

Intro

Welcome to the new Caseload report

The following pages include the current MaineCare Caseload report, which begins with SFY24. Also included is the legacy Caseload report which was in production from SFY2011 through SFY2024. There is one year of crossover between the two reports.

A **crosswalk** has been provided to show the mapping between old and new categories. The first 4 columns correspond to categories on the legacy report, followed by the updated location on the new caseload report. This guide also shows which categories on the legacy report were discontinued and do not translate to the new report. *Note: the new report uses member age for some category sorting and many categories include multiple RAC codes, therefore it is not always a 1:1 relationship.

Caseload Report
