If an exemption has already been accepted and the State Tax Assessor subsequently determines that the property is not entitled to exemption, a supplemental assessment must be made within 3 years of the original assessment date with respect to the property in compliance with section 713, without regard to the limitations contained in that section regarding the justification necessary for a supplemental assessment.

**CHAPTER 273**  
**S.P. 60 - L.D. 129**

**An Act to Amend the Law  
Governing Dedimus Justices**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas**, the Governor may appoint in every county persons to be designated as dedimus justices, before whom the oath required by the Constitution of Maine to qualify civil officers may be taken and subscribed; and

**Whereas**, the need for the services that dedimus justices perform is outpacing the number of dedimus justices who can be found to perform the duties of that commission; and

**Whereas**, keeping an accurate account of how many people in this State are commissioned as dedimus justices and how to contact them is critical information for communities across this State who need the service that a dedimus justice performs; and

**Whereas**, this legislation must take effect before the end of the 90-day period to immediately address the shortage of dedimus justices available to qualify civil officers in the State; and

**Whereas**, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 5 MRSA §4**, as amended by PL 1975, c. 771, §26, is repealed and the following enacted in its place:

**§4. Dedimus justices**

**1. Appointment; term.** The Governor may appoint in each county persons who are designated as dedimus justices, before whom the oath required by the Constitution of Maine to qualify civil officers may be taken and subscribed. A person appointed under this subsection shall exercise that person's powers and duties and is commissioned to act within and for each county for a term of 7 years. A person already designated as a dedimus justice prior to October 1, 2025 is exempt from the 7-year term.

**2. Change of information of dedimus justice.** Within 30 calendar days of the occurrence of any of the following changes to a dedimus justice's status or information previously submitted, a dedimus justice shall submit written notice to the Governor and the Secretary of State:

- A. A change of the dedimus justice's name by court order or marriage;
- B. A change of the dedimus justice's residence or mailing address; or
- C. A change of the dedimus justice's e-mail address or telephone number.

**3. Resignation.** A dedimus justice may resign the dedimus justice's commission at any time by submitting

written notice to the Governor and the Secretary of State of the intent to resign. The resignation is effective as of the date of the written notice. Upon resignation, a dedimus justice shall return the dedimus justice's certificate of commission to the Secretary of State.

**Sec. 2. Mailing from Secretary of State.** The Secretary of State shall send a mailing to each person designated prior to October 1, 2025 as a dedimus justice pursuant to the Maine Revised Statutes, Title 5, section 4 to request in return the person's updated contact information, including the person's residence or mailing address, e-mail address and telephone number. The mailing must also include information about the changes to Title 5, section 4 provided in this Act and make clear that a dedimus justice designated prior to October 1, 2025 is exempt from the term length requirement. Additionally, the mailing must explain how the changes provide the opportunity for a dedimus justice to resign the dedimus justice's commission.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 12, 2025.

**CHAPTER 274**

**H.P. 164 - L.D. 261**

**An Act Regarding the Authority of Municipalities to Regulate Timber Harvesting**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 12 MRSA §8869, sub-§8,** as amended by PL 2003, c. 335, §3, is further amended to read:

**8. Relationship to municipal rules and regulations.** Nothing in this subchapter may be construed to preempt or otherwise limit the existing authority of municipalities to regulate timber harvesting activities, except that municipalities regulating timber harvesting activities shall adopt definitions for forestry terms used in their ordinances that are consistent with definitions in section 8868 and with forestry terms adopted by the commissioner pursuant to this subchapter. Municipal timber harvesting ordinances adopted before September 1, 1990 must meet this standard of compliance with definitions no later than January 1, ~~2001~~ 2028.

A municipality may not adopt an ordinance that is less stringent than the minimum standards established in this section and in rules adopted by the commissioner to implement this section and section 8867-B. A municipality may not adopt or amend an ordinance that regulates timber harvesting activities unless the process set out in this subsection is followed in the development and review of the ordinance. Municipal ordinances subject to

review by the bureau are limited to ordinances that regulate timber harvesting activities.

A municipal timber harvesting ordinance adopted on or after January 1, 2026 must meet the process requirements of this subsection.

A. A licensed professional forester must participate in the development or amendment of the ordinance.

B. A meeting must take place in the municipality during the development or amendment of the ordinance between representatives of the department and municipal officers and officials involved in developing the ordinance. Discussion at the meeting must include, but is not limited to, the forest practices goals of the municipality. At this meeting and subsequently, the department shall provide guidance to the municipality on how the municipality may use sound forestry practices to achieve the municipality's forest practices goals.

C. The municipality shall hold a public hearing to review a proposed ordinance or ordinance amendment at least 45 days before a vote is held on the ordinance. The municipality shall post and publish public notice of the public hearing according to the same general requirements of posted and published notice for zoning ordinance public hearings as provided by Title 30-A, section 4352, subsection 9.

In addition, when a municipality proposes to adopt or amend a timber harvesting ordinance pursuant to its home rule authority as provided by Title 30-A, section 3001, the municipality shall mail notice of the hearing by first-class mail at least 14 days before the hearing to all landowners in the municipality at the last known address of the person on whom a property tax on each parcel is assessed. In the case of a timber harvesting ordinance or amendment that applies only to certain zones or land use districts in the municipality, the municipality may meet the requirements of this paragraph by mailing notice only to those landowners whose land is in a zone or land use district or immediately abutting the affected zone or land use district.

Mailed notice to individual landowners is not required under this subsection for any type of amendment to an existing local land use ordinance merely to conform that ordinance to the minimum timber harvesting guidelines required by Title 38, section 439-A, as those guidelines may be subsequently amended, or to conform any timber harvesting ordinance to the requirements of this section for conformity of definitions when the proposed amendments do not substantially change any previously established timber harvesting standards adopted pursuant to home rule authority.

The municipal officers shall prepare and file with the municipal clerk a written certificate indicating

those landowners to whom the notice was mailed and at what addresses, when it was mailed, by whom it was mailed and from what location it was mailed. The certificate constitutes prima facie evidence that notice was sent to those landowners named in the certificate.

Any action challenging the validity of the adoption or amendment of a municipal timber harvesting ordinance based on the municipality's alleged failure to comply with the landowner notice requirement must be brought in Superior Court within 90 days after the adoption of the ordinance or amendment. The Superior Court may invalidate an ordinance or amendment only if the landowner demonstrates that the landowner was entitled to receive a notice under this section, that the municipality failed to send the notice as required, that the landowner had no knowledge of the proposed ordinance or amendment and that the landowner was materially harmed by that lack of knowledge.

D. The municipal clerk shall notify the department of the time, place and date of the public hearing and provide the department with a copy of the proposed ordinance that will be reviewed at the hearing at least 30 days before the date of the hearing.

E. At the public hearing, representatives of the department must be provided an opportunity to present and discuss for the municipality's information any reports, articles, treatises or similar materials published by acknowledged experts in the field of sound forestry or silvicultural management to the extent such information is relevant to the proposed ordinance or ordinance amendment.

The proposed ordinance or ordinance amendment may be revised after the public hearing. The ordinance or amendment must be submitted to the legislative body of the municipality in accordance with the procedures the municipality uses for adopting ordinances.

E-1. A municipal timber harvesting ordinance adopted after January 1, 2026 takes effect only after certification by the bureau that the municipality adopted the timber harvesting ordinance in accordance with the process requirements of this subsection.

F. Municipal timber harvesting ordinances may not be unreasonable, arbitrary or capricious and must employ means appropriate to the protection of public health, safety and welfare.

G. All direct costs incurred by a municipality associated with landowner notification requirements and other required public notice must be paid to the municipality in accordance with a distribution schedule established under Title 30-A, section 5685, subsection 5. All direct costs incurred by a

municipality in order to comply with this subsection for the amendment of ordinances adopted before September 1, 1990 must be paid to the municipality in accordance with a distribution schedule established under Title 30-A, section 5685, subsection 5.

**Sec. 2. 12 MRSA §8869, sub-§9**, as repealed and replaced by PL 1999, c. 263, §2 and amended by PL 2011, c. 657, Pt. W, §7 and PL 2013, c. 405, Pt. A, §23, is further amended to read:

**9. Centralized listing of municipal ordinances.**

The bureau shall maintain for informational purposes a statewide centralized listing of municipal ordinances that specifically apply to ~~forest practices~~ timber harvesting activities.

~~A. Within 30 days after the legislative body of the municipality votes on a timber harvesting ordinance developed according to the procedures of subsection 8, the clerk shall notify the bureau of the outcome and shall file a copy of the ordinance with the bureau.~~

C. The clerk of a municipality that has a timber harvesting ordinance on January 1, 2026 shall provide the bureau with notice and a copy of the ordinance by April 30, 2026.

D. The clerk of a municipality that is developing a timber harvesting ordinance on or after January 1, 2026 shall provide the bureau with notice and a copy of the ordinance at least 7 days prior to the meeting of the legislative body of the municipality or the public hearing at which adoption of the ordinance will be considered. The clerk shall notify the bureau within 30 days after adoption of the ordinance.

E. A provision of an ordinance that specifically applies to timber harvesting activities does not take effect unless properly adopted in accordance with subsection 8 and filed with the bureau in accordance with this subsection.

**Sec. 3. 34-B MRSA §5605, sub-§13-A** is enacted to read:

**13-A. Behavioral health support, modification and management for adults.** Behavioral supports for an adult with an intellectual disability or autism who is not a patient in a psychiatric unit of an acute hospital or a psychiatric hospital as defined in section 3801, subsection 7-B are governed as follows.

A. An adult with an intellectual disability or autism may have a positive behavioral health support plan if recommended by the individual's person-centered support team or requested by the adult. If the positive support plan is to address dangerous or maladaptive behavior, it must be preceded by an assessment by a medical practitioner, as defined in section 3801, subsection 4-B, to rule out medical reasons for the behavior.

B. A positive behavioral health support plan designed to support the adult to participate meaningfully in that adult's community life cannot include a waiver of any rights provided in this section and may be implemented upon recommendation of the adult's person-centered planning team.

C. A modifying behavioral health support plan designed to modify or redirect the adult's behavior may include a waiver of rights with informed consent of the adult subject to the plan and must be approved by the department for approval prior to implementation. The plan must be reviewed and approved by a licensed clinical social worker or psychologist who is employed by or under contract with the department.

D. The following practices are prohibited as elements of positive behavioral health support plans and modifying behavioral health support plans for adults:

- (1) Seclusion;
- (2) Corporal punishment;

(3) Actions or language intended to humble, dehumanize or degrade the person;

(4) Planned use of restraints;

(5) Totally enclosed cribs or beds; and

(6) Painful stimuli.

