## PREFACE

The 2025 edition of Laws of the State of Maine is the official publication of the session laws of the State of Maine enacted by the 132nd Legislature and is compiled and published under the authority of the Maine Revised Statutes, Title 3, section 163-A. Laws of the State of Maine has been in continuous publication since 1820, when the acts and resolves adopted by the First Legislature were published by the Secretary of State under the authority of Resolve 1820, chapter 25.

Volume 1 contains the public laws, private and special laws and resolves enacted at the First Regular Session and the First Special Session of the 132nd Legislature and includes the 2023 Revisor's Report, chapter 2, Initiated Bill 2023, chapter 4 and a selection of significant addresses, joint resolutions and memorials.

Additional volumes of the 2025 Laws of the State of Maine will contain those measures adopted in the Second Regular Session and any other special session of the 132nd Legislature.

The following conventions are used throughout the series.

1. At the top of each page is a heading that classifies each law by session of passage, year, type and chapter number.
2. A table of contents that locates major divisions and contents by page number is located at the beginning of each volume.
3. Subject indexes of the documents contained in these volumes, arranged alphabetically by subject heading with corresponding chapter numbers, are provided.
4. Session cross-reference tables are also provided showing how unallocated public laws and titles and sections of the Maine Revised Statutes of 1964 have been affected by the laws included in this publication.
5. Words and phrases deleted from the statutes are shown struck through. When an entire unit is repealed, the text that is repealed is not shown struck through, but its repeal is indicated by express language.
6. When new words or sections are added to the statutes, they are underlined.
7. A chaptered law's Legislative Document number is printed beneath its chapter number heading, indicating the source of the chapter.
8. The effective date for Maine laws is provided for in the Constitution of Maine, Article IV, Part Third, Section 16, which specifies that, except for certain emergency legislation, an act or resolve enacted into law takes effect 90 days after the adjournment of the session in which it passed. The general effective date of nonemergency laws passed at the First Regular Session of the 132nd Legislature is June 20, 2025 and the general effective date of nonemergency laws passed at the First Special Session of the 132nd Legislature is September 24, 2025. The effective dates of emergency legislation vary and are provided at the ends of the chapters that were enacted as emergencies.

Copies of a specific chaptered law may be obtained by contacting the Engrossing Division of this office. Laws of the State of Maine is also available online through the website of the Office of the Revisor of Statutes at <http://legislature.maine.gov/ros/LOM/LOMpdfDirectory.htm>.

This edition of Laws of the State of Maine and its predecessors have been prepared for the convenience of the people of the State of Maine, and any comments or suggestions for improvements in subsequent editions would be appreciated.

For a commercial establishment, "annual income" means taxable income or ordinary business income for the previous year as listed on the relevant federal income tax return plus any depreciation or other noncash expense that was deducted to compute taxable or ordinary business income on that return. A

rental property must be considered a commercial establishment or as contributing to annual income depending on how it is reported on the owner's federal income tax return from the previous year.

**Sec. 6. 38 MRSA §411,** as amended by PL 2017, c. 137, Pt. A, §8, is further amended by enacting after the 2nd paragraph a new paragraph to read:

For a pollution abatement system that is used by multiple single-family or seasonal dwellings, such as resident-owned mobile home parks or home owners' associations, and the property is not owned by a commercial establishment, the average annual income of all single-family or seasonal dwellings attached to the pollution abatement system must be used to calculate the allowable grant percentage.

**Sec. 7. 38 MRSA §411-A,** as amended by PL 2009, c. 654, §§1 and 2, is further amended by amending the section headnote to read:

**§411-A. State contribution to residential overboard discharge replacement projects**

**Sec. 8. 38 MRSA §411-A, sub-§2-A,** as amended by PL 2009, c. 654, §2, is further amended to read:

**2-A. Cost-share.** The commissioner shall determine the portion of project expenses eligible for grants under this section as follows:

A. For an owner of ~~an~~ a residential or commercial overboard discharge with an annual income ~~less than \$25,000~~ of 0% to 100% of state median household income, 100%;

B. For an owner of ~~an~~ a residential or commercial overboard discharge with an annual income ~~from \$25,000 to \$50,000~~ of 101% to 150% of state median household income, 90%;

C. For an owner of ~~an~~ a residential or commercial overboard discharge with an annual income ~~from \$50,001 to \$75,000~~ of 151% to 200% of state median household income, 50%;

~~D. For an owner of an overboard discharge with an annual income from \$75,001 to \$100,000, 35%;~~

E. For an owner of ~~an~~ a residential or commercial overboard discharge with an annual income ~~from \$100,001 to \$125,000~~ of 201% to 250% of state median household income, 25%;

E-1. For an owner of ~~an~~ a residential or commercial overboard discharge with an annual income over \$125,000 250% of state median household income, \$0 0%; and

F. For a publicly owned overboard discharge facility, 50% to a maximum of ~~\$150,000~~ 500% of state median household income.

For purposes of this subsection, annual income is determined separately for residential property owners and commercial establishments. For a residential property owner, including a trust, "annual income" means the sum of the taxable incomes of each owner of the property if it is jointly owned or of each beneficiary and grantor if the property owner is a trust for the previous year as listed on the relevant federal income tax returns for the previous year. For a commercial establishment, "annual income" means taxable income or ordinary business income for the previous year as listed on the relevant federal income tax return plus any depreciation or other noncash expense that was deducted to compute taxable or ordinary business income on that return. A rental property must be considered a commercial establishment or as contributing to annual income depending on how it is reported on the overboard discharge owner's federal income tax return from the previous year. Median household income must be based on the most recent data from the State Economist or the United States Department of Commerce, Bureau of the Census, whichever is lower.

**Sec. 9. 38 MRSA §411-A, sub-§4**, as repealed and replaced by PL 2003, c. 246, §5, is amended to read:

**4. Reimbursement of actual or incurred costs.**

The commissioner shall utilize grants under this section to reimburse individuals for the actual or incurred cost of removing any overboard discharge, subject to the provisions of subsection 2-A, when:

A. The removal occurred after September 30, 1989 but was carried out according to plans and specifications approved by the commissioner in advance of construction and prior to the offering of a grant under this section;

B. The removal resulted in the elimination of sources of contamination to shellfish areas or public nuisance conditions; ~~and~~

C. The removal is required under section 413, subsection 3 or section 414-A, subsection 1-B; and

D. The owner of the overboard discharge system and the overboard discharge removal contractor have certified that the overboard discharge removal project has been completed, including proper abandonment of the overboard discharge system in accordance with the rules adopted by the department governing the licensing and abandonment of overboard discharge systems and the local plumbing inspector has certified that an alternative disposal system has been installed in conformance with the rules adopted by the Department of Health and Human Services governing subsurface wastewater disposal.

**Sec. 10. 38 MRSA §413, sub-§3-A**, as amended by PL 2011, c. 121, §2, is further amended to read:

**3-A. Transfer of ownership, significant expansion, division and public sewer connection.** Beginning September 1, 2010, if property containing an overboard discharge is transferred or a significant action is proposed, the following procedures apply. For purposes of this subsection, "significant action" means a single construction project performed on a primary residence with an overboard discharge when the total material and labor cost of the construction project exceeds ~~\$50,000~~ 100% of the median household income as specified in section 411. "Significant action" does not include construction that makes the residence accessible to a person with a disability who resides in or regularly uses the residence or reconstruction performed in response to an event beyond the control of the owner, such as a hurricane, flood, fire or the unanticipated physical destruction of the residence.

A. Application for transfer of an overboard discharge license must be made no later than 2 weeks after the transfer of ownership or interest in the source of the discharge is completed. If a person possessing a license issued by the department transfers the ownership of the property, facility or structure that is the source of a licensed discharge without transfer of the license being approved by the department, the license granted by the department continues to authorize a discharge within the limits and subject to the terms and conditions stated in the license as long as the parties to the transfer are jointly and severally liable for any violation thereof until such time as the department approves transfer or issuance of a waste discharge license to the new owner. The department may in its discretion require the new owner to apply for a new license or may approve transfer of the existing license upon a satisfactory showing that the new owner can abide by its terms and conditions.

