the industry so that the referendum would serve its intended and advertised purpose – of enhancing the entire industry.

The Fund to Encourage Racing at Maine's Commercial Tracks was an important part of that compromise. Without that fund, the industry realized that the southern Maine track might fail and that the purse monies generated by the racino (which initially were to be available only at the Bangor facility in any event) even if shared with all surviving tracks might be available might be earned over a very short season. The result could well have been short meets run largely for wealthy out-of-state horse owners and the death of Maine's fulltime harness racing industry.

The fund has allowed Davric to survive, while it continues its pursuit of a gaming license, which it will need if the southern Maine track is to survive and Maine racing is to flourish in the long run, as was explained in 1997 by the Maine Harness Racing Task Force appointed by Governor King the prior year.

All of racino revenues distributed to Davric have offset the operating losses that an inevitable consequence of running live race meets at tracks that do not have customer drawing attractions such as slot machines. The losses result from the expanding competition for wagering dollars, with all other competitors (the lottery, bingo, off-track betting, internet wagering, card

games, and the like) having far lower operating costs than are faced by commercial racing operations.

The Data

I. Increased and Preserved Racing Opportunity.

In the early years of the racino operation, race dates available in Maine increased substantially, and the Maine Harness Racing Commission has provided that detailed information. This of course was the purpose of the fund. In more recent years, racing has declined; the decline is attributable to mounting losses at the track. Those losses are the result of precisely what the Maine Harness Racing Commission predicted back in 1997 – commercial tracks cannot compete with other tracks that have slot machines. Scarborough Downs, of course, is now competing not only with tracks in other states that have machines, but also with our friends in Bangor, who have the advantage of the associated racino. But the distributions from the Fund to Encourage Racing have allowed the Downs to continue to offer more live racing than all other tracks and fairs combined.

II. Declining Revenues from Increased Competition.

As outlined above and in Davric's earlier submission, Davric's revenues have declined over the life of the racino in Bangor. To document the decline, we attach as **Exhibit A**, a copy of our previously-submitted spreadsheet entitled Pari-mutuel/Stipend Revenue Analysis, which lists all of Davric's revenues from operations since 2002, the year before the racino referendum. The listed revenues include not only Davric's revenues from wagering at the track, but all distributions Davric receives from the various state-mandated revenue sharing funds that are part of harness racing. As Maine law makes clear, those funds are an important part of the balance by which the diversity of Maine's harness tracks is preserved. Davric contributes more to many of the funds than it receives. The Analysis shows that Davric's total revenues from the funds and from all wagering at the track, including the distribution from the Fund to Encourage Racing at Maine's Commercial Tracks declined by $127,650 from 2002, three years before the racino opened, to 2009, when Davric received over $1.3 million in shared racino revenues. Again, this effect is not surprising. It is exactly the result predicted by the Maine Harness Racing Task Force when it explained that a Maine track could not compete with other tracks that offer gaming alternatives. The fund has proven to be a necessary and desirable method of counteracting the effect of increased gaming and allowing for the preservation of Maine racing opportunity. Still, while Davric's overall revenues have been declining (even including the racino distributions), its expenses have increased. As a result Davric faces operating losses, even after accounting for the racino distributions, as Ms. Terry previously outlined.

III. Use of the Distributions from the Fund to Encourage Racing at Maine's Commercial Tracks.

The principal use of the racino distributions has been to pay operating expenses associated with the expensive operation of commercial racing, with all distributions not needed to cover operating revenues being reinvested in the track.

It is important to keep in mind that historically less than half of a track's revenues went to purses. Scarborough Downs was a pioneer in agreeing to split revenues evenly with its horsemen. The racino, however, has substantially increased the purses the Downs is able to pay, while its revenues have not increased, as outlined above.

Thanks to cost cutting efforts, Davric's operations have produced profits in some recent years. Our profits and losses from operations are detailed on the report attached hereto as **Exhibit B.** Although it seems unusual for the legislature to request such financial information from citizens, we appreciate that the committee wants to understand our uses of and need for the revenue sharing that is integral to harness racing. So that you will understand how Davric's few profits have been spent, we also submit herewith as **Exhibit C** a list of Davric's capital improvements above and beyond those that were the object of reimbursement from the separate fund for capital improvement monies. In other words, the projects listed on Exhibit C were funded out of Davric's own resources, including its modest profits in those years it realized a profit. The modest profits generated by Davric have been used exclusively to pay taxes on those profits and to fund capital improvements for the track.

The above reports show that last year Davric operated at a loss, and it is operating at a loss this year as well. Moreover, its owner, Mrs. Terry, has never taken a dividend from Davric. Instead, over the course of time her family has operated the track, the track has historic losses well in excess of $10,000,000.