The department shall convene a support and safety committee, at least quarterly, to review data on the number and types of plans implemented for adults under this subsection. The department shall provide to the committee deidentified copies of positive behavioral health support plans for all individuals transitioning from a modifying behavioral health support plan to a positive behavioral health support plan. The committee must include, at a minimum, a self-advocate, a family member of the individual receiving services, a representative of the advocacy agency designated pursuant to Title 5, section 19502, a member of the Maine Developmental Services Oversight and Advisory Board established pursuant to Title 5, section 12004-J, subsection 15 and the licensed clinical social worker or psychologist employed by or under contract with the department under paragraph C.

For the purposes of this subsection, "adult" means a person 18 years of age or older; "modifying behavioral health support plan" means a support plan that outlines strategies to encourage positive behavior and address challenges, incorporating both proactive and corrective interventions; and "positive behavioral health support plan" means a behavioral health support plan that emphasizes using positive reinforcement and proactive strategies to address behaviors that negatively impact the health, safety and well-being of the person.

For the purposes of this subsection, "restraint" does not include blocking or physical redirection. Blocking is a momentary deflection of a person's movement without holding when that movement would be destructive or harmful. Physical redirection is steering a person without holding or coercion.

**Sec. 4. 34-B MRSA §5605, sub-§13-B** is enacted to read:

**13-B. Safety devices for adults.** The use of a safety device for an adult with an intellectual disability or autism is governed as follows.

A. For the purposes of this subsection, "safety device" means an implement, garment, gate, barrier, lock or locking apparatus, video monitoring or video recording device, helmet, mask, glove, strap, belt or protective glove, the effect of which is to reduce or inhibit the adult's movement with the sole purpose of maintaining the safety of the adult. "Safety device" does not include anything used as a means of behavior modification.

B. The use of a safety device must be pursuant to a written recommendation from a licensed physician,

certified nurse practitioner or licensed physician assistant.

C. The use of a safety device must be approved by the adult's personal planning team, and that approval must be recorded in a document that is part of the adult's planning record.

D. The adult or the adult's guardian must consent to the use of the safety device.

E. When a safety device is in use and that safety device may affect other adults residing in the home or participating in the program by restricting their rights, accommodations must be identified and implemented to minimize the effect on the other adults. The personal plan of each adult affected by the use of the safety device must indicate how that adult will be supported to minimize the negative effect of the restriction.

F. When a video monitoring device or video recording device is in use and other adults residing in the home or participating in the program may trigger or appear on the video monitoring device or video recording device, the consent of that adult must be obtained.

**Sec. 5. 34-B MRSA §5605, sub-§14-A**, as amended by PL 2011, c. 657, Pt. EE, §10, is further amended to read:

**14-A. Restraints for children.** A person who has not attained 18 years of age with an intellectual disability or autism is entitled to be free from restraint unless:

A. The restraint is a short-term step to protect the person from imminent injury to that person or others; or

B. The restraint has been approved as a behavior management program in accordance with this section.

A restraint may not be used as punishment, for the convenience of the staff or as a substitute for habilitative services. A restraint may impose only the least possible restriction consistent with its purpose and must be removed as soon as the threat of imminent injury ends. A restraint may not cause physical injury to the person receiving services and must be designed to allow the greatest possible comfort and safety.

Daily records of the use of restraints identified in paragraph A must be kept, which may be accomplished by meeting reportable event requirements.

Daily records of the use of restraints identified in paragraph B must be kept, and a summary of the daily records pertaining to the person must be made available for review by the person's planning team, as defined in section 5461, subsection 8-C, on a schedule determined by the team. The review by the personal planning team may occur no less frequently than quarterly. The summary of the daily records must state the type of restraint

used, the duration of the use and the reasons for the use. A monthly summary of all daily records pertaining to all persons must be relayed to the advocacy agency designated pursuant to Title 5, section 19502.

**Sec. 6. 34-B MRSA §5605, sub-§14-E** is enacted to read:

**14-E. Restraints for adults.** An adult with an intellectual disability or autism is entitled to be free from restraint unless the restraint is an emergency short-term step to protect the adult from imminent injury to that adult or others. Each use of restraint must be documented in accordance with the department's reportable event requirements. For the purposes of this subsection, "restraint" does not include blocking or physical redirection. Blocking is a momentary deflection of a person's movement without holding when that movement would be destructive or harmful. Physical redirection is steering a person without holding or coercion.

**Sec. 7. Children with intellectual disabilities or autism; department study.** The Department of Health and Human Services shall study the law related to behavioral health supports for children with intellectual disabilities or autism and consult with interested parties on potential revisions to the law to reflect current best practices in the field. The committee is authorized to report out legislation related to the study to any session of the 133rd Legislature in 2027.

**Sec. 8. Transition.** Notwithstanding the Maine Revised Statutes, Title 34-B, section 5605, subsection 13-A, paragraph D, behavior modification plans in effect on April 1, 2026 that include restraints may continue to include planned restraints until April 1, 2027 if necessary and approved by the Department of Health and Human Services.

**Whereas**, the outboard motor manufacturer industry has recently been consolidated to primarily 2 companies that share the market; and

**S.P. 734 - L.D. 1864**

**An Act to Facilitate the Reconstruction of Storm-damaged Commercial Fisheries Facilities and Infrastructure**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** on March 20, 2024, President Joseph R. Biden, Jr. declared that a major disaster existed in the State of Maine and ordered federal assistance to supplement state, tribal and local recovery efforts in the areas affected by the severe storms and flooding that occurred

from January 9, 2024 to January 13, 2024, including within the State's coastal municipalities; and

**Whereas,** as a result of the severe storms and flooding, individuals and business owners in the State suffered substantial damage to facilities and infrastructure such as docks, piers, wharves, fish houses and other structures traditionally used in support of commercial fishery operations and other functionally water-dependent uses; and

**Whereas,** under state and certain local laws, to lawfully reconstruct or replace such damaged facilities and infrastructure, a municipal board of appeals must grant a variance from certain local ordinance provisions by finding, among other things, that the land in question cannot yield a reasonable return unless the variance is granted; and

**Whereas,** because Maine courts have repeatedly held that mere access to coastal waters and the recreational benefits afforded by that access provide property owners with a reasonable return on their land, individuals and business owners would be unlikely to demonstrate a lack of a reasonable return on their land and would therefore be unable to benefit from the federal assistance to reconstruct or replace damaged facilities and infrastructure made available by the disaster declaration; and

**Whereas,** absent an extension, the deadline to complete permanent work under the emergency declaration is approaching in September 2025; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. Variance petition; exemption from reasonable return variance standard.** The Maine Revised Statutes, Title 30-A, section 4353, subsection 4, paragraph A does not apply to a petition for a variance from one or more provisions of a municipal shoreland zoning ordinance or a municipal floodplain management ordinance that is filed with the municipality's board of appeals established pursuant to Title 30-A, section 4353 if:

A. The petitioner demonstrates to the board of appeals that the petitioner suffered substantial damage to a dock, pier or wharf, or a structure placed thereon, as a result of the severe storms or flooding that occurred from January 9, 2024 to January 13, 2024;

B. The damaged dock, pier or wharf, or structure placed thereon, identified pursuant to paragraph A is proposed to be reconstructed or replaced in kind and is a functionally water-dependent structure or has a functionally water-dependent use; and

C. The petition is determined complete for processing by the board of appeals no later than December 31, 2027.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective June 12, 2025.

**§2201-A. Notice to licensing boards and obligor; judicial review; Penobscot Nation; Houlton Band of Maliseet Indians**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Board" means any bureau, board or commission listed in Title 10, section 8001 or 8001-A, any other licenser that is affiliated with or is a part of the Department of Professional and Financial Regulation and the Department of Inland Fisheries and Wildlife.

B. "Support obligor" or "obligor" means an individual who owes a duty of support and over whom the Penobscot Nation and the Penobscot Nation Tribal Court have jurisdiction or over whom the Houlton Band of Maliseet Indians and the Maliseet Tribal Court have jurisdiction.

C. "Support order" or "order of support" means a judgment, decree or order, whether temporary, final or subject to modification, issued by the Penobscot Nation Tribal Court or the Maliseet Tribal Court for the support and maintenance of a child or a child and the parent with whom the child is living that provides for monetary support, health care, arrearages or reimbursement and may include related costs and fees, interest and penalties, income withholding, attorney's fees and other relief.

**2. Notice.** The Penobscot Nation or the Houlton Band of Maliseet Indians may serve notice upon a support obligor who is not in compliance with an order of support that informs the obligor of the Penobscot Nation's or the Houlton Band of Maliseet Indians' intention to submit the obligor's name to the appropriate board as a licensee who is not in compliance with an order of support. The notice must inform the obligor that:

A. The obligor may request a court hearing in the Penobscot Nation Tribal Court or the Maliseet Tribal Court to contest the issue of compliance;

B. A request for hearing must be made in writing and must be received by the Penobscot Nation Tribal Court or the Maliseet Tribal Court within 20 days of service;

C. If the obligor requests a hearing within 20 days of service, the Penobscot Nation or the Houlton Band of Maliseet Indians will stay the action to certify the obligor to a board for noncompliance with an order of support pending a hearing;

D. If the obligor does not request a hearing within 20 days of service and is not in compliance with an order of support, the Penobscot Nation or the Houlton Band of Maliseet Indians will certify the obligor to the appropriate board for noncompliance with an order of support;

E. If the Penobscot Nation or the Houlton Band of Maliseet Indians certifies the obligor to a board for noncompliance with an order of support, the board must revoke the obligor's license and refuse to issue or reissue a license until the obligor provides the board with a written confirmation of compliance from the Penobscot Nation or the Houlton Band of Maliseet Indians that states the obligor is in compliance with the obligor's order of support. The notice must state that revocation by a board or a refusal to reissue, renew or otherwise extend the license or certificate of authority is deemed a final determination within the meaning of Title 5, section 10002; and

F. The obligor can comply with an order of support by:

- (1) Paying current support;
- (2) Paying all past-due support or, if unable to pay all past-due support and a periodic payment for past-due support has not been ordered by the court, by making periodic payments in accordance with a written payment agreement with the Penobscot Nation or the Houlton Band of Maliseet Indians; and
- (3) Meeting the obligor's health insurance obligation, if applicable.

The notice must include the address and telephone number of the Penobscot Nation's or the Houlton Band of Maliseet Indians' support enforcement office that issues the notice and a statement of the need to obtain a written confirmation of compliance from that office as provided in subsection 10. The Penobscot Nation or the Houlton Band of Maliseet Indians shall attach a copy of the obligor's order of support to the notice. Service of the notice must be made in the manner provided for service of summons by the Maine Rules of Civil Procedure, Rule 4. For purposes of this subsection, support enforcement action must be deemed to be an action pursuant to Chapter XIII of the Maine Rules of Civil Procedure.