B. If there is a transfer, or if a significant action is proposed, the owner of an overboard discharge must conduct an alternatives analysis, pursuant to section 414-A, subsection 1-B, and may be required to remove the overboard discharge system as provided in this paragraph. For the purposes of this paragraph, a property transfer is limited to a monetary sale of the property containing the overboard discharge.

(1) Except when it has been demonstrated within 5 years prior to a transfer, or some other time period acceptable to the department, that there is no technologically proven alternative to an overboard discharge, prior to transfer of ownership of property containing an overboard discharge, the parties to the transfer shall determine the feasibility of technologically proven alternatives to the overboard discharge that are consistent with the plumbing standards adopted by the Department of Health and Human Services pursuant to Title 22, section 42.

(2) Except when it has been demonstrated within 5 years prior to the significant action, or some other time period acceptable to the department, that there is no technologically proven alternative to an overboard discharge, prior to the significant action the owner of the overboard discharge shall determine the feasibility of a technologically proven alternative to the overboard discharge that is consistent with the plumbing standards adopted by the Department of Health and Human Services pursuant to Title 22, section 42.

(3) The determination concerning whether there is a technologically proven alternative to an overboard discharge must be based on documentation from a licensed site evaluator provided by the applicant and approved by the Department of Environmental Protection that the system constitutes a best practicable treatment under section 414-A, subsection 1-B. If an alternative to the overboard discharge is identified, the alternative system must be installed within 180 days of property transfer or significant action, except that, if soil conditions are poor due to seasonal weather, the alternative may be installed as soon as soil conditions permit. ~~The installation of an alternative to the overboard discharge may be eligible for funding under section 411-A.~~ On a property transfer, a commercial establishment may request an extension of the 180-day period based on information that an extension is necessary due to technical, economic or environmental considerations. The department may authorize an extension for a commercial establishment for as short an additional period as the department considers reasonable but in no case may an extension be authorized to continue beyond the expiration of the current waste discharge license or 2 years from the property transfer, whichever is later. Within 10 business days of receipt of a complete extension request, the department shall issue a written decision approving or denying the extension.

(4) When the ownership of a property containing an overboard discharge has been transferred, the transferee may request from the department a waiver from the requirement in subparagraph (3) to install an alternative system. The department shall grant the waiver upon demonstration by the transferee that the transferee's annual income as defined in section 411-A, subsection 2-A is less than ~~\$25,000~~ 100% of the median household income as specified in section 411. A request for a waiver must be submitted with an application for transfer of the overboard discharge license in accordance with paragraph A.

Nothing in this paragraph requires a municipality to withhold a local permit or approval associated with a significant action until the provisions of this paragraph have been met.

C. An overboard discharge must be removed without regard to available funding from the department where connection to a public sewer is practicable.

**Sec. 11. 38 MRSA §414, sub-§3-A**, as repealed and replaced by PL 2003, c. 246, §8, is amended to read:

**3-A. Inspection of overboard discharge systems.**

The department shall inspect all licensed overboard discharge systems. The cost of the inspections must be assessed as part of the annual license fee. For residential overboard discharges owned by individuals, the department shall provide a fee reduction based on the adjusted gross income of the license holder on the most recent tax return under the federal Internal Revenue Code of 1986. If the license holder's adjusted gross income is less than ~~\$15,000~~ 50% of the median household income as specified in section 411, the license holder may reduce the total fee by ~~\$125~~ 50%. Any overboard discharge license owner with a mechanical treatment system must provide annual proof of a private maintenance contract for maintenance of that system.

**Sec. 12. 38 MRSA §414-A, sub-§1-B, ¶A**, as amended by PL 2009, c. 654, §5, is further amended by repealing subparagraph (1) and enacting the following in its place:

(1) The department's finding must be based on documentation from a licensed site evaluator provided by the overboard discharge owner and approved by the department. The licensed site evaluator shall provide the overboard discharge owner with written certification, on a form provided by the department, that all potential alternatives for replacement of the overboard discharge on land owned or controlled by the overboard discharge owner, with or without a variance, have been evaluated by the licensed site evaluator. In performing the evaluation under this subparagraph:

(a) The licensed site evaluator shall determine whether practices to reduce the quantity of raw wastewater can be applied that may allow a reduction in the subsurface disposal system sizing requirements;

(b) The licensed site evaluator shall determine whether pretreatment techniques or devices authorized for use by the rules adopted by the Department of Health and Human Services governing subsurface wastewater disposal can be installed to reduce the subsurface disposal system sizing requirements;

(c) The licensed site evaluator shall determine whether proprietary systems and devices authorized for use by the rules adopted by the Department of Health and Human Services governing subsurface wastewater disposal can be installed to reduce the subsurface disposal system sizing requirements;

(d) The licensed site evaluator shall determine whether the subsurface disposal system area can be configured to fit within the property dimensions by separating the waste streams, such as laundry wastewater and sanitary wastewater, between 2 or more leach fields, drip irrigation sites or other disposal areas;

(e) The licensed site evaluator shall evaluate the feasibility of siting a disposal system using reduced setback distances as authorized for use by the rules adopted by the Department of Health and Human Services governing subsurface wastewater disposal;

(f) The licensed site evaluator shall determine whether adjoining or nearby land may be used for wastewater disposal with the permission of the property owner and shall document efforts to obtain an easement from the owner of adjoining or nearby land when, in the licensed site evaluator's judgment, an easement would allow for the installation of a replacement system; and

(g) The licensed site evaluator shall determine if connection to a public sewer is feasible, including the use of an easement across another property or right-of-way.

The department may require the overboard discharge owner to submit an additional site evaluation by a different licensed site evaluator if the conditions of this subparagraph have not been met.

**Sec. 13. 38 MRSA §414-A, sub-§1-B, ¶A,** as amended by PL 2009, c. 654, §5, is further amended by amending subparagraph (3) to read:

(3) If a technologically proven alternative system eligible for grant funding according to the cost-share schedule is identified and funding is not available, then the owner of the overboard discharge is not required to install the system until grant funds are available or as provided in section 413, subsection 3 or 3-A. The department may determine that grant funds are not available when there are insufficient funds available for all alternative systems and the al-

ternative system is not one of the systems identified as a priority for funding from available grant funds by the department.

**Sec. 14. 38 MRSA §414-A, sub-§1-B, ¶G** is enacted to read:

G. Notwithstanding paragraph A, the department may request that a person seeking to renew or transfer an overboard discharge license evaluate the feasibility of a spray irrigation system licensed in accordance with section 413 as an alternative to the overboard discharge system.

**An Act to Amend the  
Provisions of the Maine  
Workers' Compensation Act of  
1992 Governing Requirements  
for Self-insurers**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 39-A MRSA §403, sub-§3,** as amended by PL 2017, c. 401, §1, is further amended by amending the first blocked paragraph to read:

Except as provided in subsection 5, paragraph A-1, a self-insurer may, with the approval of the Superintendent of Insurance, use the following types of security to

satisfy the self-insurer's responsibility to post security required by the superintendent: a surety bond; an irrevocable standby letter of credit; cash deposits and acceptable securities; and an actuarially determined fully funded trust. For purposes of this section, "tangible net worth" means equity less assets that have no physical existence and depend on expected future benefits for their ascribed value. ~~Unless disapproved by the superintendent pursuant to paragraph C, subparagraphs (5) and (6), a group self-insurer that maintains a trust actuarially funded to the confidence level required by the superintendent may use an irrevocable standby letter of credit as follows: only in an amount not greater than the difference between the funding to the required confidence level and funding to the confidence level reduced by 10 percentage points; only as long as the trust assets are not used as collateral for the letter of credit; and only as long as the value of trust assets, excluding the value of the letter of credit, is at least equal to the present value, evaluated to the 65% confidence level, of ultimate incurred claims, claims settlement costs and, if determined necessary by the superintendent, administrative costs.~~

**Sec. 2. 39-A MRSA §403, sub-§3, ¶A,** as amended by PL 2017, c. 401, §1, is further amended by amending the 3rd blocked paragraph to read:

The irrevocable standby letter of credit must be the individual obligation of the issuing financial institution, may not be subject to any agreement, condition, qualification or defense between the financial institution and the employer or group and may not in any way be contingent on reimbursement by the employer or group. If the rating of an issuing financial institution that has issued an irrevocable standby letter of credit pursuant to this section falls below the required standard, the employer or group shall obtain a new irrevocable standby letter of credit from a qualified financial institution or shall provide other eligible security of equal value approved by the Superintendent of Insurance. The irrevocable standby letter of credit is automatically extended for one year from the date of expiration unless, at least 90 days prior to any expiration date, the issuing financial institution notifies the Superintendent of Insurance that the financial institution elects not to renew the irrevocable standby letter of credit.