Respectfully Submitted,

Davric Maine Corporation

DRAFT

To the Board of Directors
Davric Maine Corporation
Scarborough, Maine

We have compiled the accompanying income statements and supplementary information of Davric Maine Corporation (a wholly-owned subsidiary of Golden Ark Enterprises, Inc.) for the years ended December 31, 2009, 2008, 2007, 2006, and 2005, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and accordingly, do not express an opinion or any other form of assurance on them.

Management has elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included with the financial statements, they might influence the user's conclusions about the Company's results of operations. Accordingly, these financial statements are not designed for those who are not informed about such matters.

The accompanying financial statements were compiled by us from financial statements that did not omit substantially all of the disclosures required by generally accepted accounting principles and that we previously reviewed as indicated in our reports dated May 7, 2010, May 29, 2008, and May 17, 2006.

APPENDIX- STATEMENT OF OPERATIONS

MAINE SIRE STAKES PROGRAM 2006-2009

Prepared by Michael D. Andrew, President
Maine Standardbred Breeders and Owners Association

Please note: (1) From 60.9% to 75.8% of Sire Stakes Revenue are from slots.

These Racino contributions are broken out as "Estimated Racino Only Financials". These are based on each year's % of revenues from the Racino.

Information on individual purse money paid per horse is TOTAL purse money not just the Racino portion.

(2) Racino money was not distributed to the Sire Stakes Program until 2006.

(3) Money distributed per owner is not included in these data. Records are kept on horse earnings. The Horse Industry Ad Hoc Committee felt that earnings per owner could be misleading without information on costs incurred per owner in the Sire Stakes Program. It was also noted that no other individual recipients were being indentified by name in the distribution of Racino Funds.

Maine Standardbred Breeders Sire Stakes

The Drugs for the Elderly and Disabled Program (also known as DEL), is state funded with general fund dollars and began in the late 1970's

Members must meet all of the following requirements to be eligible:

- Must be a Maine resident,
- Must be age 62 or older **or** be age 19 or older and SSDI medically eligible disabled,
- Must be at an income level at or below **0-100% FPL** (income limits can be 25% higher if at least 40% of a person's yearly income is spent on prescription drugs)

There are 3 types of DEL program members:

1. DEL members who do not receive Medicare Part D, the Basic DEL benefit members: **(2,806 enrolled members)**
2. DEL members who receive the Basic DEL benefit and Medicare Part D without low income subsidy (LIS): **(1,175 enrolled members)**
3. Members who receive pharmacy benefits through the DEL Medicare Savings Program **(38,895 enrolled members)**.

Covered Services for each type of DEL program member:

1. **Benefits for DEL members who do not receive Medicare Part D (Basic DEL Benefit package):**

The State pays 805 of the cost of each drug for all DEL covered drugs (using the preferred drug list) to treat the following conditions, **or;**

"Over the Counter Drugs" when more cost effective than a prescription drug to treat the following conditions:

Covered drugs as noted above are covered for the treatment of the following conditions:	
ALS (Lou Gehrig's Disease)	High Blood Pressure
Anticoagulation	Hyperlipidemia (High Cholesterol)
Arthritis	Incontinence
Chronic Lung Disease (including Emphysema and Asthma)	Multiple Sclerosis
Diabetes	Osteoporosis (Bone Density Loss)
Glaucoma	Parkinson's Disease
Heart Disease	Thyroid Disease

2. **DEL Medicare part D without low income subsidy for whom state pays Part D premium receive the following benefits:**
   - Part D plan premium payments
   - Excluded drugs covered by MaineCare but not part of the Part D plan
   - 50% of the Part D deductible
   - Copayment assistance for drugs covered under Part D ($2.40 for each generic drug and 50% of the brand name drug up to $10.00.)
   - 80% of drug costs that fall into the coverage gap (donut hole) until the member reaches catastrophic coverage