### 3. Written agreement to pay past-due support.

An obligor who is presently unable to pay all past-due support may come into compliance with the support order by executing a written payment agreement with the Penobscot Nation or the Houlton Band of Maliseet Indians and by complying with that agreement. A condition of a written payment agreement must be that the obligor pay the current support when due. Before a written payment agreement is executed, the obligor shall:

A. Disclose fully to the Penobscot Nation or the Houlton Band of Maliseet Indians in writing on a form prescribed by the Penobscot Nation or the Houlton Band of Maliseet Indians the obligor's financial circumstances, including income from all sources, assets, liabilities and work history for the past year; and

B. Provide documentation to the Penobscot Nation or the Houlton Band of Maliseet Indians concerning the obligor's financial circumstances, including copies of the most recent state and federal income tax returns, both personal and business, a copy of a recent pay stub representative of current income and copies of other records that show the obligor's income and the present value of assets held by the obligor.

After full financial disclosure under this subsection, the Penobscot Nation or the Houlton Band of Maliseet Indians shall determine the obligor's ability to pay past-due support and request the obligor to execute a written payment agreement consistent with the obligor's ability to pay, not to exceed the limits on income withholding in section 2356.

### 4. Failure to comply with written agreement.

Failure to comply with a written payment agreement described in subsection 3 is grounds for license revocation unless the obligor notifies the Penobscot Nation or the Houlton Band of Maliseet Indians that the obligor is unable to comply with the agreement and provides the Penobscot Nation or the Houlton Band of Maliseet Indians with evidence of the obligor's current financial circumstances to support the claim. The consequences of failing to comply with a written payment agreement and the requirements to avoid license revocation, if the obligor cannot comply with the agreement, must be stated in the agreement. If the obligor claims inability to comply with a written payment agreement, the Penobscot Nation, upon motion to the Penobscot Nation Tribal Court, or the Houlton Band of Maliseet Indians, upon motion to the Maliseet Tribal Court, may request the tribal court to determine the obligor's ability to pay past-due support. After notice and an opportunity for hearing, the tribal court may make a finding of money due and render judgment in that amount.

**5. Hearing.** An obligor may request a hearing in the Penobscot Nation Tribal Court or the Maliseet

Tribal Court upon service of the notice described in subsection 2. The request for hearing must be made in writing and must be received by the Penobscot Nation Tribal Court or the Maliseet Tribal Court within 20 days of service. The issues that may be determined at hearing are whether the obligor is required to pay support under an order of support and whether the obligor is in compliance with an order of support.

**6. Order.** The Penobscot Nation Tribal Court or the Maliseet Tribal Court shall issue an order after hearing without undue delay as to whether the obligor is in compliance with the obligor's order of support. The order must be based on the hearing record. The Penobscot Nation Tribal Court or the Maliseet Tribal Court shall send an attested copy of the order to the obligor by regular mail to the obligor's most recent address of record.

**7. Stay.** If an obligor timely requests a hearing to contest the issue of compliance, the Penobscot Nation or the Houlton Band of Maliseet Indians may not certify the name of the obligor to a board for noncompliance with an order of support until the Penobscot Nation Tribal Court or the Maliseet Tribal Court issues an order after hearing that finds the obligor is not in compliance with an order of support.

**8. Certification of noncompliance.** The Penobscot Nation or the Houlton Band of Maliseet Indians may certify in writing to the appropriate board that a support obligor is not in compliance with an order of support if:

- A. The obligor does not timely request a hearing upon service of a notice issued under subsection 2 and is not in compliance with an order of support 21 days after service of the notice;
- B. The Penobscot Nation Tribal Court or the Maliseet Tribal Court issues a nonappealable, final judgment that the obligor is not in compliance with an order of support;
- C. The obligor abandons a timely request for a hearing on the Penobscot Nation's or the Houlton Band of Maliseet Indians' notice of noncompliance and is not in compliance with the support order; or
- D. The obligor fails to comply with a written payment agreement described in subsection 3, does not notify the Penobscot Nation or the Houlton Band of Maliseet Indians that the obligor is unable to comply with the agreement and does not provide the Penobscot Nation or the Houlton Band of Maliseet Indians with evidence of the obligor's current financial circumstances.

The Penobscot Nation or the Houlton Band of Maliseet Indians shall send by regular mail a copy of a certification of noncompliance filed with a board to the obligor at the obligor's most recent address of record. The certification of noncompliance is prima facie evidence that the obligor is required to pay support under an order of

support and is not in compliance with that order of support.

**9. Notice from board.** A board shall notify an obligor certified by the Penobscot Nation or the Houlton Band of Maliseet Indians under subsection 8, without undue delay, that the obligor's application for the issuance or renewal of a license may not be granted or that the obligor's license has been revoked because the obligor's name has been certified by the Penobscot Nation or the Houlton Band of Maliseet Indians as a support obligor who is not in compliance with an order of support. The notice constitutes final agency action for the purposes of judicial review under Title 5, chapter 375, subchapter 7. Notwithstanding Title 5, section 11006, the Superior Court may supplement the record, including records of any proceedings before the Penobscot Nation or the Houlton Band of Maliseet Indians that resulted in the certification under subsection 8.

**10. C. Rules adopted under this section may not require an applicant for a license for a working waterfront activity on working waterfront land that is part of a state or federal brownfields program or a voluntary response action program under section 343-E to compensate for lost habitat function with a function of equal or greater value or to provide a compensation fee pursuant to section 480-Z;

**§4099-I. At-risk noncitizen children**

**1. Definitions.** As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.

A. "At-risk" means there is reasonable cause to suspect that a child's health, safety and welfare ~~is in jeopardy~~ has been affected due to abuse, neglect, abandonment or similar circumstances and that return to the child's or the child's parent's country of ~~origin~~ nationality or country of last habitual residence would not be in the best interest of the child.

B. Notwithstanding section 4002, subsection 2, "child" means an unmarried person who has not attained 21 years of age.

C. "Court" ~~includes~~ includes or "juvenile court" means any court in the State with jurisdiction to make judicial determinations about the dependency, custody or care of children or parental rights and responsibilities with regard to children, including, but ~~is not~~

limited to, the Probate Court and District Court, ~~or any other state court with juvenile jurisdiction.~~

"Dependent on the court" means subject to the jurisdiction of a court competent to make decisions concerning the protection, well-being, care and custody of a child for findings, orders or referrals to support the health, safety and welfare of a child or to remedy the effects on a child of abuse, neglect, abandonment or similar circumstances.

Upon reviewing the petition or complaint seeking special findings and relief, any supporting affidavits and other evidence presented, the court shall order relief to redress the effects of the abuse, neglect, abandonment or similar circumstances, including but not limited to relief under subsection 6, and issue findings of fact and rulings of law that must determine whether the child who is the subject of the proceeding:

- A. Is dependent on the court;
- B. Has suffered from abuse, neglect, abandonment or similar circumstances;
- C. May not be viably reunified with one or both parents due to abuse, neglect, abandonment or similar circumstances; and
- D. May not be returned to the child's or the child's parent's country of ~~origin~~ nationality or country of last habitual residence because it is not in the best interest of the child.

~~A court making a decision under this subsection is acting as a juvenile court in that it has jurisdiction over a child.~~

~~The health and safety of the child must be of paramount concern. When considering the child's health and safety, the court shall consider whether present or past living conditions will adversely affect the child's physical, mental or emotional health.~~

All proceedings and records related to this subsection are confidential and closed to the public. Only the parties to the proceeding, including, but not limited to, the petitioner, the noncitizen child and the child's parents, the attorneys of the petitioner and the noncitizen child and the child's parents, the attorneys' authorized agents and the child's designee, may have access to the proceedings or records.

**2-A. Motion for special findings for at-risk noncitizen children.** In addition to or in lieu of filing a petition for relief under subsection 2, an at-risk noncitizen child may request the court for a special finding to be made in actions under Title 18-C, Title 19-A or this Title or any other action before a juvenile court. When it is in the best interest of the child who is the subject of the proceedings, and upon review of a motion or other request, any supporting affidavits and other evidence presented, the court shall issue findings of fact and rulings of law that must determine whether the child who is the subject of the proceeding:

- A. Is dependent on the court;
- B. Has suffered from abuse, neglect, abandonment or similar circumstances;
- C. May not be viably reunified with one or both parents due to abuse, neglect, abandonment or similar circumstances; and
- D. May not be returned to the child's or the child's parent's country of nationality or country of last habitual residence because it is not in the best interest of the child.

**3. Notice.** If the identity or location of the child's parents is unknown or if the parents reside outside of the United States, the court may serve notice using any alternative method of service the court determines is appropriate or waive service when the child is described in 8 United States Code, Section 1101(a)(27)(J)(2019) and 8 United States Code, Section 1357(h)(2019).

**4. Expedient adjudication.** A court shall hear, adjudicate and issue findings of fact and rulings of law on any petition ~~or~~ complaint, motion or other request for special findings under this section as soon as it is administratively feasible and prior to the child reaching 21 years of age to serve the best interest of the child.

~~**5. Availability of special findings.** Special findings are available under subsection 2 for the protection, well-being, care and custody of an at-risk noncitizen child for whom a remedy is not otherwise available or appropriate under Title 18-C, Title 19-A or this Title.~~

**6. Referral for services or protection.** A child who is the subject of a petition for special findings under subsection 2 may be referred for psychiatric, psychological, educational, occupational, medical, dental or social services or for protection against human trafficking or domestic violence. Participation in any referred services is voluntary.

~~**7. Additional available remedies; similar findings of fact and rulings of law.** Nothing in this This section prevents does not prevent a petitioner from filing a complaint court from ordering relief under Title 18-C, Title 19-A or this Title or for any other remedy available under the laws of this State to protect the at-risk noncitizen child from further abuse or other harm; or to provide support. Nothing in this section prevents~~

~~the court from issuing similar findings of fact and rulings of law to those in subsection 2 in any other proceeding concerning a noncitizen child.~~

**8. Construction.** This section must be liberally construed to promote the best interest of the child.

**9. Reunification not viable.** A finding under this section that reunification is not viable does not require termination of parental rights. Visitation or contact with a parent, including by court order, does not preclude the court from finding that reunification with that parent is not viable due to abuse, neglect, abandonment or similar circumstances.

**10. Juvenile court.** A court that issues a decision pursuant to this subchapter is acting as a juvenile court.

**11. Health and safety.** The health and safety of the child must be of paramount concern to a court issuing a decision pursuant to this subchapter. When considering the child's health and safety, the court shall consider whether present or past living conditions will adversely affect the child's physical, mental or emotional health.

**4. Covered services.** A direct primary health care service agreement covers only the services specified in the agreement. Any goods or services that are not covered by the direct primary health care service agreement may be billed separately.

**5. Disclosure.** A direct primary health care service agreement must clearly state within the agreement that direct primary health care services are not considered health insurance and do not meet requirements of any federal law mandating individuals to purchase health insurance and that the fees charged in the agreement may not be reimbursed or apply towards a deductible under a health insurance policy with an insurer.

**6. Other care not prohibited.** A primary health care provider is considered a direct primary health care provider only when the provider is engaged in a direct primary health care service agreement with a patient or group of patients. A primary health care provider is not prohibited from providing care to other patients under a separate agreement or contract with an insurer.