**Sec. 3. 39-A MRSA §403, sub-§3, ¶A,** as amended by PL 2017, c. 401, §1, is further amended by amending the 4th blocked paragraph to read:

An irrevocable standby letter of credit that has been issued by a qualified financial institution and accepted by the Superintendent of Insurance binds the issuing financial institution to pay one or more drafts drawn by the Treasurer of State, as directed by the superintendent, as long as the draft does not exceed the total amount of the irrevocable standby

~~letter of credit. Any draft presented by the Treasurer of State, as directed by the superintendent, must be promptly honored if accompanied by the certification of the superintendent that any obligation under this chapter has not been paid when due or that a proceeding in bankruptcy has been initiated by or with respect to the employer or group in a court of competent jurisdiction.~~

**Sec. 4. 39-A MRSA §403, sub-§3, ¶A,** as amended by PL 2017, c. 401, §1, is further amended by repealing the 5th blocked paragraph.

**Sec. 5. 39-A MRSA §403, sub-§3, ¶A,** as amended by PL 2017, c. 401, §1, is further amended by repealing the 6th blocked paragraph.

**Sec. 6. 39-A MRSA §403, sub-§3, ¶A,** as amended by PL 2017, c. 401, §1, is further amended by repealing the 7th blocked paragraph.

**Sec. 7. 39-A MRSA §403, sub-§3, ¶A-1** is enacted to read:

A-1. The Superintendent of Insurance may instruct the Treasurer of State to draw on an irrevocable standby letter of credit if:

(1) Any obligation under this chapter has not been paid by the employer or group when due;

(2) A proceeding in bankruptcy has been initiated by or with respect to the employer or group in a court of competent jurisdiction; or

(3) The following conditions have been met:

(a) The superintendent has received notice that that the financial institution elects not to renew the irrevocable standby letter of credit;

(b) The self-insurer has had at least 15 days' notice to replace the security with other eligible security of equal value approved by the superintendent; and

(c) The self-insurer has not replaced the irrevocable standby letter of credit with a new letter of credit or other approved security.

The issuing financial institution shall promptly honor a draft on an irrevocable standby letter presented by the Treasurer of State. Any proceeds from a draw on such an irrevocable standby letter of credit by the treasurer must be held by the treasurer on behalf of workers' compensation claimants to secure payment of claims until either the superintendent authorizes the treasurer to release those proceeds to the employer or group upon provision by the employer or group of replacement security adequate to meet the requirements for security set by the superintendent, or the superintendent directs

distribution of the proceeds in accordance with this Title.

To the extent not inconsistent with state law, the letter of credit is subject to and governed by the International Standby Practices 1998 or successor practices governing standby letters of credit duly adopted by the International Chamber of Commerce. If any legal proceedings are initiated with respect to payment of the letter of credit, those proceedings are subject to the State's courts and law.

**Sec. 8. 39-A MRSA §403, sub-§3, ¶C,** as amended by PL 2017, c. 401, §1, is further amended to read:

C. A self-insurer may establish an actuarially determined fully funded trust, funded at a level sufficient to discharge those obligations incurred by the employer pursuant to this Act as they become due and payable from time to time, as long as the Superintendent of Insurance requires that the value of unencumbered trust assets be at least equal to the present value of ultimate expected incurred claims and claims settlement costs, plus required safety margins and, if determined necessary by the superintendent, administrative costs for the operation of the plan of self-insurance. For the purpose of determining whether a group self-insurer's ~~actuarially determined fully funded trust has a surplus of funds in excess of that~~ is fully funded as required by this subsection, the superintendent shall consider, based upon the group's audit for all completed plan years, only the following assets held outside the trust account: cash up to \$10,000; accounts receivable, limited to amounts collected and deposited in the trust account by the date of the surplus distribution; accrued interest on trust account assets that will be collected and deposited in the trust account within 6 months from the date of the surplus determination; tangible assets that will be converted to cash and deposited in the trust account prior to the distribution date of any surplus; and a letter of credit to be used to partially fund the trust to the extent allowed under this section and rules adopted by the superintendent, as supported in the actuarial review. The superintendent shall consider cash held outside the trust account in excess of \$10,000 if the self-insurer provides, to the superintendent's satisfaction, documentation regarding why the money is being held outside the trust account. An actuarially determined fully funded trust must be funded as follows, as determined by the superintendent.

(1) For individual and group self-insurers, the amount of security must be determined based upon an actuarial review. The actuarial review must take into consideration the use by a group self-insurer of any irrevocable standby letter of credit. Except as provided in subparagraph

(3), initial funding for each plan year must be maintained at the 90% or higher confidence level. Funding after the completion of the initial plan year may be established no lower than the 75% confidence level if the following has occurred:

- (a) A year considered for reduction is completed;
- (b) The supporting actuarial review includes an evaluation of the completed year experience with claims evaluated not less than 6 months from the end of the plan year, or in the case of a group self-insurer in existence for at least 36 months, not less than 4 months from the end of the plan year; and
- (c) For individual self-insurers, prior approval from the superintendent is obtained.

For the purposes of determining the confidence level, all completed years at the same confidence level may be aggregated. For individual self-insurers, funds may not be released from the trust or transferred between years except as approved by the superintendent. The governing body of a group self-insurer may at any time declare a surplus of funds above the required confidence level, but may only release funds after the completion of any plan year. The superintendent may request information regarding any such declaration. Any distribution of surplus must be based upon an actuarial review of all outstanding obligations for all completed plan years, an audited financial statement of the group for all completed plan years and a surplus distribution worksheet for all completed plan years on a form approved by the superintendent. The group self-insurer must provide the required information within 10 days after the distribution. Any surplus declared or distributed pursuant to this paragraph is subject to adjustment after review by the superintendent within 60 days of the receipt of the required information. Any deficit below the required confidence level, as determined by the superintendent, that results from a distribution under this paragraph must be funded within 45 days from the date of the notice by the superintendent.

(1-A) A group self-insurer may secure its obligations to the confidence level required by the superintendent in the following manner:

- (a) The obligations must be secured by an actuarially determined fully funded trust with unencumbered assets at least equal to

the present value of ultimate expected incurred claims and claims settlement costs, or such higher amount as the superintendent may require in accordance with subparagraphs (5) and (6); and

(b) The balance may be secured by a letter of credit complying with paragraph A.

(2) A group self-insurer may elect to fund at a higher confidence level through the use of cash, marketable securities or reinsurance. If a member of a group self-insurer terminates membership in the group for any reason, that member shall fund the member's proportionate share of the liabilities and obligations of the trust to the 95% confidence level. If for any reason the departing member fails to fund the member's proportionate share of the trust's exposure to the 95% level of confidence, the trust is responsible for that member's liabilities and obligations to the trust. If the superintendent finds that a material risk to the trust's ability to satisfy its liabilities and obligations in full exists due to the failure of one or more departing members to fund the departing members' proportionate share of those liabilities and obligations to the 95% confidence level or due to the failure of the group trust to enforce the funding requirement, the superintendent shall consider the unfunded share of the trust's exposure when approving a determination of a surplus or deficit in the trust.

(3) Subject to prior approval by the superintendent in accordance with subparagraph (5), a self-insurer that has successfully maintained an actuarially determined fully funded trust for a period of 5 or more consecutive years may fund all years, including the prospective fund year, at the 75% or higher confidence level in the aggregate and a group self-insurer that has successfully maintained an actuarially determined fully funded trust for a period of 10 or more consecutive years may fund all years, including the prospective fund year, at the 65% or higher confidence level in the aggregate.