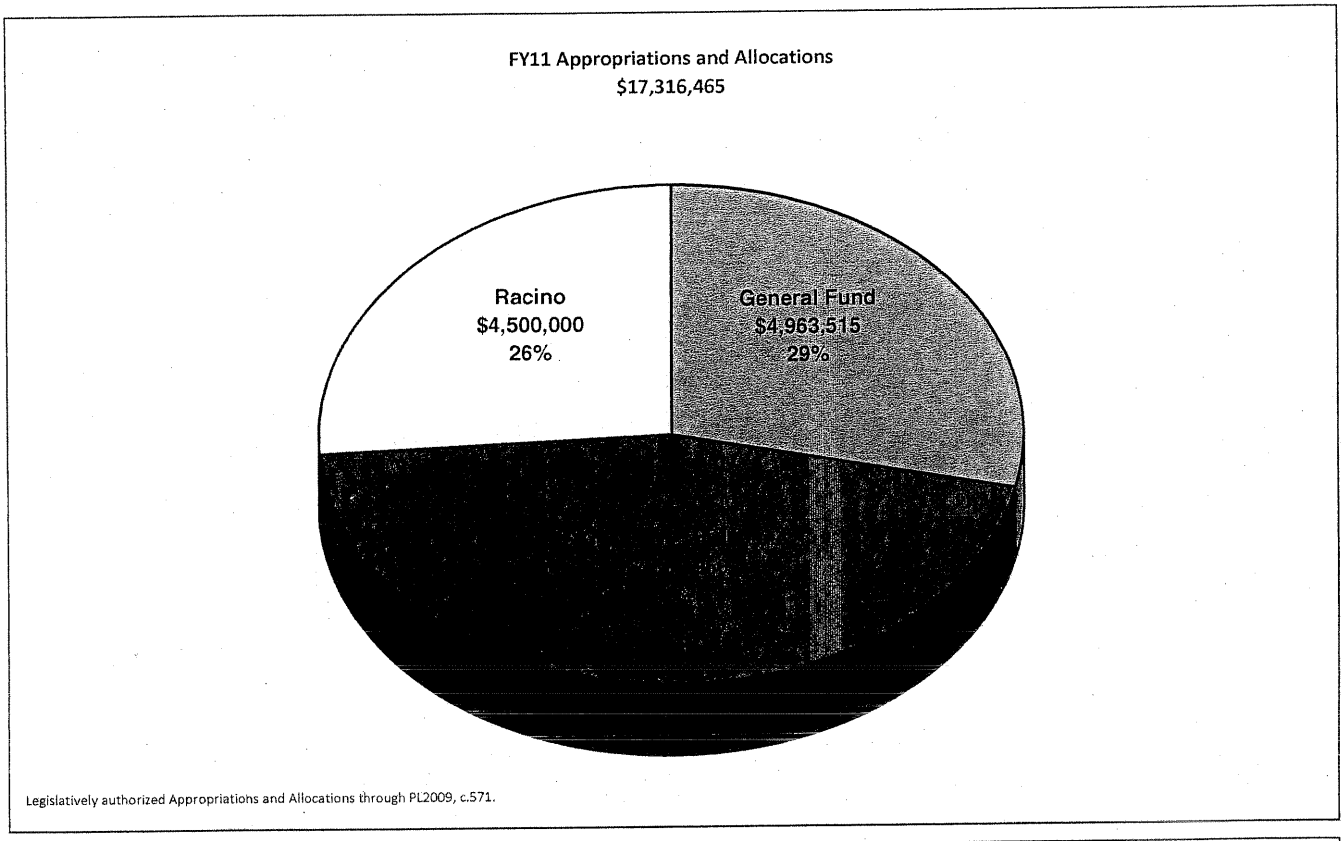
3. **Members who receive benefits through the DEL Medicare Savings Program include:**

   For each category the FPL range is:

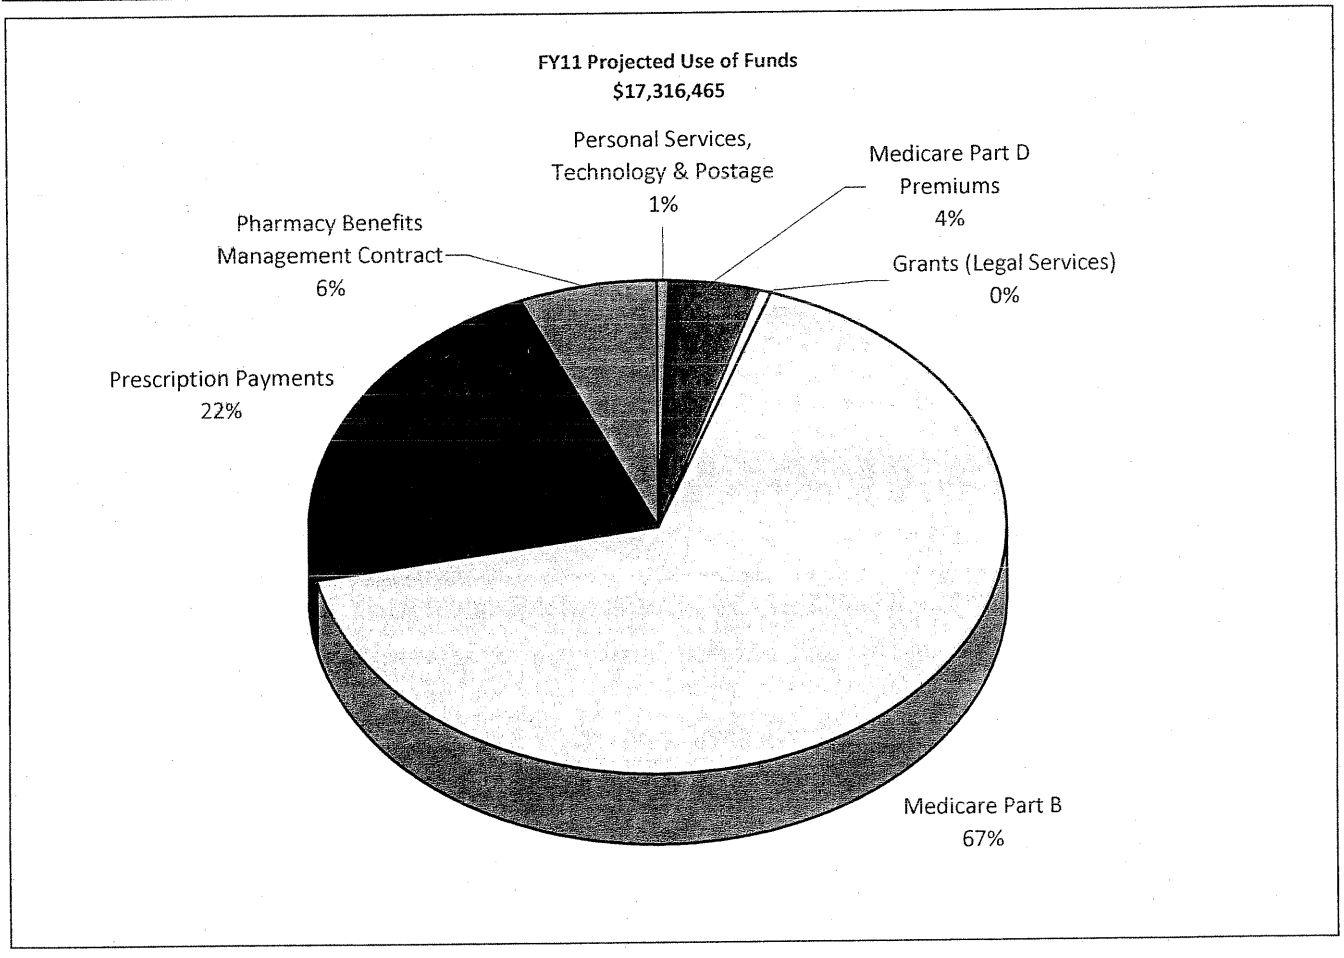
   Qualified Medicare Beneficiary (QMB) 101% - 150%, receives SS, inc. is less than $1,922 mo.
   Specified Low-Income Medicare (SLMB) 151%-170%, receives SS, or inc. is less than $2,084 mo.
   Qualified Individual (QI) 171%-185% receives SS; inc. is less than $2,347 mo.

