1.0 Population & Demographics

1.1 Average Daily Population (ADP) The ADP has changed significantly over the last six years. From its peak in 2019 the census for both male and female residents saw decreases though 2021. In 2022 males stayed similar, but the female population began to rise. The last two years (2023 & 2024) showed significant increase. When looking at the entire timeframe, there was still an overall decrease in population, although trending back up. Male population over time decrease of 21% while the female population decreased 10%.

3.6 SCCP Cases

The purpose of the Supervised Community Confinement Program (SCCP) is to provide a means of successful reentry of adult facility residents into the community. Residents transferred to supervised community confinement are still considered to be in the legal custody of the Department while in the program. The place of confinement is in the community, rather than in a Department facility. Participation in this program is a privilege which may be afforded to eligible residents who meet the criteria.

"SCCP Placements" are new placements into the community on SCCP status and "SCCP Violations" are those returning to a secure DOC facility from the community who have violated the conditions of the SCCP program.

4.0 Adult Community Corrections

Adult Community Corrections Population Overtime

"Active" clients are any probationer on community supervision that requires direct contact on a regular basis. "Passive" clients require less contact on a regular basis. Clients on a passive status can be placed on active status at any time.

Community Investigations Completed by Year
Probation Revocation and Successful Completions:

A completion of probation is considered successful when a client is transferred from probation to society because their probation has terminated due to completion of the sentence. Should a client have a full revocation, or a partial revocation with termination, then their probation ends unsuccessfully.

5.0 Office of Victim Services

The MDOC OVS is required to ensure that victims who request notice of release receive it according to Maine Criminal Statutes 17-A §2106 "Notification of defendant's release or escape". MDOC policies were formed outlining preferred practice. The Statute requires victims to submit a Victim Notification Request with the office of the attorney for the State or directly to the MDOC in order to receive notification of release. Once a Victim Notification Request is filed, the victim must receive notice of the resident's unconditional release and discharge from institutional confinement upon the expiration of the sentence or upon release from commitment under Title 15, section 101-D or upon discharge under Title 15, section 104-A and must receive notification of any conditional release of the resident from institutional confinement, including probation, supervised release for people with problem sexual behavior, parole, furlough, work release, funeral or deathbed visit, supervised community confinement, home release monitoring or similar program, administrative release or release under Title 15, section 104-A; and must receive notification of the resident's escape.

310	Victims submitted Victim Notification Requests to the MDOC OVS in 2024
129 (41%)	Victim Notification submissions assisted by the MDOC in 2024
32.63%	Current residents with a victim notification associated with their case at the end of 2024

The chart below indicates which agency assisted the victim in submitting the Victim Notification Request. The four Maine counties not showing on this chart did not assist with any notification requests in 2024.

|	
3229	Contacts with victims regarding victim notification of a resident's release
15	Victims assisted with protection from harassment by a resident
11	Furlough applications reviewed
390	SCCP applications reviewed, resulting in 511 victim contacts and 160 victim responses
25	Residents tracked with problem sexual behavior released, resulting in 27 victims contacted
72	Residents tracked with domestic violence history released, resulting in 80 victims contacted and 9 safety planning meetings
49	Funeral, death bed visit, escaped, or the death of a resident situations resulting in 37 victims contacted
217	Media requests reviewed, resulting in 169 victims contacted
385	Resident enrollment in college programming resulting in 169 victims contacted
384	Preliminary review for resident's work release
43	Volunteer requests reviewed

The OVS assisted victims with restitution in which they are to receive per Court order for losses they have incurred. OVS provided information and resources related to these restitution cases in which the MDOC is responsible for the collection of such restitution either through Probation, at the facilities or through the Maine Revenue Service. The OVS acts as a liaison between the victim and Probation and Parole, District Attorney's Office and the Courts in order to provide resources, information and options for the victim to obtain their restitution while advocating for victims and advising victims of their rights.
According to policy 6.3, contact with victims, waiver requests for contact are reviewed and approved by the Commissioner, or designee. The OVS continues to assist MDOC facility staff providing support regarding this policy. The Director of Victim Services reviews all waiver requests as the Commissioner's designee.
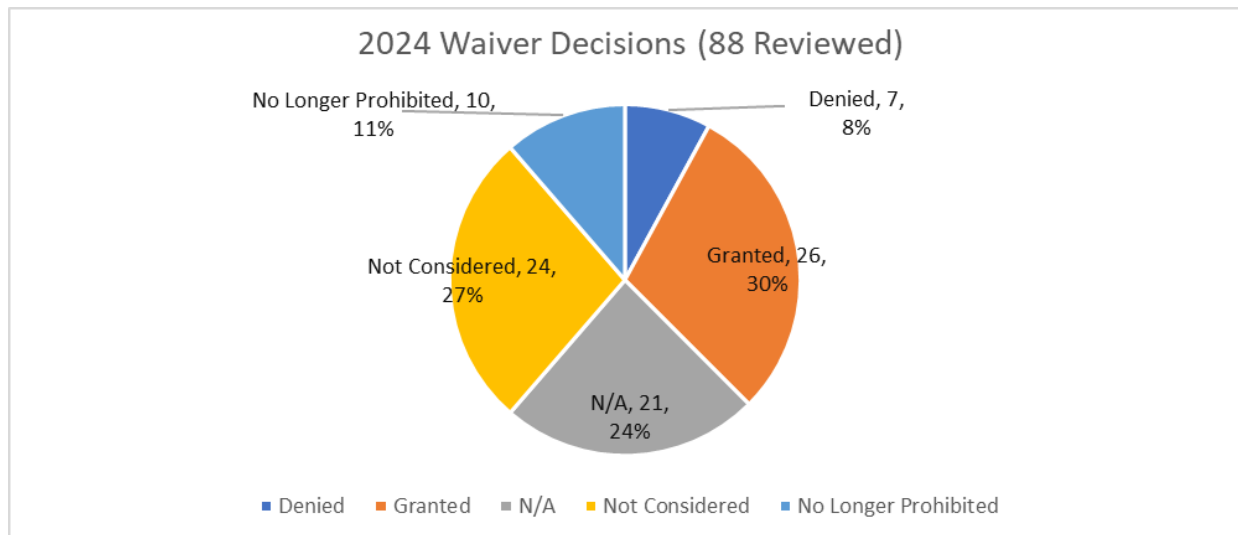

OVS participates in several statewide stakeholder commissions, panels, and other board and association memberships in order to be a voice for victims and an information source regarding the rights of victims. Additionally, presentations are made regularly in order to promote victim services and educate the MDOC and other stakeholders across regarding victims' rights and statutes, the victim services offered at the MDOC, and policies and procedures pertaining to such. The OVS completed 13 presentations and trainings in 2024.