(4) Trust assets must consist of cash or marketable securities of a type and risk character as specified in subsection 9. The trustee shall submit a report to the superintendent not less frequently than quarterly that lists the assets comprising the corpus of the trust, including a statement of their market value and the investment activity during the period covered by the report. The trust must be established and maintained subject to the condition that trust assets may not be transferred or revert in any manner to the employer except to the extent that the superintendent finds that the value of

the trust assets exceeds the present value of incurred claims and claims settlement costs with an actuarially indicated margin for future loss development. In all other respects, the trust instrument, including terms for certification, funding, designation of trustee and payout, must be as approved by the superintendent, except that the value of the trust account must be actuarially calculated at least annually by a casualty actuary who is a member of the American Academy of Actuaries and adjusted to the required level of funding.

(5) In determining whether a self-insurer that maintains an actuarially determined fully funded trust qualifies for a reduction in the required confidence level pursuant to subparagraph (1) or (3) or is subject to an enhanced confidence level pursuant to subparagraph (6), the superintendent shall consider the financial condition of the self-insurer in relation to the potential workers' compensation liabilities. The factors the superintendent may consider include the self-insurer's liquidity, leverage, tangible net worth, size and net income. For group self-insurers, the superintendent's review must be based on the aggregate financial condition of the group members. At the request of the superintendent, a group self-insurer shall report relevant financial information, on a form prescribed by the superintendent, at such intervals as the superintendent directs. The superintendent may establish additional review criteria or procedures by rule. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

(6) If the superintendent determines, based on an evaluation of a self-insurer's financial condition pursuant to subparagraph (5), that the confidence level at which the self-insurer has been authorized to fund its trust is not sufficient to provide adequate security for the self-insurer's reasonably anticipated potential workers' compensation liabilities, the superintendent shall make a determination of the appropriate confidence level and order the self-insurer to take prompt action to increase funding to that level within 60 days.

**Sec. 9. 39-A MRSA §403, sub-§4-A, ¶L**, as enacted by PL 2009, c. 232, §2, is amended by amending subparagraph (1) to read:

(1) Any out-of-state self-insurer that participates in the account may do so only through participation in a protected cell. An employer or group authorized by the Superintendent of Insurance to self-insure its Maine liabilities pursuant to this section is considered an out-

of-state insurer self-insurer to the extent that it is reinsuring out-of-state liabilities beyond the scope of its Maine self-insurance plan.

**Sec. 10. 39-A MRSA §403, sub-§5, ¶A-1,** as enacted by PL 2017, c. 401, §3, is amended by amending subparagraph (2) to read:

(2) If the principal member does not have employees in the State, the principal member must meet the same qualifications as a ~~subsidiary employer applying to become qualified parent corporation of~~ an individual self-insurer under subsection 3, paragraph G, except that direct majority ownership is not required and the group's indemnity agreement is deemed to meet the requirement for an irrevocable contract of assignment.

**Sec. 11. 39-A MRSA §403, sub-§11,** as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

**11. Qualifications for reinsurance carriers.** A workers' compensation contract or policy issued after ~~the effective date of this section~~ January 1, 1993 may not be recognized by the Superintendent of Insurance in considering the ability of an individual or group self-insurer to fulfill its financial obligations under this Act, unless the contract or policy is issued by an admitted insurance company or a reinsurance company that meets on a continuous basis the requirements of Title 24-A, chapter 9, subchapter ~~III~~ 3 and the reinsurance company has been approved by the superintendent to issue in this State contracts of primary workers' compensation reinsurance, or by Lloyd's of London, a ~~syndicate of unincorporated alien insurers that has established and maintains United States trust funds consistent with the requirements of Title 24-A, chapter 9, subchapter III~~ formally organized association of incorporated underwriters and individual unincorporated underwriters, any one or more of which underwrite and assume as insurer a portion of the risk insured by them as set forth in the contract of insurance. Each contract of primary workers' compensation reinsurance that is proposed for use in this State must be filed for approval in the manner set out in Title 24-A, section 2412. ~~Insofar as is~~ To the extent practicable, a contract so approved may be modified with less than 30 days advance filing notice if the superintendent determines the modifications suggested are not contrary to provisions of Title 24-A, section 2412, this Title or Bureau of Insurance Rule Chapter 250 and are necessary to effect required reinsurance coverage to authorize the self-insurer to operate a plan of workers' compensation self-insurance.

**Sec. 12. 39-A MRSA §403, sub-§14, ¶F-1** is enacted to read:

F-1. After terminating or suspending an authorization for self-insurance in accordance with this subsection, the Superintendent of Insurance shall

promptly notify the board and forward to it a copy of the order terminating or suspending the authorization.

A health care practitioner who conducts physical examinations of ~~alleged~~ victims of sexual assault must be trained in the proper evidence collection procedures for conducting a forensic examination.

Evidence collection results may not be excluded as evidence in any proceeding before any court of this State as a result of the examiner's failure to use the standardized evidence collection kit or as a result of the examiner's failure to be trained in the proper procedures for the collection of evidence required by this subsection.

The percentage is the value of the unit consisting of the ~~homestead principal dwelling~~ compared to the total value of the building exclusive of the common elements, if any. "Homestead" includes the taxpayer-occupied principal dwelling and up to 10 contiguous acres upon which it is located that is held in a revocable living trust for the benefit of the taxpayer.

**Sec. A-4. 36 MRSA §6254, sub-§1,** as amended by PL 2021, c. 483, Pt. AA, §11, is further amended to read:

**1. Lien.** The lien provided in section 552 must continue for purposes of protecting the State's deferred tax interest in ~~tax-deferred tax-deferred~~ property. When it is determined that one of the events set out in section 6259 has occurred and that a property is no longer eligible for property tax deferral under this chapter, the State Tax Assessor shall send notice by certified mail to the taxpayer, or the taxpayer's heirs or devisees, listing the total amount of deferred property taxes, including accrued interest and costs of all the years and demanding payment on or before ~~April 30th of the year following the tax year in which the circumstances causing withdrawal from the provisions of this chapter occur~~ the due date established by section 6260.

The cost to be paid by the taxpayer, or the taxpayer's heirs or devisees, is the sum of the fees for recording and discharging of the lien as established by Title 33, section 751, plus \$13. Upon redemption, the State Tax Assessor shall prepare and record a discharge of the tax lien mortgage. The lien described in section 552 is the basis of this tax lien mortgage procedure.

The filing of the tax lien certificate, provided for in this section, in the registry of deeds creates a mortgage on the real estate to the State and has priority over all other mortgages, liens, attachments and encumbrances of any nature and gives to the State all rights usually instant to a mortgage, except that the mortgagee does not have any right of possession of the real estate until the right of redemption expires.

Payments accepted during the redemption period may not interrupt or extend the redemption period or in any way affect the foreclosure procedures.

**Whereas,** Maine is experiencing a shortage of dentists; and

**Whereas,** this legislation extends the time by which the operations of a dental practice may continue after the death or incapacitation of a dentist; and

**Whereas,** this legislation must take effect prior to the 90-day period to provide additional time for dental practices to be sold after the death or incapacitation of a dentist; and

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 13 MRSA §732, sub-§5,** as amended by PL 2017, c. 402, Pt. C, §26 and affected by PL 2019, c. 417, Pt. B, §14, is further amended to read:

**CHAPTER 122  
H.P. 151 - L.D. 228**

**An Act to Allow Coastal Seawalls to Be Raised by up to 2 Feet in Order to Accommodate Predicted Sea Level Rise**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** the State in 2023 and 2024 experienced multiple significant storm events causing widespread and devastating floods and damaging public and private infrastructure across the State with particular impact along the coast, which experienced historically high and dangerous tides; and

**Whereas,** with an ever-increasing frequency of such storm events and a projected rise in sea levels and the associated risks to persons, property and resources, the citizens of the State must be able to enhance the resilience of public and private infrastructure to the effects of these storms; and

**Whereas,** the changes to the Natural Resources Protection Act proposed in this legislation must take effect immediately to facilitate the timely development of certain coastal resiliency projects; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 38 MRSA §480-E, sub-§15,** as enacted by PL 2023, c. 97, §1, is amended to read:

**15. Coastal sand dune system restoration projects; stabilization materials.** The department

may authorize through a permit or a permit by rule under this article a coastal sand dune system restoration project that uses allowable stabilization materials for the planting of native dune vegetation as long as the project meets the requirements of this subsection and satisfies all other applicable requirements for the permit or permit by rule.