   State only pharmacy benefits are:
   - Excluded drugs covered by MaineCare but not part of the Part D plan
   - Copayment assistance

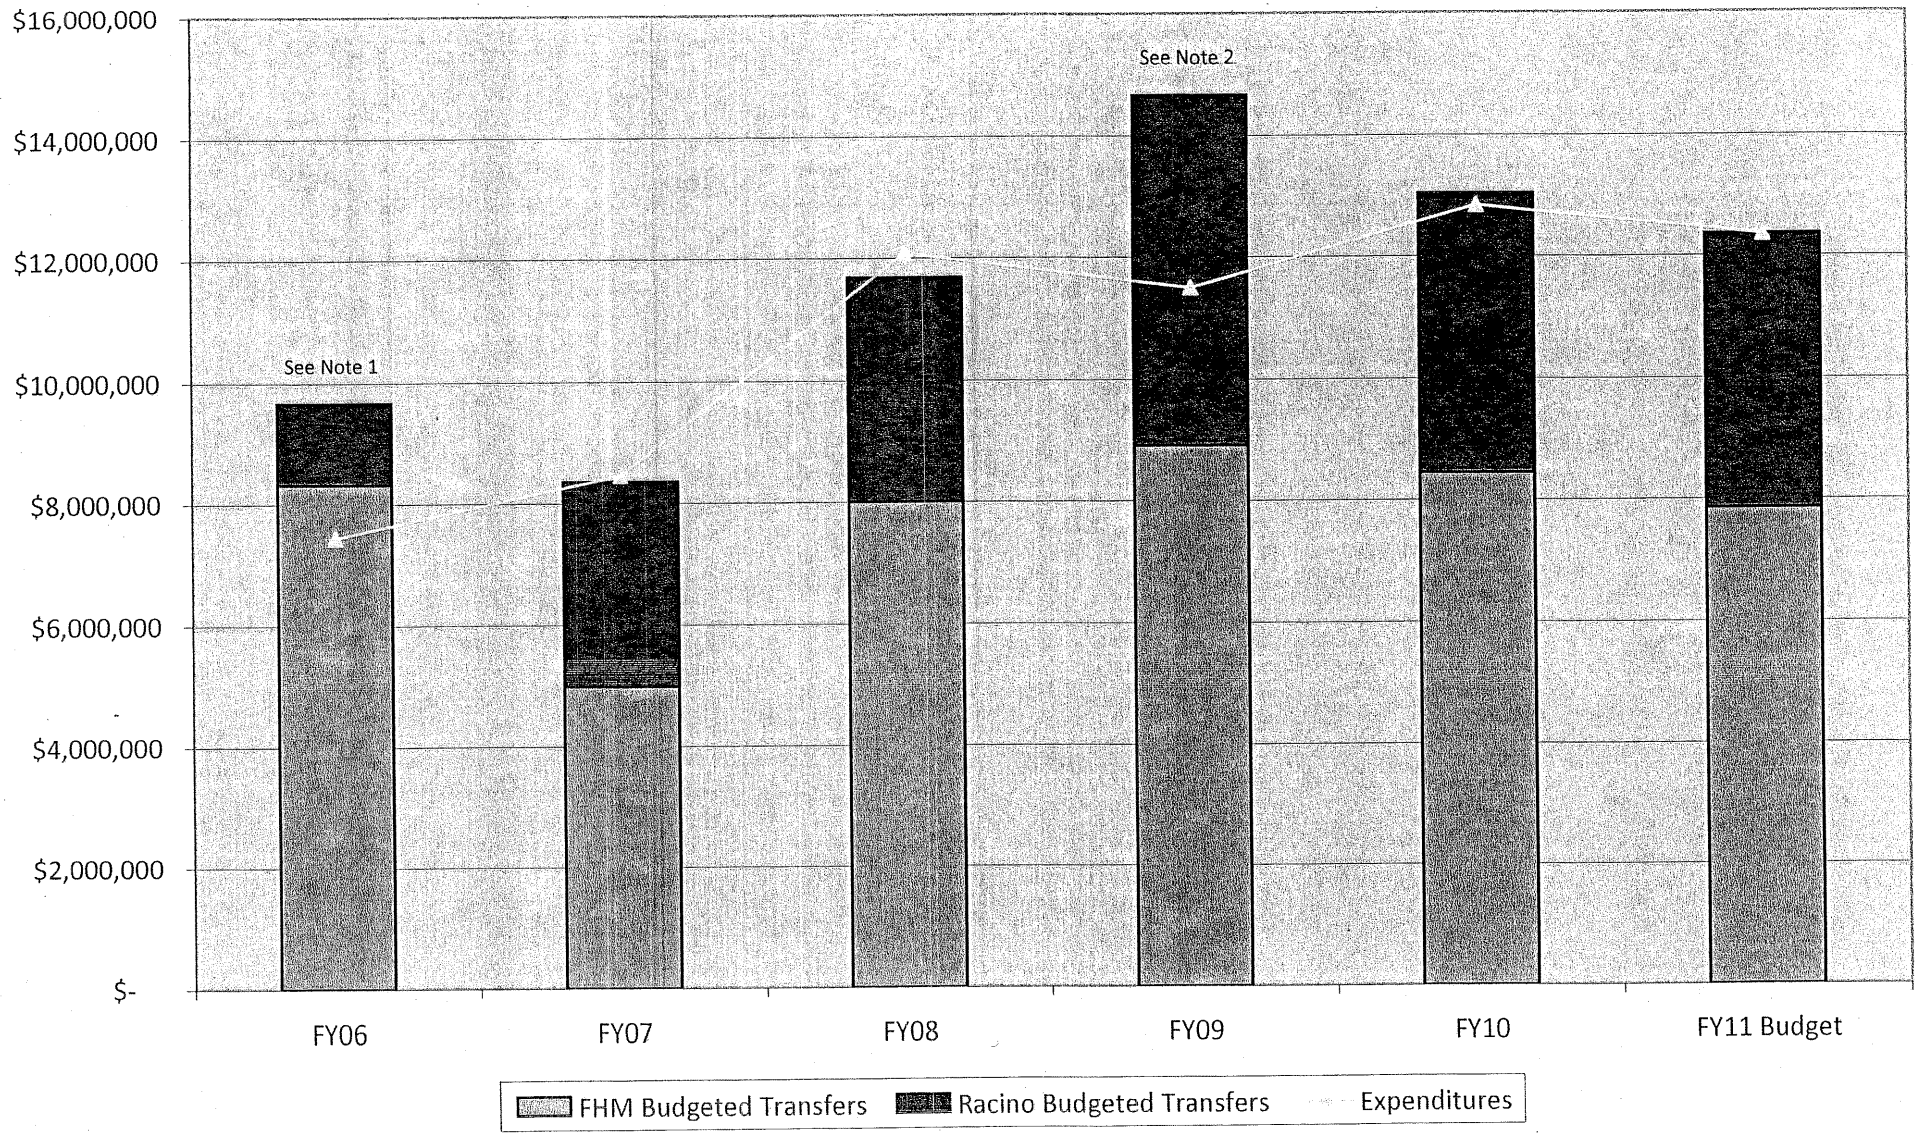
Drugs for the Elderly and Disabled



Legislatively authorized Appropriations and Allocations through PL2009, c.571.



Drugs for the Elderly and Disabled
Budgeted Fund for Healthy Maine & Racino vs Actual Expenditures



Note 1 - Medicare Part D was implemented in FY06. The State began to implement changes to the DEL and DEL Medicare Savings Plan programs.
Note 2 - FY09 was impacted by the retro-active implementation of the American Recovery and Reinvestment Act.