**7. Other agreements not prohibited.** This section does not prohibit a direct primary health care provider from entering into:

- A. An agreement with an insurer offering a policy specifically designed to supplement a direct primary health care service agreement; or
- B. A pilot program for direct primary care or direct health care with a federal or state agency that provides health coverage.

**Sec. 3. 24-A MRSA §4303, sub-§22**, as amended by PL 2019, c. 178, §1, is further amended to read:

**22. Denial of referral by out-of-network provider prohibited.** Beginning January 1, 2018, a carrier may not deny payment for any health care service covered under an enrollee's health plan based solely on the basis that the enrollee's referral was made by a direct primary health care provider who is not a member of the carrier's provider network. A carrier may not apply a deductible, coinsurance or copayment greater than the applicable deductible, coinsurance or copayment that would apply to the same health care service if the service was referred by a participating primary care provider. A carrier may require a direct primary health care provider making a referral who is not a member of the carrier's provider network to provide information demonstrating that the provider is a direct primary health care provider through a written attestation or copy of a direct primary health care service agreement with an enrollee and may request additional information necessary to implement this subsection. As used in this subsection, "direct primary health care provider" has the same meaning as in Title 22, section 1771, subsection 1, paragraph B.

B. The process must reflect best practices for evaluating the likelihood of a prisoner's completion of supervised community confinement if transferred and must provide guidance to department staff as to how to apply the established criteria when conducting the evaluation. The process must require, when information is obtained by the department from persons in the community for the purpose of determining whether to approve a prisoner for transfer to supervised community confinement, that those persons be informed of the prisoner's fulfillment of expectations as to conduct, fulfillment of expectations as to work, education, and rehabilitation programs assigned in the case plan and other rehabilitative efforts and accomplishments. The process must include consideration of any information provided by the Office of Victim Services, as established in section 1214, and, if requested by the office, allow for an extension of time necessary for the office to make additional good faith efforts to contact any victims of the crimes for which the prisoner is incarcerated. The process must also include the right of a prisoner who is eligible for transfer to supervised community confinement as provided in subsection 2 but who has not been approved for transfer to appeal that determination to the commissioner.

**Sec. 4. 34-A MRSA §3036-A, sub-§10,** as amended by PL 2023, c. 659, §2, is further amended to read:

for When a Candidate  
Withdraws from an Election  
Determined by Ranked-choice  
Voting or When a Candidate

an Election Determined by  
Ranked-choice Voting**

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 21-A MRSA §1, sub-§27-C**, as repealed and replaced by PL 2021, c. 273, §1, is amended by enacting at the end a new first blocked paragraph to read:

If one or more of the candidates who have qualified to be listed on the ballot for a particular office in an election determined by ranked-choice voting die, are disqualified or withdraw less than 70 days before the election, the election remains an election determined by ranked-choice voting regardless of the number of remaining candidates.

**Sec. 2. 21-A MRSA §371, sub-§5**, as enacted by PL 2019, c. 636, §6, is amended to read:

**5. Death or disqualification of candidates less than 70 days before primary election in contested races.** The Secretary of State is not required to remove the name of a candidate from the primary election ballot or declare a vacancy if a candidate dies or becomes disqualified less than 70 days before the primary election and another candidate from the same political party will appear on the ballot for that office. Upon receipt of information that the candidate has died or become disqualified, the Secretary of State shall immediately prepare and distribute to the local election officials in the candidate's electoral district a notice informing voters that the candidate has died or become disqualified and that a vote for that candidate will not be counted. The notice must be distributed with all absentee ballots requested after the notice is received by the local election officials and, on election day, must be posted outside the guardrail enclosure in accordance with section 651, subsection 2 and in each voting booth. Notice that the candidate has died or become disqualified must also be posted on the Secretary of State's publicly accessible website. In an election determined by ranked-choice voting, a ranking for a candidate who has died or become disqualified is considered a ranking only for the purpose of determining whether the ballot is exhausted under section 723-A. A candidate who has died or been disqualified cannot be determined the winner. For the purposes of this subsection, "ranking" has the same meaning as in section 723-A, subsection 1, paragraph I.

**Sec. 3. 21-A MRSA §371, sub-§6**, as enacted by PL 2019, c. 636, §6, is amended to read:

**6. Withdrawal of candidates less than 70 days before primary election in contested and uncontested races.** When a candidate for nomination withdraws less than 70 days before the primary election, the candidate's name may not be removed from the primary election ballot and a vacancy may not be declared. Upon receipt of the notice of withdrawal, the Secretary of State shall immediately prepare and distribute to the local election officials in the candidate's electoral district a notice informing voters that the candidate has withdrawn and that a vote for that candidate will not be counted. The notice must be distributed with all absentee ballots requested after the notice is received by the local election officials and, on election day, must be posted outside the guardrail enclosure in accordance with section 651, subsection 2 and in each voting booth. Notice of the late withdrawal must also be posted on the

Secretary of State's publicly accessible website. In an election determined by ranked-choice voting, a ranking for a candidate who has withdrawn is considered a ranking only for the purpose of determining whether the ballot is exhausted under section 723-A. A candidate who has withdrawn cannot be determined the winner. For the purposes of this subsection, "ranking" has the same meaning as in section 723-A, subsection 1, paragraph I.

**Sec. 4. 21-A MRSA §374-A, sub-§3,** as amended by PL 2019, c. 636, §9, is repealed and the following enacted in its place:

**3. Deadline for removal of candidate's name from general election ballot.** Removal of a candidate's name from the general election ballot is determined in accordance with this subsection.

A. The name of a candidate for an office on the general election ballot who withdraws for any reason 70 days or more before the general election must be removed from the ballot.

B. C. If a candidate for an office on the general election ballot withdraws less than 70 days before the general election and does not meet the criteria of subsection 1, paragraph B or C, the candidate's name will not be removed from the ballot, but upon receipt of the notice of withdrawal required by section 367, the Secretary of State shall immediately prepare and distribute to the local election officials in the candidate's electoral district a notice informing voters that the candidate has withdrawn and that a vote for that candidate will not be counted. The notice must be distributed with all absentee ballots requested after the notice is received by the local election officials and, on election day, must be posted outside the guardrail enclosure in accordance with section 651, subsection 2 and in each voting booth. Notice of a candidate's withdrawal less than 70 days before the general election must also be posted on the Secretary of State's publicly accessible website. In an election determined by ranked-choice voting, a ranking for a candidate who has withdrawn is considered a ranking only for the purpose of determining whether the ballot is exhausted under section 723-A. A candidate who has withdrawn cannot be determined the winner. For the purposes of this subsection, "ranking" has the same meaning as in section 723-A, subsection 1, paragraph I.

**Sec. 5. 21-A MRSA §723-A, sub-§1, ¶C,** as amended by PL 2023, c. 628, §1, is further amended to read:

Procedures.** Except as provided in subsections 2-A, 3, 4 and 7, the following procedures are used to determine the winner of an election determined by ranked-choice voting. ~~The~~ If a candidate has been assigned ranking number one on more than 50% of all ballots cast for the particular office for which the candidate is running, including but not limited to ballots on which ranking number one is blank, on which there is an over-vote at ranking number one or on which ranking number one was assigned to an excluded candidate, that candidate is declared the winner of the election. If no candidate has been assigned ranking number one on more than 50% of the ballots cast for that particular office, the ranked-choice voting count must proceed in rounds. In each round, the number of votes for each continuing candidate must be counted. Each continuing ballot counts as one vote for its highest-ranked continuing candidate for that round. Exhausted ballots are not counted for any continuing candidate. The round then ends with one of the following 2 potential outcomes.

A. If there are 2 or fewer continuing candidates, the candidate with the most votes is declared the winner of the election.

B. If there are more than 2 continuing candidates, the last-place candidate is removed from consideration and a new round begins.

**Sec. 8. 21-A MRSA §723-A, sub-§2-A** is enacted to read:

**2-A. Excluded candidates.** In any round of the ranked-choice voting count, a ballot on which an excluded candidate is the highest-ranked candidate must be counted for the next-highest-ranked continuing candidate.

**8. Other facilities and structures.** Any other facility or structure exempted from the prohibition under section 3302 by rule adopted pursuant to section 3307.

**§3304. Provisions for continued use of authorized nonwater-dependent floating structures**

**1. Eligibility.** Notwithstanding any provision of law to the contrary, the owner of a nonwater-dependent floating structure that was in existence as of January 1, 2025 may make application to the Department of Agriculture, Conservation and Forestry, Bureau of Parks and Lands, referred to in this section as "the bureau," through the submerged lands leasing program established pursuant to Title 12, section 1862 for a nonwater-dependent floating structure lease on the internal waters of the State that authorizes the owner to continue to operate the nonwater-dependent floating structure in accordance with the requirements of this section when the following applies:

A. The applicant holds right, title or interest to the shoreline to which the nonwater-dependent floating structure is attached; or

B. If the nonwater-dependent floating structure is not attached to the shore, the applicant has right, title or interest to the adjacent upland shoreline and holds an approved mooring from the United States Army Corps of Engineers or the municipality in which the structure is located.

**2. Application requirements.** To be eligible for consideration for a lease to authorize continued use under this section, an individual or entity must:

A. Submit by January 1, 2026 an application on forms provided by the bureau;

B. Provide proof of right, title or interest to the shoreline to which the nonwater-dependent floating structure will be attached or, if the structure is not attached to the shore, proof of right, title or interest to the adjacent upland shoreline and an approved mooring from the United States Army

Corps of Engineers or the municipality in which the structure is located;

C. Provide the names of abutting property owners;

D. Provide the location, intended use, square footage and photo documentation of the existing nonwater-dependent floating structure; and

E. Submit an application fee of \$500.

3. Bureau procedures. The bureau may take the following actions with respect to an application under this section.

A. The bureau may request additional information from the applicant, government agencies or other parties when necessary to complete its review of an application and make a decision.

B. The bureau shall notify interested parties of receipt of a completed application. As determined by the bureau on a case-by-case basis, interested parties may include, but are not limited to, abutting landowners, landowners with overlapping littoral zones, local municipal officials, harbor masters or others engaged in commercial marine activities or who have notified the bureau of their interest in a particular project. Interested parties must be given 30 days to provide the bureau with comments on a completed application.

C. If the bureau determines that a letter of no objection is required from one or more littoral abutters, the bureau shall send notice to the abutters and the applicant.

D. The bureau or its designee may conduct inspections of the proposed project site in order to assess on-site conditions, the characteristics and uses of adjacent lands, waters and structures and potential impacts on existing trusts.

E. After the initial 30-day review period under paragraph B, if the bureau determines that it is appropriate, additional information may be requested from the applicant or other parties or a public informational meeting may be scheduled in order to allow the general public to provide additional information for consideration.

F. Once all requested information is received and any public meetings under paragraph E have been concluded, the bureau shall issue preliminary findings. Preliminary findings must be sent to the applicant and all parties who provided comments during the initial review period and other interested parties.