A. Allowable stabilization materials may be used or placed only above the highest annual tide as measured at the time the project construction begins. Allowable stabilization materials may be used or placed in high-velocity zones, or V-Zones, as identified by the United States Department of Homeland Security, Federal Emergency Management Agency in effective flood insurance rate maps under the National Flood Insurance Program.

B. The slope of the constructed dune may not be steeper than the slope of the existing dune in which the allowable stabilization materials are used or placed, except where the constructed dune is placed on, or on the landward side of, an existing seawall.

C. Allowable stabilization materials must be used or placed in a manner designed to encourage the revegetation of the dune with native dune vegetation and, except where the constructed dune is placed on, or on the landward side of, an existing seawall, must remain covered with sand and native dune vegetation throughout and upon completion of the project.

D. Allowable stabilization materials containing or using gravel or cobble may be used or placed only in a dune primarily composed of gravel or cobble or directly adjacent to a beach that is primarily gravel or cobble. Placement of allowable stabilization materials containing or using gravel or cobble must involve the use of gravel or cobble from the dune system or beach or gravel or cobble of a similar texture and color of the gravel or cobble of the dune system or beach.

E. A Except as provided in paragraph F, a project that will use or place stakes, anchors or cables made from metal or other nonbiodegradable materials or fabrics, blankets or other stabilization materials made from polylactic acid polymers is not eligible for a permit by rule but may be issued a permit under this article.

F. A project that will use or place stakes, anchors or cables made from metal, whether alone or in conjunction with allowable stabilization materials, is eligible for a permit by rule under this article and in accordance with the requirements of this subsection only if the project is constructed on, or on the landward side of, an existing seawall.

The use or placement of allowable stabilization materials within a coastal sand dune system in accordance

with a permit or a permit by rule authorized by the department pursuant to this subsection is not considered a permanent structure under this article.

For the purposes of this subsection, "allowable stabilization materials" means natural, plant-based biodegradable or compostable fabrics, erosion control blankets, logs or rolls made from coir, jute, straw, polylactic acid polymers or other similar materials, including materials that contain or use gravel or cobble, discarded holiday trees, other trees fallen or washed up in proximity to the site and stakes, anchors or cables used to secure those materials. For the purposes of this subsection, "native dune vegetation" means dune plant species typically adapted to coastal sand dune systems in the State, including, but not limited to, American beach grass, *Rosa virginiana*, bayberry, beach pea, beach heather and pitch pine. For the purposes of this subsection, "existing seawall" means a seawall that legally existed on January 1, 2025.

**Sec. 2. 38 MRSA §480-E, sub-§19** is enacted to read:

**19. Height increase of existing seawall in coastal sand dune system.** Notwithstanding any provision of this article to the contrary, the department may authorize a one-time increase in the height of a seawall or similar structure in a coastal sand dune system through a permit under this article if the following conditions are met.

A. The seawall legally existed on January 1, 2025 and the lot or parcel that contains the seawall:

(1) Is no larger than 15,000 square feet and contains a residential dwelling that legally existed on or was legally reconstructed after January 1, 2025;

(2) Is no larger than 25,000 square feet and contains a commercial building that legally existed on or was legally reconstructed after January 1, 2025; or

(3) Contains a road that legally existed on or was legally reconstructed after January 1, 2025.

B. The residential dwelling, commercial building or road on the lot or parcel that contains the seawall, as identified pursuant to paragraph A, is located within 25 feet, horizontal distance, of the landward side of the seawall, or the lot or parcel abuts one or more lots or parcels along the same shoreline that each contain seawalls that have been or are permitted to be increased in height pursuant to this subsection.

C. A sand dune located seaward of the seawall that remains dry during the highest astronomical tide plus 1.5 feet of sea level rise:

(1) Does not exist at the time of application; and

(2) As determined by the department, cannot be created through restoration, reconstruction or construction activities in accordance with the department's permit by rule standards.

D. The height of the seawall is increased by no more than 2 feet, as long as:

(1) The height of the seawall, after the increase, is not more than one foot above the base flood elevation; and

(2) The dimensions of the seawall are not otherwise modified.

The applicant may add sand, cobble or allowable stabilization materials on the landward side of the seawall to provide structural stability for the increase in the height of the seawall.

E. The applicant must agree to mitigate, through beach nourishment or other activities directed by the department, any increased scouring or erosion on the seaward side of the seawall that may result from the seawall height increase.

F. If there is sufficient space, as determined by the department, between the seawall and the residential dwelling, commercial building or road on the lot or parcel that contains the seawall, as identified pursuant to paragraph A, the applicant must, on the landward side of the seawall:

(1) Construct a sand dune covered with native dune vegetation in a manner consistent with department rule; or

(2) If there is not sufficient space to construct a sand dune, plant a vegetative buffer consisting of native dune vegetation.

G. If practicable, as determined by the department, the residential dwelling or commercial building on the lot or parcel that contains the seawall, as identified pursuant to paragraph A, must be elevated on a post or piling foundation that allows for the free movement of water, wind and sand in a manner consistent with department rule and prior to or at the time that the seawall is increased in height pursuant to this subsection.

H. The seawall, if increased in height pursuant to this subsection, must connect to a seawall of the same or greater height on each abutting lot or parcel along the same shoreline, except that, if an abutting lot or parcel along the same shoreline does not contain a seawall that the seawall can connect to, the applicant must:

(1) Through legally binding agreement, including, but not limited to, an easement or contract, obtain permission for the seawall height

increase from the owner of each abutting lot or parcel along the same shoreline that does not contain a seawall that the seawall can connect to; and

(2) Agree to mitigate, through periodic dune restoration or beach nourishment activities as directed by the department, any increased end-effect erosion on each abutting lot or parcel along the same shoreline that may result from the seawall height increase.

I. For any seawall that is part of a project involving an increase in the height of seawalls located on 5 or more abutting lots or parcels along the same shoreline, the seawall height increase on all the abutting lots or parcels may not be expected to result in an increase in the extent or intensity of a predicted 100-year flood event on other abutting or adjacent lots that may cause the Federal Emergency Management Agency to revise the relevant flood insurance map to account for that increase, as determined by the department based on a standard engineering analysis provided by the applicant and any other information available to the department.

This subsection does not prevent the department from permitting, in accordance with adopted rules, the replacement of an existing seawall with a seawall of different dimensions or in a different location that is further landward if the department determines that the replacement seawall would be less damaging to the coastal sand dune system, existing wildlife habitat and adjacent properties than replacing the existing seawall with a seawall of the same dimensions in the same location.

For the purposes of this subsection, "allowable stabilization materials" and "native dune vegetation" have the same meanings as in subsection 15.

**Sec. 3. 38 MRSA §480-W, sub-§4**, as enacted by PL 2005, c. 548, §2, is amended to read:

**4. Replacement after emergency action under permit by rule.** Notwithstanding any other provision of this chapter, the department shall approve a permit by rule to repair or replace a seawall, bulkhead, retaining wall or similar structure that has been destroyed or threatened with a structure that, except as provided in paragraph C, is identical in all dimensions and location as long as a property owner files a completed permit-by-rule notification for the repair or replacement of the structure and the following standards are met:

A. During project construction, disturbance of dune vegetation must be avoided and native vegetation must be retained on the lot to the maximum extent possible. Any areas of dune vegetation that are disturbed must be restored as quickly as possible. Dune vegetation includes, but is not limited to,

American beach grass, ~~rugosa rose~~ Rosa virginiana, bayberry, beach pea, beach heather and pitch pine.

B. Sand may not be moved seaward of the frontal dune between April 1st and September 1st unless the owner has obtained written approval from the Department of Inland Fisheries and Wildlife.

C. The replacement of a seawall may not increase the height, length or thickness of the seawall beyond that which legally existed within the 24 months prior to the submission of the permit-by-rule notification but may increase the height of the seawall in accordance with section 480-E, subsection 19. The replaced seawall may not be significantly different in construction from the one that previously existed.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective May 29, 2025.