UNIVERSITY OF MAINE SYSTEM

ANNUAL REPORT ON

RECEIPT & USE OF SLOT MACHINE INCOME FOR SCHOLARSHIPS

August 1, 2010

Maine's Public Universities

UNIVERSITY OF MAINE SYSTEM

Racino Scholarship Program

Title 8, Chapter 31, Subchapter 3, Subsection 1036 of the Maine Revised Statutes stipulates that the University of Maine System Scholarship Fund is to receive 2% of net slot machine income. As defined in Title 20-A, Part 5, Chapter 411, Subsection 10909 of the Maine Revised Statutes, "The University of Maine System Scholarship Fund is created and established as a non-lapsing fund under the jurisdiction and control of the Board of Trustees of the University of Maine System. All revenues credited to this fund must be distributed as need-based scholarships for students attending the University of Maine System. These scholarships may be awarded only to those students who are residents of the State. The fund may not be used for the costs of administering the scholarships..."

Public Law, Chapter 457, Part K, allowed for the use of up to the first $1.0 million of distribution from FY2007 slot machine revenues to support graduate student stipends for biomedical scholarships.

The University of Maine System has received approximately $3.9 million in slot machine income between FY2006 and FY2010. The University of Maine System began receiving slot machine income in November 2005, and the Graduate School of Biomedical Sciences utilized the first $0.5 million for graduate student stipends. The first undergraduate scholarships were awarded in the spring of 2007 for the 2007-2008 academic year.

During fiscal years 2008 and 2009, $1.1 million was awarded in scholarships to 960 Maine undergraduate students who exhibited financial need. Approximately $0.9 million was awarded during FY2010 to 1,592 Maine students exhibiting financial need, and the remaining $1.4 million received to date will be awarded during FY2011 ($0.8 million) and FY2012 ($0.6 million).

Given the financial difficulties realized by many Maine families, the State, and the University, the utilization of 2% of the net slot machine income for need-based scholarships to Maine students is an important funding source to mitigate the cost of obtaining a post-secondary education.

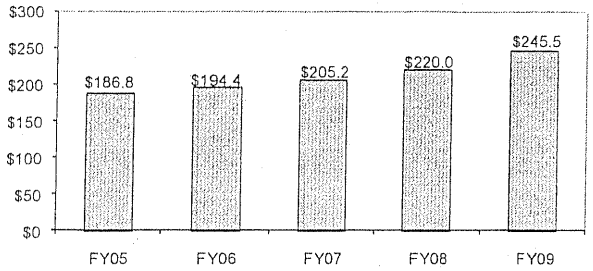
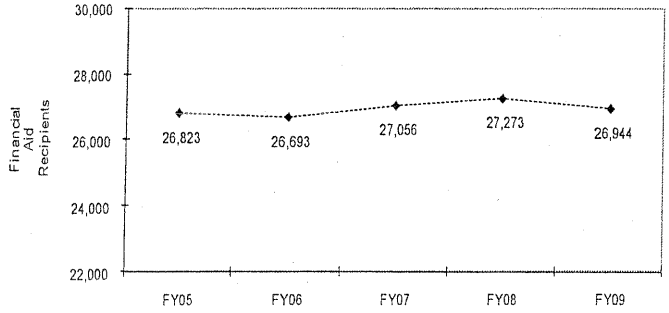
Total Financial Aid from all Sources

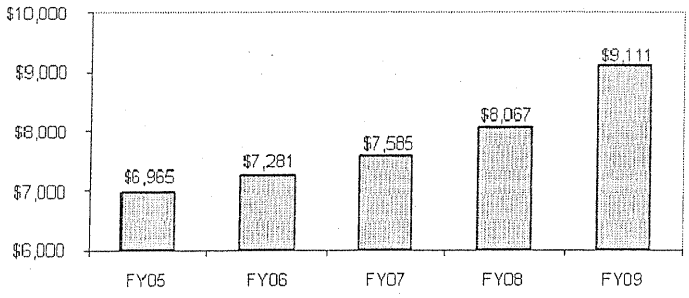
The total financial aid awarded to students at the University of Maine System has increased from $186.8 million in FY05 to $245.5 million in FY09.



During this same time period, the total number of students receiving aid has varied from a low of 26,693 to a high of 27,273.



The average award has increased from $6,965 in FY05 to $9,111 in FY09.



Students receive various types of financial aid (scholarships, grants, waivers, work-study, and loans) from various funding sources (federal, state, university, and private). Federal and State aid is awarded primarily on the basis of financial need. University and private aid may be awarded based on financial need, merit, talent, or other criteria set forth by the University or the donor. During FY09, approximately 14,500 Maine residents enrolled in undergraduate programs received some form of need-based federal financial aid. These students may have Received Federal Pell Grants (up to a maximum of $4,731), Federal Supplemental Educational Opportunity Grants (SEOG), Federal Work Study, and/or Federal Loans.