G. Within 30 days of the issuance of preliminary findings under paragraph F, any party may petition the bureau director to reconsider such findings by written request. The bureau director may waive the reconsideration period if no comments are received during the initial review period or if the comments

that are received are determined to not be related to public trust rights.

H. The bureau shall review any petitions for reconsideration under paragraph G and related information and issue its final findings and decision. If the decision is to approve the application, 2 original copies of the lease must be sent to the applicant for signature.

4. Bureau determination. In making its determination with respect to an application under this section, the bureau shall consider the following:

A. Whether the applicant has demonstrated that the applicant has sufficient right, title or interest to the upland property, including intertidal land, adjacent to the littoral zone in which the nonwater-dependent floating structure lease is sought. To demonstrate right, title or interest, an applicant must provide:

(1) When the applicant owns the property, a copy of the deed to the property;

(2) When the applicant has a lease on the property, a copy of the lease. The lease must be of sufficient duration and terms, as determined by the bureau, to permit reasonable use of the facility; and

(3) When the applicant has an option to buy or lease the property, a copy of the option agreement. The option agreement must contain terms considered sufficient by the bureau to establish future title or a leasehold of sufficient duration;

B. Whether littoral zones and setback standards delineate the lease area adjacent to the applicant's upland property and establish adequate separation between structures for navigation and access both for the public and riparian owners. Littoral zones do not delineate areas for the exclusive use of the applicant or other riparian owners. Littoral zone boundaries are established by right angle projections from a baseline established along the shoreline at the intersection of the high-water line and the side boundary of each property. The littoral zone sidelines terminate at either the established navigational channel, established anchorage identified as such by the United States Army Corps of Engineers, the midline between opposing shorelines or 1,000 feet, whichever is less. Setback standards are established from other existing structures and an applicant's littoral zone boundary. When littoral zones overlap, structures must be set back 25 feet from an applicant's littoral zone sidelines and must be 50 feet from other existing structures;

C. Whether the proposed use of the lease area would unreasonably interfere with customary or traditional public access ways;

D. Whether the proposed use of the lease area would unreasonably interfere with the public trust rights of fishing, fowling and navigation;

E. Whether there are other commercial marine services or facilities in the proposed lease area;

F. Whether the nonwater-dependent floating structure would unreasonably interfere with ingress and egress of riparian owners;

G. Whether the nonwater-dependent floating structure would result in significant risk to life or property in the vicinity of the use under conditions of weather and vessel traffic;

H. Whether there is evidence in the record that any portion of the proposed lease area has been designated for special protection by an agency authorized to make such designations;

I. Whether the use conflicts with those aspects of the coastal policies or the coastal policy guidelines in section 1801 that relate to the criteria considered by the bureau;

J. Whether the lease terms require the applicant to obtain all necessary federal, state and local approvals; and

K. Whether the applicant has paid the fee required for processing the application.

The bureau may consult with other agencies and organizations as appropriate when considering the terms of a submerged lands nonwater-dependent floating structure lease.

**5. Bureau approval required.** If approved for the issuance of a lease, the owner may continue to operate the nonwater-dependent floating structure in accordance with the requirements of this section and subject to the terms of the lease.

**6. Operational standards.** A nonwater-dependent floating structure that is authorized to continue operating pursuant to a lease issued in accordance with this section must meet all applicable standards in law or rule or the structure's authorization to continue operation may be revoked through a termination of the lease. A nonwater-dependent floating structure must meet the following criteria.

A. The structure must be labeled with the owner's name, telephone number and e-mail address.

B. If the structure is located on coastal waters, it must comply with 33 United States Code, Section 1322.

C. If the structure is located on inland waters, it must comply with section 423, have a waterless

composting or desiccating toilet, have a holding tank for which tank pumping records must be provided upon request or have landside-only facilities, meaning no toilet, shower or sink on board that discharges.

D. The structure is subject to inspection by representatives of the State to ensure compliance with any of the provisions of applicable law or rule.

**7. Limitations.** The following limitations apply.

A. A lease may not be issued under this section for an area greater than 1,500 square feet.

B. Once sited in accordance with a lease issued under this section, a nonwater-dependent floating structure may not be sited in any other location on the internal waters of the State.

C. A lease may be issued under this section for a 10-year term, which is renewable. If the nonwater-dependent floating structure is destroyed or has met the end of its useful life prior to the expiration of the lease, the lease authorization under this section expires.

**8. Lease fees.** The following lease fees apply with respect to leases issued under this section.

A. For a lease for an area that is 500 square feet or less, the annual lease fee is \$250.

B. For a lease for an area that is greater than 500 square feet and less than or equal to 1,000 square feet, the annual lease fee is \$500.

C. For a lease for an area that is greater than 1,000 square feet and less than or equal to 1,500 square feet, the annual lease fee is \$1,000.

**9. Final agency action.** Decisions made by the bureau under this section constitute final agency action for the purposes of judicial review under Title 5, chapter 375.

### **§3305. Penalties; removal; abandonment**

**1. Penalties.** Except as provided in subsection 2, a person who violates section 3302 commits a civil violation for which a fine of not less than \$100 and not more than \$500 may be adjudged for each day of that violation, and the person may be ordered to pay restitution to the primary enforcement authority for costs incurred in investigating the violation and enforcing the provisions of this chapter.

**2. Repeat violations.** A person who violates section 3302 after having been adjudicated as having committed 3 or more civil violations under section 3302 within the previous 5-year period commits a Class E crime. In addition to any penalties that may be imposed by law for each day of that violation, the person may be ordered to pay restitution to the primary enforcement authority for costs incurred in investigating the violation and enforcing the provisions of this chapter.

**3. Removal of structures.** A person who violates section 3302 shall remove the violating nonwater-dependent floating structure from the internal waters that the structure was placed or used in, on or over and is responsible for all costs associated with the removal and the costs of any damage to persons or property caused by the structure's placement or use.

**4. Abandoned structures.** An abandoned nonwater-dependent floating structure may be removed, possessed, sold, destroyed or otherwise disposed of by the State, a municipality or other primary enforcement authority. The authority provided under this subsection does not affect the authority granted under Title 12, section 1866 related to the removal of an abandoned watercraft pursuant to that section.

**§3306. Enforcement**

Any person described in Title 12, section 10403 may enforce the provisions of this chapter.

**Sec. 2. 30-A MRSA §4972-A** is enacted to read:

**§4972-A. Definitions**

As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.

**1. Affordability restriction.** "Affordability restriction" means, for rental housing:

A. A limitation on the rent amount that is based on the income of the person or family renting the unit compared to the area median income or to market rates for rental units in that geographic area; or

B. A limitation on the income of the person or family renting the dwelling unit.

**2. Financial assistance.** "Financial assistance" means funding in the form of grants, loans, rental assistance, subsidies, tax credits or other tax incentives provided by a federal, state or local government entity for which receipt is contingent upon constructing or maintaining dwelling units subject to an affordability restriction.

**3. Holder.** "Holder" means the Maine State Housing Authority or a municipal housing authority that holds the option to purchase a low-income rental housing project.

**4. Low-income rental housing.** "Low-income rental housing" means rental housing with 5 or more dwelling units in which any of the dwelling units are:

A. Subject to affordability restrictions;

B. Subject to rents that are controlled, regulated or assisted by a federal or state agency pursuant to a regulatory agreement, rental assistance agreement, restrictive covenant, mortgage or other documentation; or

C. Subject to requirements as a condition of receiving financial assistance.

**Sec. 3. 30-A MRSA §4973, first ¶,** as amended by PL 2023, c. 218, §4, is further amended to read:

Any person, firm or organization that owns or has a controlling interest in any low-income rental housing may not sell, transfer title, prepay a mortgage or take other action in regard to the property that would result in the termination of any ~~income eligibility restrictions, rent affordability restrictions or financial assistance designed to make a rental unit affordable to low-income or moderate income people~~ without providing notice, as outlined in subsection 1, to the tenants of that property, a tenant organization for that property, if any, the Maine State Housing Authority and, if the property is located in the area of operation of a municipal housing authority, the municipal housing authority, as provided in this section.

**Sec. 4. 30-A MRSA §4973, sub-§1,** as amended by PL 2023, c. 218, §4, is further amended to read:

**1. Notice.** The notice required by section 4973-A must be made to the tenants, a tenants' organization for the property, if any, the Maine State Housing Authority and the municipal housing authority, if any, at least 90 days prior to the owner entering into a contract for the sale or transfer or taking any action in regard to the property described in this section. Failure to provide notice as required by this subsection does not reduce the 90-day period within which the Maine State Housing Authority or the municipal housing authority, if any, may submit, in writing, the intention to pursue the option described in subsection 2.

**Sec. 5. 30-A MRSA §4973, sub-§2,** as amended by PL 2023, c. 218, §4, is further amended to read:

**2. Option.** The Maine State Housing Authority or the municipal housing authority, if any, has the option to purchase the property subject to the notice requirements of this section at its current appraised value, as determined by appraisers for the owner of the property and the holder that has stated the intention to exercise the option to purchase within 90 days of receiving the notice required by subsection 1. The municipal housing authority must have opportunity to exercise the option to purchase. The holder has the option throughout the 90-day period. Failure to exercise the option to purchase within 90 days constitutes a waiver of that option by the holder. By stating in writing its intention to pursue its option during the 90-day period, the holder has an additional 90 days, beginning on the date the appraised value is determined by the appraisers for the owner and the holder, to buy or to produce a buyer for the property. This additional 90-day period may be extended by mutual agreement between the holder and the owner of the property. The 90-day period and any agreed upon extension beginning on the date the appraised value is determined is automatically extended for any additional time required to obtain governmental approvals of any sale or transfer transaction and an additional 60 days after receipt of approval. The holder has the right to assign its option to a nonprofit corporation upon such terms as the holder may determine, including, but not limited to, requiring the assignee to agree to additional income eligibility restrictions and rental restrictions for a duration as determined by the holder.

A. Nothing in this ~~This section prevents is not intended to prevent~~ an owner of the property from deciding not to sell, transfer or take other action described in this section. The withdrawal or revocation, or failure to close on a sale pursuant to the option within the time provided in this subsection, extinguishes any option held by the holder or an assignee.

**Sec. 6. 30-A MRSA §4973, sub-§3,** as amended by PL 2023, c. 218, §4, is further amended to read:

**3. Exceptions.** The holder may not possess any option when a bona fide buyer, by contract with the seller, agrees to maintain the property as low-income housing without any termination or other modification to the ~~income eligibility restrictions or rental affordability~~ restrictions or financial assistance applicable to the property. ~~The notice provisions of this section apply to this subchapter.~~

**Sec. 7. 30-A MRSA §4973-A** is enacted to read:

**§4973-A. Notification of expiration**

**Sec. 11. 30-A MRSA §4364-A, sub-§4**, as enacted by PL 2021, c. 672, §5, is amended by enacting at the end a new first blocked paragraph to read:

Upon receipt of written verification from a local plumbing inspector that a housing structure meets the requirements of this subsection, additional review or documentation by a municipality related to waste and wastewater requirements before issuing a certificate of occupancy is prohibited.