- A. To obtain or increase any benefit or other payment under this chapter or under an employment security law of any other state or of the Federal Government;
- B. To prevent or reduce the payment of unemployment benefits to any individual;
- C. To avoid becoming or remaining an employer under this chapter; or
- D. To avoid or reduce any contribution or other payment required from an employing unit under this chapter.

**Sec. 7. 26 MRSA §1082, sub-§1**, as amended by PL 2021, c. 456, §8, is further amended to read:

The commissioner is responsible and possesses the necessary authority for the operation and management of the Bureau of Unemployment Compensation. The commissioner shall determine methods of operational procedures in accordance with the provisions of this chapter. The commissioner may adopt rules in accordance with ~~the Maine Administrative Procedure Act, Title 5, chapter 375;~~ to achieve this purpose. ~~The commissioner may adopt rules with respect to a self-employment assistance program as provided in section 1197. A. If a dislocated worker, as defined in section 1196, subsection 1, ~~who is in training approved under section 1192, subsection 6, 6-A, 6-C, 6-D or 6-E~~ qualifies for additional benefits under section ~~1043, subsection 5, paragraph B~~ 1196, subsection 1-A, or exhausts the worker's entitlement to benefits available to the worker under this subsection, the maximum amount under this subsection is the product of the worker's most recent weekly benefit amount multiplied by the number of weeks in which the worker thereafter attends an approved training program. ~~No~~ An increase may not be made under this paragraph, with respect to any benefit period, greater than 26 times the individual's weekly benefit amount.

(1) Benefits paid to an individual under this paragraph may not be charged against the experience rating record of any employer, but must be charged to the General Fund.

(2) ~~No benefits~~ Benefits may not be paid under this paragraph to ~~any person~~ an individual:

**Sec. 10. 26 MRSA §1192,** as corrected by RR 2023, c. 2, Pt. E, §§89 to 92, is repealed.

**Sec. 11. 26 MRSA §1192-A** is enacted to read:

**§1192-A. Eligibility conditions**

The following provisions govern an individual's eligibility to receive benefits under this chapter.

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Deputy" means a representative of the bureau designated by the commissioner.

B. "Educational service agency" means a governmental agency or governmental entity that is established and operated exclusively for the purpose of providing services to one or more educational institutions.

C. "Good cause" means:

(1) The unemployed individual is ill;

(2) The presence of the unemployed individual is required due to an illness of the unemployed individual's spouse, child, parent, step-parent, sibling or relative who has been acting

in the capacity of a parent of either the unemployed individual or the unemployed individual's spouse;

(3) The unemployed individual is in attendance at the funeral of any of the persons described in subparagraph (2);

(4) The unemployed individual is observing a religious holiday as required by religious conviction;

(5) The unemployed individual is performing either a military or civil duty as required by law; and

(6) Another cause of a necessitous and compelling nature, including child care emergencies and transportation emergencies.

"Good cause" does not include incarceration as a result of a conviction for a felony or misdemeanor.

D. "Suitable employment" means, with respect to an individual, work of a substantially equal or higher skill level than the individual's past adversely affected employment, as defined for purposes of the United States Trade Act of 1974, and wages for that work at not less than 80% of the individual's average weekly wage as determined for the purposes of the United States Trade Act of 1974.

E. "Union hiring hall" means a service provided by a labor union or an entity associated with a labor union that places employees with an employer under a collective bargaining agreement or otherwise places employees with employers.

**2. Eligibility.** An unemployed individual is eligible to receive benefits with respect to any week only if:

A. The individual has made a claim for benefits with respect to the week or part thereof in accordance with rules adopted by the commissioner;

B. The individual has registered for work at and continued to report at an employment office in accordance with rules the commissioner adopts, except that the commissioner may, by rule, waive or alter either or both of the requirements of this paragraph as to individuals attached to regular jobs and as to such other types of cases or situations with respect to which the commissioner finds that compliance with the requirements would be oppressive or would be inconsistent with the purposes of this chapter. A rule under this paragraph may not conflict with section 1191, subsection 1;

C. For each week in which a claim for benefits is filed, the individual is actively seeking work, unless the individual is participating in approved training under subsection 3 or the work search requirement has been waived in accordance with

rules adopted by the commissioner, and the individual provides evidence of work search efforts in a manner and form as prescribed by the Department of Labor. Failure to provide required work search documentation results in a denial of benefits in accordance with section 1194, subsection 2 for the week or weeks for which documentation was not provided unless the department determines there is good cause for the individual's failure to comply with this requirement.

Notwithstanding any provision of this paragraph to the contrary, an individual is considered to be actively seeking work in accordance with this section if the individual is a member of, or represented by, a bona fide labor union, or is otherwise authorized to use the services of a bona fide union hiring hall, maintains contact with that union and uses and complies with the placement services of the union hiring hall in seeking work;

D. The individual is able to work and is available for work at the individual's usual or customary hours, commute, trade, occupation, profession or business or in such other trade, occupation, profession or business for which the individual's prior training or experience shows the individual to be fitted or qualified, and in addition to having complied with paragraphs B and C, is actively seeking work in accordance with the rules of the commissioner.

Ineligibility may not be determined solely because an individual is unable to accept employment on a shift, the greater part of which falls between the hours of midnight to 5 a.m., and is unavailable for that employment because of parental obligation, the need to care for an immediate family member or the unavailability of a personal care attendant required to assist the unemployed individual who is a person with a disability. An unemployed individual who is neither able nor available for work due to good cause as determined by the deputy is eligible to receive prorated benefits for that portion of the week during which the individual was able and is available.

Notwithstanding this paragraph, an individual who worked full-time for the majority of the weeks during that individual's base period but is able and available for and actively seeking only part-time work because of the illness or disability of the individual or an immediate family member, or because of limitations necessary for the safety or protection of the individual or the individual's immediate family member, may not be disqualified from receiving benefits. The individual's benefits must be prorated in accordance with the individual's current availability;

E. The individual has served a waiting period of one week of total or partial unemployment. A week

may not be counted as a week of total or partial unemployment for the purpose of this paragraph:

- (1) If benefits have been paid with respect to that week;
- (2) Unless it occurs within the benefit year that includes the week with respect to which the individual claims payment of benefits; and
- (3) Unless the individual was eligible for benefits with respect to that week, as provided in this section and section 1193, except for the requirements of this paragraph; and

F. For an individual establishing a benefit year on or after January 1, 1980, the individual has been paid wages equal to or exceeding 2 times the annual average weekly wage for insured work in each of 2 different quarters in the individual's base period and has been paid total wages equal to or exceeding 6 times the annual average weekly wage in the individual's base period for insured work.

For the purposes of this paragraph, the annual average weekly wage amount to be used is that which is applicable at the time the individual files a request for determination of insured status.

For the purposes of this paragraph, wages are counted as "wages for insured work" for benefit purposes with respect to a benefit year only if the benefit year begins subsequent to the date on which the employer by whom such wages were paid has satisfied the conditions of section 1043, subsection 9, or section 1222, subsection 3, with respect to becoming an employer; except that an individual may not receive benefits in a benefit year unless, subsequent to the beginning of the next preceding benefit year during which that individual received benefits, that individual performed services and earned remuneration for such services in an amount equal to or greater than 8 times that individual's weekly benefit amount in employment by an employer in the benefit year being established.

This paragraph applies only to an individual requesting determination of insured status on and after January 1, 1972. In determining an individual's qualification under this subsection, payments pursuant to former Title 39, sections 54, 55, 188 and 189 and Title 39-A, sections 608 and 609 are considered wages for insured work.

**3. Approved training.** Notwithstanding any provision of this chapter to the contrary, an otherwise eligible individual who is in training, as approved for the individual by the deputy, under rules adopted by the commissioner, may not be denied benefits for any week with respect to subsection 2, paragraphs C and D relating to availability and the work search requirement or section 1193, subsection 3. Enrollment in a degree-granting program may not be the sole cause for denial

of approved training status for an otherwise eligible individual. Benefits paid to any eligible individual while in approved training for which except for this subsection the individual could be disqualified under section 1193, subsection 3 may not be charged against the experience rating record of an employer but must be charged to the General Fund.