Maine Community College System

ANNUAL REPORT ON USE OF RACINO INCOME FOR SCHOLARSHIPS

For FY06 through FY10

September 2010

OVERVIEW

Students enrolled in the Maine Community College System (MCCS) are recipients of financial aid from various sources of funding including federal and state grant programs, system-wide and college scholarship opportunities as well as scholarship opportunities made available through private sector partnerships. The MCCS is continually looking for ways to increase the availability of scholarship funds to ensure that students wishing to attend one of our community colleges will have the financial means to do so.

As evidence of the MCCS's commitment to increasing scholarship opportunities, the amount of scholarships awarded to students from other than federal and state programs has increased by 31% in the last five years. Clearly, when taking into consideration the findings of a result study commissioned by the MCCS Board of Trustees regarding the ability of our students to pay for their education, the need for scholarship assistance continues to rise.

To help students survive the confluence of increased need and availability of resources, the MCCS has worked diligently to keep the cost of attending our community colleges low. The Ability to Pay Study referenced above found that if our tuition rates were to increase by as little as $5 per credit hour, 22% of students would have to withdraw from school. And yet, while the MCCS is proud of its ability to have frozen tuition for seven of the past twelve years, 76% of full-time students in the fall of 2009 received financial aid.

RACINO FUNDED SCHOLARSHIPS

As stipulated in Title 8, Chapter 31, Subchapter 3, Section 1036 of the Maine Revised Statutes, the Maine Community College System receives one percent of the net slot machine income to be applied by its Board of Trustees to fund its scholarship programs. To date (FY06-FY10), the MCCS has received $1,924,049 from slot machine income. A detailed report on the receipt, System allocation and expenditure of the funds is provided as Attachment 1. With the exception of $27,000 earmarked for Washington County Community College, the allocations and expenditures reach across all of the community colleges. All of the Racino income received has been used for scholarships. None of the funds have been used for administration.

Of the $290,934 listed as "unexpended", $187,758 is committed and carried into FY11 for award to students enrolled in Early College for ME, Bring College to ME programs at Central Maine, Northern Maine, Eastern Maine and York County Community Colleges, and at Washington County Community College.

Of note, in FY07, the MCCS received permission from the Gambling Control Board to use Racino funds to answer a portion of the challenge grant from the Bernard Osher Foundation creating a $5M endowment specifically for students from rural Maine. A copy of the Gambling Control Board's letter is provided as Attachment 2. The $600,000 transfer of funds to the Osher Endowment Fund occurred during FY08.

To date, 1,224 students have benefitted from the Racino income allocated to the MCCS. These funds have proven to be an increasingly important component of the resources available to our students.

EXECUTIVE DIRECTOR

February 21, 2008

Mr. David J. Daigler
Maine Community College System
323 State St.
Augusta, Maine 04330

Mr. Daigler,

On February 20, 2008, I presented to the Maine Gambling Control Board a copy of your February 15, 2008 letter. The Board wishes to thank you for taking the time to advise them of the plan to use the Racino Funds as seed money for the Bernard Osher Scholarship Program.

The Board had no objection to the use of the funds in this fashion.

The Maine Gambling Control Board recognizes our duty to forward funds to the Community College System to provide scholarship funds to Maine youth. If there is ever anything we can do to improve our delivery system please let me know.

Sincerely,

/RPW/

Robert P. Welch
Executive Director

APPENDIX H

Recommended Legislation

Appendix H
Recommended Legislation

An Act to Implement the Recommendations Regarding the Legislative Review of the Allocation of Slot Machine Revenue

Authority to submit legislation – PL 2009, chapter 571, Part FFF

Sec. 1. 8 MRSA §1036, sub-§2, ¶H, is amended to read:

H. Four percent of the net slot machine income must be forwarded by the board to the Treasurer of State, who shall credit the money to the Fund to Encourage Racing at Maine's Commercial Tracks, established in section 299; however, the payment to commercial tracks required by this paragraph is terminated when all commercial tracks have obtained a license to operate slot machines in accordance with this chapter and the money shall be credited to the General Fund as undedicated revenue;

Sec. 2. 8 MRSA §1036, subsection 5, is repealed:

Sec. 3. 8 MRSA § 1036-A is enacted to read:

§1036-A Annual report on use of funds

Recipients of slot machine revenue under section 1036, subsection 2, paragraphs B through I shall submit a report to the Joint Standing Committees of the Legislature having jurisdiction over appropriations matters and the operation of slot machines no later than December 1, of each year. Initial reports due by December 1, 2011 must include information as described in this section for calendar years 2009 and 2010 and up to October 31, 2011.