**Sec. 12. 30-A MRSA §4364-A, sub-§5-A** is enacted to read:

**5-A. Planning board approval not required.** A municipality may not require planning board approval for 4 or fewer dwelling units within a structure.

**Sec. 13. 30-A MRSA §4364-B, sub-§1**, as amended by PL 2023, c. 192, §12, is further amended to read:

**1. Use permitted.** Except as provided in Title 12, chapter 423-A, a municipality shall allow an accessory dwelling unit to be located on the same lot as a single-family dwelling unit or multi-unit structure in any area in which residential uses are permitted, including as a conditional use, in accordance with this section.

**Sec. 14. 30-A MRSA §4364-B, sub-§2, ¶B**, as enacted by PL 2021, c. 672, §6, is amended to read:

B. Attached to or sharing a wall with a single-family dwelling unit or multi-unit structure; or

**Sec. 15. 30-A MRSA §4364-B, sub-§3**, as amended by PL 2023, c. 192, §15, is further amended to read:

**3. Zoning requirements.** With respect to accessory dwelling units, municipal zoning ordinances must comply with the following conditions:

A. At least one accessory dwelling unit must be allowed on any lot where a single-family dwelling unit is the principal structure; and

~~B. If more than one accessory dwelling unit has been constructed on a lot as a result of the allowance under this section, the lot is not eligible for any additional increases in density except as allowed by the municipality; and~~

C. An accessory dwelling unit ~~is~~ must be allowed on a lot that does not conform to the municipal zoning ordinance if the accessory dwelling unit does not further increase the nonconformity.

**Sec. 16. 30-A MRSA §4364-B, sub-§4, ¶A**, as enacted by PL 2021, c. 672, §6, is amended to read:

A. A municipality shall exempt ~~an~~ one accessory dwelling unit on a lot from any density requirements or calculations related to the area in which the accessory dwelling unit is constructed.

**Sec. 17. 30-A MRSA §4364-B, sub-§4, ¶E** is enacted to read:

E. A municipality shall allow the construction or occupancy of an accessory dwelling unit on a lot even if the owner of the lot where the accessory dwelling unit is located does not reside in a dwelling unit on that lot.

**Sec. 18. 30-A MRSA §4364-B, sub-§7**, as enacted by PL 2021, c. 672, §6, is amended by enacting at the end a new first blocked paragraph to read:

Upon receipt of written verification from a local plumbing inspector that a housing structure meets the requirements of this subsection, additional review or documentation by a municipality related to waste and wastewater requirements before issuing a certificate of occupancy is prohibited.

**Sec. 19. 30-A MRSA §4364-C, sub-§4** is enacted to read:

**4. Mandatory training.** The municipal reviewing authority and the municipal body hearing zoning appeals, if applicable, shall attend a training on land use planning offered by a state agency or a statewide association representing municipalities or a regional council or municipality within 180 days of appointment or, if a training is not available within the 180-day period, the municipal reviewing authority member and the municipal body hearing zoning appeals must attend the next available training.

**Sec. 20. 30-A MRSA §4401, sub-§4,** as amended by PL 2023, c. 79, §1, is further amended to read:

**4. Subdivision.** "Subdivision" means the division of a tract or parcel of land into 3 or more lots within any 5-year period that begins on or after September 23, 1971. This definition applies whether the division is accomplished by sale, lease, development, buildings or otherwise. The term "subdivision" also includes the division of a new structure or structures on a tract or parcel of land into ~~3~~ 5 or more dwelling units within a 5-year period, the construction or placement of ~~3~~ 5 or more dwelling units on a single tract or parcel of land and the division of an existing structure or structures previously used for commercial or industrial use into ~~3~~ 5 or more dwelling units within a 5-year period.

A. In determining whether a tract or parcel of land is divided into 3 or more lots, the first dividing of the tract or parcel is considered to create the first 2 lots and the next dividing of either of these first 2 lots, by whomever accomplished, is considered to create a 3rd lot, unless:

- (1) Both dividings are accomplished by a subdivider who has retained one of the lots for the subdivider's own use as a single-family residence that has been the subdivider's principal residence for a period of at least 5 years immediately preceding the 2nd division; or
- (2) The division of the tract or parcel is otherwise exempt under this subchapter.

B. The dividing of a tract or parcel of land and the lot or lots so made, which dividing or lots when made are not subject to this subchapter, do not become subject to this subchapter by the subsequent dividing of that tract or parcel of land or any portion of that tract or parcel. The municipal reviewing authority shall consider the existence of the previously created lot or lots in reviewing a proposed subdivision created by a subsequent dividing.

C. A lot of 40 or more acres must be counted as a lot, except:

- (2) When a municipality has, by ordinance, or the municipal reviewing authority has, by regulation, elected not to count lots of 40 or more acres as lots for the purposes of this subchapter when the parcel of land being divided is located entirely outside any shoreland area as defined in Title 38, section 435 or a municipality's shoreland zoning ordinance.

D-1. A division accomplished by devise does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter or avoid other applicable municipal requirements, including, but not limited to, road standards and safety.

D-2. A division accomplished by condemnation does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-3. A division accomplished by order of court does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-4. A division accomplished by gift to a person related to the donor of an interest in property held by the donor for a continuous period of 5 years prior to the division by gift does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter. If the real estate exempt under this paragraph is transferred within 5 years to another person not related to the donor of the exempt real estate as provided in this paragraph, then the previously exempt division creates a lot or lots for the purposes of this subsection. "Person related to the donor" means a spouse, parent, grandparent, brother, sister, child or grandchild related by blood, marriage or adoption. A gift under this paragraph ~~can not~~ cannot be given for consideration that is more than 1/2 the assessed value of the real estate.

D-5. A division accomplished by a gift to a municipality if that municipality accepts the gift does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter.

D-6. A division accomplished by the transfer of any interest in land to the owners of land abutting that land does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter. If the real estate exempt under this paragraph is transferred within 5 years to another person without all of the merged land, then the previously exempt division creates a lot or lots for the purposes of this subsection.

E. The division of a tract or parcel of land into 3 or more lots and upon each of which lots permanent dwelling structures legally existed before September 23, 1971 is not a subdivision.

F. In determining the number of dwelling units in a structure, the provisions of this subsection regarding the determination of the number of lots apply, including exemptions from the definition of a subdivision of land.

H-2. This subchapter may not be construed to prevent a municipality from enacting an ordinance under its home rule authority that otherwise regulates land use activities.

A municipality may not enact an ordinance that expands the definition of "subdivision" except as provided in this subchapter. A municipality that has a definition of "subdivision" that conflicts with the requirements of this subsection at the time this paragraph takes effect shall comply with this subsection no later than ~~January 1, 2021~~ July 1, 2027. ~~Such a municipality must file its conflicting definition at the county registry of deeds by June 30, 2020 for the definition to remain valid for the grace period ending January 1, 2021. A filing required under this paragraph must be collected and indexed in a separate book in the registry of deeds for the county in which the municipality is located.~~

I. The grant of a bona fide security interest in an entire lot that has been exempted from the definition of subdivision under paragraphs D-1 to D-6, or subsequent transfer of that entire lot by the original holder of the security interest or that person's successor in interest, does not create a lot for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter. A mortgage, pledge or other instrument of hypothecation against a dwelling unit or other smaller portion of real property within a parcel that is otherwise defined by this section as a lot does not itself constitute a subdivision for purposes of this section.

J. Unless the intent of a transferor is to avoid the objectives of this subchapter, the division of a tract or parcel of land accomplished by the transfer of any interest in the land to a holder does not create a lot or lots for purposes of this definition if:

- (1) The transferred interest, as expressed by conservation easement, binding agreement, declaration of trust or otherwise, is to be permanently held for one or more of the following conservation purposes:
  - (a) Retaining or protecting the natural, scenic or open space values of the land;
  - (b) Ensuring the availability of the land for agricultural, forest, recreational or open space use;
  - (c) Protecting natural resources; or
  - (d) Maintaining or enhancing air quality or water quality; and
- (2) The transferred interest is not subsequently further divided or transferred except to another holder.

As used in this paragraph, "holder" has the same meaning as in Title 33, section 476, subsection 2.

**Sec. 21. 30-A MRSA §4402, sub-§6,** as amended by PL 2019, c. 174, §2, is further amended to read:

**6. Division of new or existing structures.** Beginning ~~July 1, 2018~~ January 1, 2026, a division of a new or existing structure into 3 or more dwelling units whether the division is accomplished by sale, lease, development or otherwise in a municipality where the project is subject to municipal site plan review.

A. For the purposes of this subsection, "municipal site plan review" means review under a municipal ordinance that sets forth a process for determining whether a development meets certain specified criteria, which must include criteria regarding storm-water management, sewage disposal, water supply and vehicular access and which may include criteria regarding other environmental effects, layout, scale, appearance and safety.

B. The municipal reviewing authority in each municipality shall determine whether a municipal site plan review ordinance adopted by the municipality meets the requirements of paragraph A.

**Sec. 22. Training of current members.** Notwithstanding the Maine Revised Statutes, Title 30-A, section 4364-C, subsection 4, a member of a municipal reviewing authority or municipal body hearing zoning appeals holding office on the effective date of this Act shall attend a training as described in Title 30-A, section 4364-C, subsection 4 within 180 days of the effective date or, if a training is not available within the 180-day period, must attend the next available training.

**Sec. 23. Application.** Notwithstanding any provision of law to the contrary, except for those sections of this Act that enact the Maine Revised Statutes, Title 25, section 2463-B, amend Title 30-A, section 4301, subsection 1-C and enact Title 30-A, section 4364-C, subsection 4, this Act applies to municipalities for which ordinances may be enacted by the municipal officers without further action or approval by the voters of the municipality beginning July 1, 2026 and applies to all other municipalities beginning July 1, 2027.

See title page for effective date.

**3-D. Portfolio requirements; Class III resources.** Portfolio requirements for Class III resources are governed by this subsection.

A. As a condition of licensing pursuant to section 3203, each competitive electricity provider in the State must demonstrate in a manner satisfactory to the commission that the percentage of its portfolio of supply sources for retail electricity sales in the State accounted for by Class III resources is as follows:

- (1) For calendar year 2031, 1%;
- (2) For calendar year 2032, 2%;
- (3) For calendar year 2033, 3%;

the existing term of the supply contract or standard-offer service arrangement.

Class I or IA resources used to satisfy the requirements of this paragraph may not be used to satisfy the requirements of subsection 3 or 3-A.

B. Suspensions of scheduled increases in the portfolio requirements as provided in paragraph A are governed by this paragraph.