Notwithstanding any provision of this chapter to the contrary, the following provisions further govern an individual's eligibility for benefits with respect to training:

A. Any otherwise eligible individual may not be denied benefits for any week because the individual is in training approved under 19 United States Code, Section 2296(a) or under any amendment or addition to the United States Trade Act of 1974. That individual may not be denied benefits:

- (1) For leaving work to enter that training, as long as the work left is not suitable employment; or
- (2) Because of the application to any such week in training of provisions in this chapter or any applicable federal unemployment compensation law relating to availability for work, active search for work or refusal to accept work.

Benefits paid to an eligible individual while in training for which, except for this paragraph, the individual could be disqualified under section 1193, subsection 1 or 3 may not be charged against the experience rating record of an employer but must be charged to the General Fund;

B. The acceptance of training for opportunities available through United States Public Law 97-300 is considered to be acceptance of training with the approval of the State within the meaning of any other provisions of federal or state law relating to unemployment benefits;

C. The acceptance of training for opportunities available under sections 2031 and 2033 is considered to be acceptance of training with state approval under federal or state law relating to unemployment benefits; and

D. Unless inconsistent with federal law, the acceptance of training opportunities available through the federal Workforce Innovation and Opportunity Act, 29 United States Code, Sections 3101 to 3361 is considered to be acceptance of training with the approval of the State within the meaning of any other provision of federal or state law relating to unemployment benefits as long as the training is in accordance with rules the commissioner adopts.

**4. Service with nonprofit organizations and educational institutions and state and local governments.** Benefits based on service in employment, as defined in section 1043, subsection 11, paragraph A-1, subparagraphs (1) and (3), are payable in the same amount, on the same terms and subject to the same conditions as benefits payable on the basis of other services subject to this chapter, except that:

A. With respect to weeks of unemployment beginning after December 31, 1977, for services in an instructional, research or principal administrative capacity for an educational institution, if there is a contract or annual written reasonable assurance that the individual will perform services in such a capacity for the educational institution in a 2nd academic year or term, benefits may not be paid to an individual based on those services for any week of unemployment:

(1) Commencing during the period between 2 successive academic years or terms;

(2) During a period, similar to the period described in subparagraph 1, between 2 regular, but not successive, terms when provided for by an agreement; or

(3) During a period of paid sabbatical leave provided for in an individual's contract, if that individual performs services in a first academic year or term;

B. With respect to weeks of unemployment beginning after September 3, 1982, for services for an educational institution in any capacity other than an instructional, research or principal administrative capacity, benefits may not be paid on the basis of those services to an individual for any week that commences during a period between 2 successive academic years or terms if the individual performs those services in the first of those academic years or terms and there is annual written reasonable assurance that the individual will perform the services in the 2nd of those academic years or terms; except that if benefits are denied to an individual under this paragraph and the individual was not offered an opportunity to perform the services for the educational institution for the 2nd of those academic years or terms, the individual is entitled to retroactive payment of benefits for each week for which the individual filed a timely claim for benefits and for which benefits were denied solely by reason of this paragraph;

C. With respect to weeks of unemployment beginning after December 31, 1977, benefits must be denied to an individual for any week that commences during an established and customary vacation period or holiday recess if:

(1) That individual performs a service described in paragraph A or B in the period immediately before the vacation period or holiday recess; and

(2) There is annual written reasonable assurance that the individual will perform those services in the period immediately following the vacation period or holiday recess; and

D. With respect to weeks of unemployment beginning after June 30, 1979, benefits must be denied to an individual who performed services in an educational institution while in the employ of an educational service agency for any week that commences during a period described in paragraph A, B or C if:

(1) That individual performs a service described in paragraph A or B in the first of these periods, as specified in the applicable paragraph; and

(2) There is a contract or a written reasonable assurance as set out in the applicable paragraph that the individual will perform these services in the 2nd of those periods, as set out in the applicable paragraph.

**5. Claims in another state or contiguous country; individual residence; no denial or reduction of benefits.** Benefits may not be denied or reduced to an individual solely because the individual files a claim in another state or a contiguous country with which the United States has an agreement with respect to unemployment compensation or because the individual resides in another state or contiguous country at the time the individual files a claim for benefits in this State.

**6. No denial of benefits for jury service.** Benefits may not be denied to an individual solely because the individual is selected to serve as a juror. An individual who receives actual earnings for jury service must be paid a partial benefit in an amount equal to the individual's weekly benefit amount less the amount earned for jury service.

**7. Benefit payments to athletes.** Benefits may not be paid to an individual on the basis of any service, substantially all of which consists of participating in sports or athletic events or training or preparing to participate, for any week that commences during the period between 2 successive sports seasons or similar periods, if that individual performed those services in the first of those seasons or similar periods and there is a written reasonable assurance that the individual will perform those services in the 2nd of those seasons or similar periods.

**8. Benefit payments to aliens not lawfully present.** On and after January 1, 1978, benefits are not payable on the basis of services performed by an alien unless the alien is an individual who:

A. Was lawfully admitted for permanent residence in the State at the time the services were performed;

B. Was lawfully present for purposes of performing the services; or

C. Was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United States as a result of temporary parole pursuant to the Immigration and Nationality Act, 8 United States Code, Section 1182(d)(5).

Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status must be uniformly required from all applicants for benefits. In the case of an individual whose application for benefits would otherwise be approved, a determination that benefits to the individual are not payable because of the individual's alien status may not be made except upon a preponderance of the evidence.

**9. Participation in reemployment services.** An individual who has been referred to reemployment services pursuant to a profiling system established by the commissioner must participate in those services or similar services unless it is determined that the individual has completed those services or there is good cause for the individual's failure to participate.

**10. Reemployment services and eligibility assessment; participation.** In the case that an individual has been referred to reemployment services and eligibility assessment by the Department of Labor, the individual must participate in those services, unless the department determines there is good cause for the individual's failure to participate. Failure to participate in reemployment services and eligibility assessment without good cause results in a denial of benefits until the individual participates.

**11. Temporary layoff; work search.** Notwithstanding any provision of this chapter to the contrary, an otherwise eligible individual who is temporarily laid off by an employer that has given that individual a definite recall date may not be denied benefits for any week that is within 6 weeks of the definite recall date based on the individual's failure to meet the requirements of subsection 1, paragraph B, C or D for the period of up to 6 weeks during that temporary layoff, as long as the individual remains able and available to work for that employer.

An individual may not receive more than 6 weeks of benefits in a benefit year pursuant to this subsection unless approved by the Department of Labor.

**Sec. 12. 26 MRSA §1193, sub-§6,** as amended by PL 2013, c. 314, §2, is repealed and the following enacted in its place:

**6. Falsification.** For any week for which the deputy finds that the individual made a false statement or

representation knowing it to be false or knowingly failed to disclose a material fact in the individual's application or solicited another person to make a false statement knowing it to be false or fail to disclose a material fact to obtain benefits from any state or federal unemployment compensation program administered by the bureau. In addition, for a first or 2nd occurrence, the individual is ineligible to receive any benefits for a period of not less than 6 months and not more than one year from the mailing date of the determination, and the commissioner shall assess a penalty of 50% of the benefits falsely obtained for the first occurrence and 75% for the 2nd occurrence. If an individual is disqualified for a 3rd occurrence of statement falsification or misrepresentation in an effort to obtain benefits, the commissioner shall assess a penalty of 100% of the benefits falsely obtained and the individual is disqualified from receiving benefits for a period of time to be determined by the commissioner. The progression of penalties for multiple occurrences described in this subsection does not apply and an occurrence of fraud must be treated as a 3rd occurrence if:

A. A claim for benefits is the result of fraudulent filing using illegally obtained identity information. Such claims may be canceled immediately by the bureau upon confirmation of the fraudulent filing; or

B. An individual is found to have filed a claim to obtain benefits from any state or federal unemployment compensation program administered by the bureau in the name of another person using illegally obtained identity information.