1. Commercial tracks. Each commercial track licensed in accordance with chapter 11 that receives a distribution of slot machine revenue under section 1036, subsection 2, paragraphs B, D, and H shall submit a report that includes:

A. The number of people attending harness races;
B. The number of individual wagers placed on live harness races, the average wager amount and the total amount wagered;
C. The number of individual wagers placed on intra state simulcast races, the average wager amount and the total amount wagered;
D. The number of individual wagers placed on inter-state simulcast races, the average wager amount and the total amount wagered;
E. The number of Maine-based harness races exported via simulcast;
F. The amount of the harness racing handle kept by the commercial track and the distribution of the handle to the state and industry recipients;
G. The amount of money received from the handle distribution from wagers at other tracks and off-track betting facilities;
H. The amount of revenue from each fund under section 1036, subsection 2 distributed to the commercial track;
I. The name of the owner and the primary location of the company licensed to operate the commercial track;

J. The number of employees, full-time and part-time, at the commercial track and the total payroll amount for all receiving compensation from the commercial track;
K. The amount of dollars spent on capital improvements to the commercial track and related facilities and a description of those improvements. The first report must include the amount spent since November 2005 broken down annually. Subsequent annual reports must include the amount spent on capital improvements the previous calendar year.
L. Operating costs for the commercial track;
M. Profit and loss or depreciation figures for the commercial track; and
N. Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account as described by section 267-A.

2. Agricultural fairs that conduct harness racing. Agricultural fairs that are licensed to conduct harness racing and receive distribution of slot machine revenue under section 1036, subsection 2, paragraphs B and D shall submit a report that includes:

A. The number of people attending the fair;
B. The number of wagers placed on harness races and the total amount of dollars wagered;
C. The number of races exported via simulcast signal;
D. The number of full-time and part-time employees of the fair;
E. Reimbursements provided to fair volunteers or other fair personnel;
F. The amount of dollars spent on capital improvements at the fair location and a description of those improvements. The first report must include the amount spent since November 2005 broken down annually. Subsequent annual reports must include the amount spent on capital improvements the previous calendar year;
G. Operating costs for the agricultural fair;
H. The amount of the harness racing handle retained by the fair and the amount distributed to industry recipients;
I. The amount of the harness racing handle from the industry received by the fair;
J. The amount of revenue received in accordance with Title 8, section 1036, subsection 2, paragraphs B and D; and
K. Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account described in section 267-A.

3. Agricultural fairs that do not conduct harness racing. Agricultural fairs that receive a distribution of slot machine revenue under section 1036, subsection 2, paragraph D shall submit a report that includes:

A. The amount of money spent on fair premiums using revenue allocated from slot machines;
B. A detailed accounting of slot machine revenue not used for fair premiums, if any; and
C. Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account described in section 267-A.

4. Breeders and owners within the Maine Standardbred program. Horse breeders and owners who receive a distribution from the Sire Stakes trust through the Harness Racing Commission within the Department of Agriculture shall submit a report that includes:

A. The number and geographic distribution of licensed breeders in the state;
B. The number of horses bred by each breeder and the number of those horses actively racing in Maine;

C. The number of horses bred under the program that participate in harness races out-of-state;
D. An assessment of whether the number of standard-bred horses in Maine is sufficient to meet the needs of harness races conducted in the state;
E. The amount of money received from the allocation of slot machine revenue under section 1036, subsection 2, paragraph C;
F. The amount of money in the Sire Stakes Fund and the amount that is spent to supplement harness racing purses and the average purse amount;
G. A detailed accounting of the other uses of the Sire Stakes fund, including direct payment to breeders, promotion contracts, advertising, Maine Harness Horsemen contract and administrative costs; and
H. Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account as described by section 267-A.

5. Off-track betting facilities. Facilities licensed to conduct off-track betting on harness racing that receive a distribution of slot machine revenue under section 1036, subsection 2, paragraph I, shall submit a report that includes:

A. The number of wagers placed on intra-state and inter-state simulcast races and the total dollar amount for each;
B. The number of employees of the facility, full-time and part-time and the total payroll amount for all receiving compensation from the facility;
C. The operating costs for the facility;
D. The name and primary location of the company licensed to operate the off-track betting facility;
E. The amount of dollars spent on capital improvements to the facility and a description of those improvements. The first report must include the amount spent since November 2005 broken down annually. Subsequent annual reports must include the amount spent on capital improvements the previous calendar year;
F. The amount of the harness racing handle kept by the OTB and the distribution of the handle to the state and industry recipients;
G. The amount of money received from the handle distribution from wagers at tracks and other off-track betting facilities;
H. The amount of revenue from each fund under section 1036, subsection 2, paragraph I distributed to the OTB; and
I. Administrative costs to comply with reporting requirements and contributions to the Harness Racing Commission Operating Account described by section 267-A.

6. Other recipients. The Fund for a Healthy Maine Prescription Drugs for the Elderly Disabled program, the University of Maine System, and the Maine Community College System which receive a distribution of slot machine revenue under section 1036, subsection 2, shall submit reports that include the amount of slot machine revenue received and how that revenue was used to meet the statutory requirements cited in section 1036, subsection 2, paragraphs E, F and G respectively.