(1) If by March 31, 2031 and every 2 years thereafter the commission determines that investment in Class III resources in the preceding 2 calendar years has not been sufficient for competitive electricity providers to meet the portfolio requirements under paragraph A and that the resulting use of clean energy credits pursuant to subsection 8 or the alternative compliance payment mechanism pursuant to subsection 9, or both of these methods, has burdened electricity customers in the State without providing the benefits of new Class III resources, the commission may suspend all or some of the future scheduled increases in the portfolio requirements under paragraph A.

(2) If the commission finds that more than 10% of the obligations required to satisfy the portfolio requirements for Class III resources under paragraph A are met through alternative compliance payments made pursuant to subsection 9 in 3 consecutive calendar years, the commission shall temporarily suspend all or some of the future scheduled increases in the portfolio requirements under paragraph A.

(3) If the commission suspends any scheduled increases in the portfolio requirements under paragraph A pursuant to subparagraph (1) or (2), the commission shall report its rationale for suspension to the joint standing committee of the Legislature having jurisdiction over energy and utilities matters, the Governor's Energy Office and the Office of the Public Advocate and make recommendations for modifications to the schedule of increases. The commission may resume increases, limited to no more than one percentage point per year over the previous year, in the portfolio requirements after a minimum of one year unless otherwise directed by the Legislature.

C. No later than March 31, 2027 and annually thereafter, the commission shall submit a report regarding the status of Class III resources in the State and compliance with the portfolio requirements under paragraph A to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters. The report must include, but is not limited to, a description of Class III resources available to meet the portfolio requirements under

paragraph A, documentation of the loss of any existing clean generation capacity in the State, the status of implementation of the portfolio requirements under paragraph A, including any suspensions pursuant to paragraph B, and recommendations to stimulate investment in Class III resources.

The commission shall adopt rules to implement this subsection. Rules adopted under this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.

**7. Information.** To the extent that funding is available, the commission shall inform electricity consumers in this State of the benefits of electricity generated in this State using renewable and clean resources and of the opportunities available in this State to purchase electricity that is generated using those resources, including, but not limited to, the green power offer and other green power supply products and renewable energy credit and clean energy credit products certified under section ~~3212-A~~ 3212-B. The commission may not promote any renewable or clean resources over others. The commission may apply for, receive and expend grant money from the United States Department of Energy and other government agencies for this purpose. The commission may create or cause to be created a brand or logo to identify Maine renewable and clean resources, including the green power offer and other green power supply products and renewable energy credit and clean energy credit products certified under section ~~3212-A~~ 3212-B, to consumers. The commission shall register any mark or logo created pursuant to this subsection with the United States Patent and Trademark Office or in accordance with Title 10, chapter 301-A, or both. Any brand or logo created pursuant to this subsection may only be used in accordance with the purposes of this subsection as approved by the commission.

**8. Credit trading.** The commission shall allow competitive electricity providers to satisfy the portfolio requirements of subsections 3, 3-A, 3-B and, 3-C and 3-D through the use of renewable energy credits and clean energy credits if the commission determines that a reliable system of electrical attribute trading exists. When renewable energy credits are used to satisfy the portfolio requirements of subsections 3 and 3-A, the value of a renewable energy credit for electricity generated by a community-based renewable energy project, as defined in section 3602, that is participating in the community-based renewable energy pilot program es-

tablished in section 3603 and elects the renewable energy credit multiplier under section 3605 is 150% of the amount of the electricity.

**Sec. 11. 35-A MRSA §3210, sub-§9**, as amended by PL 2023, c. 306, §1 and c. 361, §2, is further amended to read:

**9. Alternative compliance payment.** The commission shall allow competitive electricity providers to satisfy the portfolio requirements for Class I resources under subsection 3-A, Class IA resources under subsection 3-B, thermal renewable energy credits under subsection 3-C ~~and~~, Class II resources under subsection 3 and Class III resources under subsection 3-D through an alternative compliance payment mechanism in accordance with this subsection.

A. The commission shall set the alternative compliance payment rates by rule and shall publish the alternative compliance payment rates by January 31st of each year. In setting the rates, the commission shall take into account prevailing market prices, standard-offer service prices for electricity, alignment with other New England states, reliance on alternative compliance payments to meet the requirements of subsections 3, 3-A, 3-B and, 3-C and 3-D and investment in Class I, Class IA and, Class II and Class III resources and thermal renewable energy credits in the State during the previous calendar year.

(1) The alternative compliance payment rate for the requirements under subsections 3-A, 3-B and, 3-C and 3-D may not be greater than \$50.

(2) The alternative compliance payment rate for the requirement under subsection 3 may not be greater than \$10.

B. The commission shall collect alternative compliance payments to meet the requirements of subsections 3, 3-A and, 3-B and 3-D made by competitive electricity providers and shall use all funds collected under this paragraph to provide financial assistance for low-income households in accordance with section 3214, subsection 2.

C. The commission shall collect alternative compliance payments to meet the requirements of subsection 3-C made by competitive electricity providers and shall deposit all funds collected under this paragraph in the Thermal Energy Investment Fund established under section 10128, subsection 2 to be used to fund incentives and low-interest or no-interest loans to businesses, municipalities, educational institutions and nonprofit entities in the State for the installation of new thermal energy-derived projects.

The commission shall adopt rules to implement this subsection. Rules adopted to establish the alternative

compliance payment rates governed by paragraph A, subparagraphs (1) and (2) routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**11. Report; renewable energy credit portfolio requirements.** By March 31, 2024 and every 3 years thereafter, the Governor's Energy Office shall submit a report to the joint standing committee of the Legislature having jurisdiction over energy matters based on a review, conducted in consultation with the commission, of the status and impacts of the implementation of the portfolio requirements under subsections 3, 3-A, 3-B ~~and~~ 3-C ~~and~~ 3-D. The review must be completed through a public process and must include consideration of impacts of these renewable portfolio requirements on energy prices and assessment of benefits, including, but not limited to, on greenhouse gas emissions and the economy of the State. After reviewing the report required under this subsection, the committee may report out legislation regarding renewable portfolio requirements.

**Sec. 13. 35-A MRSA §3210-C, sub-§1, ¶A**, as amended by PL 2007, c. 293, §1, is further amended to read:

Certification does not lapse in any year in which the Legislature does not appropriate funds to the office for the purposes of reviewing programs for recertification.

C. Upon a request for review under this section, the office may review rate of growth, impact fee and zoning ordinances to determine whether the ordinances are consistent with a comprehensive plan that has been found consistent under this section without requiring submission of all elements of a growth management program. An affirmative finding of consistency by the office is required for a municipality or multimunicipal region to assert jurisdiction as provided in section 3234.

**3. Review of growth management program.** In reviewing a growth management program, the office shall:

A. Solicit written comments on any proposed growth management program from regional councils, state agencies, all municipalities contiguous to

(3) Notwithstanding paragraph D, if a municipality or multimunicipal region requests a certificate of consistency for its growth management program, any unmodified component of that program that has previously been reviewed by the Department of Agriculture, Conservation and Forestry and has received a finding of consistency must retain that finding during program certification review by the office as long as the finding of consistency is current as defined in rules adopted by the office;

D. Provide ample opportunity for the municipality or multimunicipal region submitting a growth management program to respond to and correct any identified deficiencies in the program. A finding of inconsistency for a growth management program may be addressed within 24 months of the date of the finding without addressing any new review standards that are created during that time interval. After 24 months, the program must be resubmitted in its entirety for state review under the office's most current review standards; and

E. Provide an expedited review and certification procedure for those submissions that represent minor amendments to certified growth management programs.

The office's decision on consistency of a growth management program constitutes final agency action.

**4. Review of comprehensive plan.** In reviewing a comprehensive plan, the office shall:

A. Solicit written comments on any proposed comprehensive plan from regional councils, state agencies, all municipalities contiguous to the municipality or multimunicipal region submitting a comprehensive plan and any interested residents of the municipality or multimunicipal region or of contiguous municipalities. If the office notifies the municipality or multimunicipal region that the plan is not complete for purposes of review, the office shall indicate in its notice necessary additional data or information;

D. Within 10 business days of issuing notification that a comprehensive plan is complete for purposes of review, issue findings specifically describing whether the submitted plan is consistent with the procedures, goals and guidelines established in Title 30-A, chapter 187, subchapter 2 and identify which inconsistencies in the plan, if any, may directly affect rate of growth, zoning or impact fee ordinances.

(1) In its findings, the office shall clearly indicate its position on any point on which there are significant conflicts among the written comments submitted to the office.

(3) A finding of inconsistency must identify the goals under Title 30-A, chapter 187, subchapter 2 not adequately addressed, specific sections of the rules relating to comprehensive plan review adopted by the office not adequately addressed and recommendations for resolving the inconsistency;

E. Send all written findings and comments on the comprehensive plan to the municipality or multimunicipal region and any applicable regional council; and

F. Provide ample opportunity for the municipality or multimunicipal region submitting a comprehensive plan to respond to and correct any identified deficiencies in the plan. A finding of inconsistency for a comprehensive plan may be addressed within 24 months of the date of the finding without addressing any new review standards that are created during that time interval. After 24 months, the plan must be resubmitted in its entirety for state review under the office's most current review standards.

If the office finds that a plan is not consistent with the procedures, goals and guidelines established in Title 30-A, chapter 187, subchapter 2, the municipality or multimunicipal region that submitted the plan may appeal that finding to the office within 20 business days of receipt of the finding in accordance with rules adopted by the office, which are routine technical rules pursuant to chapter 375, subchapter 2-A.

The office's decision on consistency of a comprehensive plan constitutes final agency action.

A finding by the office pursuant to paragraph D that a comprehensive plan is consistent with the procedures, goals and guidelines established in Title 30-A, chapter 187, subchapter 2 is valid for 12 years from the date of its issuance. For purposes of Title 30-A, section 4314, subsection 3 and Title 30-A, section 4352, subsection 2, expiration of a finding of consistency pursuant to this subsection does not itself make a comprehensive plan inconsistent with the procedures, goals and guidelines established in Title 30-A, chapter 187, subchapter 2.

**5. Updates and amendments.** A municipality or multimunicipal region may submit proposed amendments to a comprehensive plan or growth management program to the office for review in the same manner as provided for the review of new plans and programs. A. When the tangible personal property or taxable service is received by the purchaser at a business location of the seller, the sale is sourced to that business location.

B. When the tangible personal property or taxable service is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser or the purchaser's donee occurs, including the location indicated by instructions for delivery to the purchaser or donee known to the seller.

C. D. For a sale when paragraphs A to C do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith.

E. **Sec. G-46. 36 MRSA §1819, sub-§6** is enacted to read:

**6. Sourcing for mobile telecommunications services.** The sale of mobile telecommunications services is sourced in this State pursuant to this subsection.