An amount equal to 15% of each overpayment on which the penalties under this subsection were assessed must be transferred directly into the fund account upon recovery;

**Sec. 13. 26 MRSA §1194, sub-§2,** as amended by PL 2023, c. 53, §§3 and 4, is further amended to read:

**2. Determination.** A representative designated by the commissioner, and in this chapter referred to as a deputy, shall promptly examine the first claim filed by a claimant in each benefit year and shall determine the weekly benefit amount and maximum benefit amount potentially payable to the claimant during that benefit year in accordance with section 1192, ~~subsection 5~~ 1192-A, subsection 2, paragraph F.

The deputy shall promptly examine all subsequent claims filed and, on the basis of facts, shall determine whether or not that claim is valid with respect to sections 1192 1192-A and 1193, other than section 1192, ~~subsection 5~~ 1192-A, subsection 2, paragraph F, or shall refer that claim or any question involved in the claim to the Division of Administrative Hearings or to the commission, which shall make a determination with respect to the claim in accordance with the procedure described in subsection 3, except that in any case in which the

payment or denial of benefits is subject to section 1193, subsection 4, the deputy shall promptly transmit a report with respect to that subsection to the Director of Unemployment Compensation upon the basis of which the director shall notify appropriate deputies as to the applicability of that subsection.

The deputy shall determine in accordance with section 1221, subsection 3, paragraph A, the proper employer's experience rating record, if any, against which benefits of an eligible individual must be charged, if and when paid.

The deputy shall promptly notify the claimant and any other interested party of the determinations and reasons for the determinations. Subject to subsection 11, unless the claimant or any such interested party, within 30 calendar days after that notification was mailed to the claimant's ~~last-known~~ last-known address, files an appeal from that determination, that determination is final, except that the period within which an appeal may be filed may be extended, for a period not to exceed an additional 30 calendar days, for good cause shown. If new evidence or pertinent facts that would alter that determination become known to the deputy prior to the date that determination becomes final, a redetermination is authorized, but that redetermination must be mailed before the original determination becomes final.

If an employer's separation report for an employee is not received by the office specified on the separation report within 10 days after that report was requested, the claim must be adjudicated on the basis of information at hand. If the employer's separation report containing possible disqualifying information is received after the 10-day period and the claimant is denied benefits by a revised deputy's decision, benefits paid prior to the date of the revised decision do not constitute an overpayment of benefits. Any benefits paid after the date of the revised decision constitute an overpayment.

If an employer files an amended separation report or otherwise raises a new issue as to the employee's eligibility or changes the wages or weeks used in determining benefits that results in a denial of benefits or a reduction of the weekly benefit amount, the benefits paid prior to the date the determination is mailed do not constitute an overpayment. Any benefits received after that date to which the claimant is not entitled pursuant to a new determination based on that new employer information constitute an overpayment.

If, during the period a claimant is receiving benefits, new information or a new issue arises concerning the claimant's eligibility for benefits or which affects the claimant's weekly benefit amount, benefits may not be withheld until a determination is made on the issue. Before a determination is made, written notice must be mailed to the claimant and other interested parties, which must include the issue to be decided, the law upon which it is based, any factual allegations known to the bureau, the right to a fact-finding interview, the date

and location of the scheduled interview and the conduct of the interview and appeal. Any fact-finding interview must be scheduled not less than 7 calendar days nor more than 14 calendar days after the notice is mailed. The bureau shall include in the notice a statement notifying the claimant that any benefits paid prior to the determination may be an overpayment under applicable law and recoverable by the bureau if it is later determined that the claimant was not entitled to the benefits. If the claimant does not appear for the scheduled interview, the deputy shall make a determination on the basis of available evidence. The deputy shall make a prompt determination of the issue based solely on any written statements of interested parties filed with the bureau before the interview, together with the evidence presented by interested parties who personally participated in the interview by telephone or e-mail or other electronic means. Upon request and notice to all parties at the interview, the deputy may accept corroborative documentary evidence after the interview. In no other case may the deputy base a decision on evidence received after the interview has been held.

A. This subsection does not apply when the claimant reports that, in the week claimed:

- (1) The claimant worked and reports a specific amount of earnings for that work;
- (2) The claimant worked and had earnings from that work, but does not furnish the amount of earnings;
- (3) The claimant reports that the claimant was not able or available for work for a specific portion of the week and there is sufficient information for the deputy to determine that the inability or unavailability for work was for good cause. If the information provided by the claimant indicated unavailability during the claim week, but is not specific as to the amount of time involved, the ~~department~~ Department of Labor shall immediately initiate a fact-finding interview with the individual and make a determination regarding the claimant's weekly benefit amount on the basis of that interview. If the department is not able to conduct an immediate fact-finding interview with the claimant, the notification and fact-finding process described in this subsection must be followed; ~~or~~
- (4) The claimant received a specific amount of other remuneration as described in section 1193, subsection 5-;
- (5) The claimant reported that the claimant did not complete a work search activity for that week, and that week was not under a work search waiver approved by the bureau;
- (6) The claimant failed to respond to or failed to provide sufficient documentation to satisfy

a written request for documentation to verify the claimant's identity as listed on an initial claim within the time frame specified by the bureau; or

(7) The claimant's total or partial unemployment is due to a stoppage of work as described in section 1193, subsection 4.

The bureau may not withhold benefit payments pursuant to subparagraph (6) for claimants receiving benefit payments unless the bureau has credible evidence on the record that substantiates a reasonable basis for establishing an issue of potential fraud and withholding payment. If there is such evidence, the bureau shall issue timely notice to the claimant informing the claimant that benefit payments are withheld and include with that notice instructions for how the claimant may satisfy identity verification requirements and how to submit those documents to the bureau. The notice must give a reasonable time frame for submitting documents and describe the consequences for failing to provide documentation, as well as the claimants' appeal and hearing rights. The bureau shall allow individuals a reasonable time frame to submit documents that comply with an identity verification request and provide a list of acceptable documents and alternatives. The bureau shall also allow multiple means by which a claimant may submit documents for identity verification. If the claimant fails to comply with the request for documents in the time frame allowed or the documents provided are insufficient or determined to be fraudulent, the bureau shall render a timely decision denying further benefits.

C. "Intellectual disability" means significantly subaverage intellectual functioning resulting in or associated with concurrent impairments in adaptive behavior and manifested during the developmental period.

D. "Intermediate care facility for individuals with intellectual disabilities" or "ICF/IID" means a facility that furnishes services to individuals with intellectual disabilities that conform with the conditions described in 42 Code of Federal Regulations, Section 440.150 (2024).

**2. License required.** The operation of an intermediate care facility for individuals with intellectual disabilities requires a license issued by the department in accordance with this section.

**3. Licenses generally.** The department is authorized to issue a license to an ICF/IID that, after inspection, is found to comply with this section and any rules adopted by the department. The following general terms apply to all types of licenses issued under this section:

A. A license is not assignable or transferable;

B. A license is immediately void if ownership of the ICF/IID changes; and

C. A license may not be effective earlier than the date on which the department receives a completed application and payment of the required application fee.

A. Has not previously operated an ICF/IID;

B. Has complied with all applicable laws and rules, except those that can only be followed once clients are served by the applicant; and

C. Has demonstrated the ability to comply with all applicable laws and rules once clients are in residence at the ICF/IID.

**5. Full license.** The department may issue a full license to, or renew a full license for, an ICF/IID that the department determines has complied with all applicable laws and rules. The term of a full license may not exceed 2 years.

**6. **Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 38 MRSA §3105, sub-§5,** as amended by PL 2023, c. 482, §12, is further amended to read:

The cooperative shall ensure that accurate and up-to-date information regarding all label registrations is shared with entities using or administering reverse vending machine and account-based bulk processing programs and is made available on its publicly accessible website.

The rules must outline the method of allocating among the parties involved the payment for 3rd-party vendor costs.

**Sec. 3. 38 MRSA §3106, sub-§8-A,** as enacted by PL 2023, c. 482, §17, is amended to read:

B. The department shall adopt rules to implement this subsection. The rules must, at a minimum, establish pickup frequency standards based on the volume of beverage containers collected by each dealer or redemption center, accounting for any irregularities in volume, in a manner that promotes communication between designated pick-up entities and dealers and redemption centers and that increases transportation efficiency while maintaining the level of service provided to dealers and redemption centers such that dealers and redemption centers are not required to store collected beverage containers for extended periods of time without contact from and compensation provided by the designated pick-up entity.