A. Mobile telecommunications services provided to a customer whose place of primary use is located in this State, the charges for which are billed by or for the customer's home service provider, are deemed to be provided at the customer's place of primary use. A home service provider is responsible for obtaining and maintaining a record of a customer's place of primary use. Subject to paragraph B and if the home service provider's reliance on the information provided by its customer is in good faith, the home service provider:

(1) May rely on the applicable residential or business street address supplied by the home service provider's customer; and

(2) May not be held liable for any additional taxes under this Part based on a different determination of the place of primary use.

B. If the assessor determines that the address used by a home service provider as a customer's place of primary use does not meet the definition provided by section 1752, subsection 7-E, the assessor shall notify the customer in writing of that determination and provide the customer an opportunity to demonstrate that that address is the customer's place of primary use. If the customer fails to demonstrate to the assessor's satisfaction within 30 days from the time the customer receives notice from the assessor, or within another time period as the assessor may allow, that the address in question is the customer's place of primary use, the assessor shall provide the home service provider with the proper address to be used as the customer's place of primary use. The home service provider shall begin using the address provided by the assessor as the customer's place of primary use within 30 days from the date the home service provider receives notice of the assessor's determination.

C. A home service provider is entitled to the hold harmless protections provided by Section 1 of the federal Mobile Telecommunications Sourcing Act, Public Law 106-252, 114 Stat. 626 (2000).

D. Notwithstanding any other provision of this Part, otherwise nontaxable charges that are aggregated with and not separately stated from taxable mobile telecommunications charges are subject to taxation unless the home service provider can, to the satisfaction of the assessor, reasonably identify such charges from the home service provider's books and records kept in the regular course of its business. A customer may not rely upon the nontaxability of bundled services unless the customer's home service provider separately states the other-

wise nontaxable services or the home service provider elects, after receiving written notice from the customer in the form required by the provider, to provide verifiable data based upon the home service provider's books and records that are kept in the regular course of its business and that reasonably identify the nontaxable charges.

**7. Submission of data pertaining to ingredient costs or pricing of 340B drugs prohibited.** Require or compel the submission of ingredient costs or pricing data pertaining to 340B drugs from a 340B entity to any health insurance issuer, pharmacy benefits manager or other 3rd-party payor; or

**8. Exclusion from pharmacy network prohibited.** Exclude any 340B entity from the health insurance issuer, pharmacy benefits manager or other 3rd-party payor network on the basis that the 340B entity dispenses 340B drugs or refuse to contract with a 340B entity for reasons other than those that apply equally to entities that are not 340B entities.

This section may not be construed to limit a health insurance issuer's ability to use certain preferred pharmacies or develop networks of preferred pharmacies as long as a health insurance issuer's decision is not based on an entity's status as a 340B entity.

**§7755. MaineCare program not affected**

**Sec. B-3. 8 MRSA §271, sub-§2**, as amended by PL 2019, c. 626, §4 to 6, is further amended to read:

**2. Minimum number of race days; criteria for date awards.** The commission shall determine the number of race days that should be awarded to licensed applicants pursuant to this section based on the criteria set forth herein. The commission may award fewer than the minimum race days set forth in section 275-A, subsection 1 to commercial tracks with the express written approval of the track, and with the express written approval of an association of ~~horsemen~~ horse owners, trainers and drivers as defined in section 272-B, if credible evidence is presented that demonstrates that fewer race days is in the best interest of Maine's harness racing industry. The award of fewer race days than set forth in section 275-A, subsection 1 may not affect the status of those tracks as commercial tracks pursuant to section 299. In assigning race dates to licensees, the commission shall consider the following factors:

A. The revenues to be generated, consistent with the profitability and financial health of the licensee and the development of revenues from interstate simulcasting of the licensee's race programming, for the operating account pursuant to section 287; the purse supplements pursuant to section 286; the

Sire Stakes Fund pursuant to section 281; and the Stipend Fund pursuant to Title 7, section 86;

B. The quality of race programming and facilities offered and to be offered by the licensee, the suitability of the applicant's racing facilities for operation at the season for which the race dates are requested and the ability of the applicant to offer racing at night;

C. The necessity of having and maintaining proper physical facilities for racing meetings, including the ability to maintain ownership of or a leasehold on the facilities; and consequently, to ensure the continuance of the facilities, the quality of the licensee's maintenance of its track and plant, the adequacy of its provisions for rehabilitation and capital improvements and the necessity of fair treatment of the economic interests and investments of those who, in good faith, have provided and maintained racing facilities;

D. The desirability of reasonable consistency in the pattern of race date assignments from year to year;

E. With respect to agricultural societies seeking licenses to conduct harness racing meets at the time of their annual fairs, the scheduling of agricultural fairs determined by the Commissioner of Agriculture, Conservation and Forestry pursuant to Title 7, sections 83 and 84;

F. The preservation of a diversity of harness racing tracks in the State;

G. The quality of the licensee's observance and enforcement of this chapter and the rules adopted pursuant to this chapter during the past year;

H. The extent to which the licensee fully utilized race dates granted to it for the past year;

I. The personnel and resources available to the commission for the enforcement of this chapter and the rules adopted pursuant to this chapter;

J. The likely availability of race-worthy horses throughout the year with a goal of promoting full cards and avoiding 5-horse fields; and

K. Such other criteria consistent with the betterment of harness racing and the public health, safety and welfare as the commission may establish by rule.

If the executive director or the commission determines that any of the criteria listed in this subsection have not been met by the licensee, the executive director shall submit a notice of the deficiency in meeting any criteria to the licensee, regardless of whether the deficiency resulted in the denial of the application for or the refusal to award race dates. The director shall also submit a copy of the notice in the same manner and at the same time to the joint standing committee of the Legislature having jurisdiction over agriculture matters.

**Sec. B-4. 8 MRSA §272-B, first ¶**, as amended by PL 2013, c. 490, §1, is further amended to read:

Notwithstanding any ~~other~~ provision of this chapter ~~to the contrary~~, up to 3% of funds designated to supplement purses may be paid to a statewide association of ~~horsemen~~ horse owners, trainers and drivers in accordance with this section. **Sec. B-5. 8 MRSA §272-C, sub-§1**, as amended by PL 2017, c. 231, §13, is further amended to read:

**1. Establishment; deposits; rules.** A licensee conducting live racing in the State shall establish a trust account for the benefit of the persons who race horses at that licensee's facility. Except as provided by subsection 3, funds distributed to or retained by the licensee pursuant to sections 287, 289, 290, 292 and 298 and Title 7, section 91, less any administrative assessments pursuant to section 267-A, that must be used to pay or supplement harness racing purses must be deposited in that account and used exclusively to pay harness racing purses. The funds in a trust account established in accordance with this subsection are not considered to be property of the licensee, may not be pledged as security for the debts of the licensee and are not subject to attachment or execution by creditors of the licensee. The commission may adopt rules governing the handling of trust accounts, providing for the reallocation of trust account funds to other licensed commercial tracks in the event that a track ceases operation or cancels a significant number of race days, as determined by the commission, and governing the handling of harness racing purses at any commercial track that does not have a contract with a statewide ~~horsemen~~ association of horse owners, trainers and drivers. Rules adopted pursuant to this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.

For investor-owned transmission

and distribution utility rates applicable prior to July 1, 2028, the commission shall establish a rate design for each investor-owned transmission and distribution utility in the State for the recovery of post-restructuring stranded costs that:

**CHAPTER 392**

**S.P. 281 - L.D. 597**

**An Act to Direct the Public Utilities Commission to Conduct Procurements for Energy or Renewable Energy Credits**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** it is critically important that Maine citizens have continued access to low-cost, locally generated power through the timely procurement of long-term contracts administered by the Public Utilities Commission; and

**Whereas,** delays in the procurement process will jeopardize rural jobs in the forest products industry and place at risk applications to connect in a cost-effective manner to the New England grid unless the Public Utilities Commission acts prior to the expiration of the 90-day period; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 35-A MRSA §3149** is enacted to read:

**§3149. Negative pricing**

The commission may not approve a contract for energy resulting from a competitive solicitation conducted by the commission under this Title unless the contract includes a provision that requires the reduction of payments to the bidder by the stranded costs arising from energy produced during negative price intervals. The commission may grant an exception from the inclusion

of such a negative price provision if the bidder demonstrates good cause for the exception and the commission finds that the contract is cost-effective, includes other price protections for ratepayers and will avoid to the maximum extent possible the curtailment of existing renewable resource generators.

**Sec. 2. 35-A MRSA §3210, sub-§12**, as enacted by PL 2023, c. 321, §2, is repealed.

**Sec. 3. 35-A MRSA §3210-J, sub-§2**, as enacted by PL 2023, c. 321, §3, is amended to read:

**2. Competitive procurement.** The commission shall direct investor-owned transmission and distribution utilities to enter into one or more contracts for energy ~~and~~ or renewable energy credits from eligible Class IA resources or combined projects in accordance with this section. Customers who have made an election pursuant to section 3210, subsection 10 are subject to prohibitions on bidding on or obtaining a contract under this section as provided in section 3210, subsection 10 for contracts under section 3210-G.

A. The commission shall ~~initiate~~ conduct competitive solicitations for contracts under this ~~paragraph~~ subsection for energy ~~and~~ or renewable energy credits equal to 5% of the retail electricity sales in this State for the period from January 1, 2021 to December 31, 2021 plus any amount determined pursuant to paragraph B.

B. The commission shall determine the amount of energy or renewable energy credits from Class IA resources selected for contracts pursuant to section 3210-G that have not been fulfilled and shall add this amount to the amount of energy and renewable energy credits to be contracted under paragraph A.

~~C. The commission shall initiate the first competitive solicitation to select eligible Class IA resources or combined projects for contract under this section by January 1, 2024.~~

C-1. The commission shall initiate a competitive solicitation for energy or renewable energy credits described in paragraph A and shall select eligible Class IA resources or combined projects as expeditiously as possible, taking into account a bidder's ongoing interconnection costs and ability to receive federal tax credits.

D. For any amount of energy or renewable energy credits required to be procured under paragraph A that are not procured in the ~~first~~ competitive solicitation required by paragraph C-1, the commission ~~shall~~ may initiate ~~a 2nd~~ an additional competitive solicitation within 12 months of the conclusion of the ~~first~~ solicitation required by paragraph C-1. The commission ~~shall~~ may initiate additional solicitations in the same manner until contracts have been approved to procure eligible Class IA resources or combined projects in accordance with paragraph A.

E. The commission shall require each bidder to demonstrate in the bid proposal the economic and community benefits the proposal will provide, including but not limited to:

- (1) Jobs that will be created;
- (2) Excise, income, property and sales taxes that will be paid; and
- (3) Goods and services that will be purchased.

F. In conducting a solicitation and selecting eligible Class IA resources or combined projects for contracts under this section, the commission shall:

- (1) Consider the expected effect of eligible Class IA resources on other renewable resources, as defined in section 3210, subsection 2, paragraph C, due to congestion and curtailment;
- (2) Select only those eligible Class IA resources or combined projects for contracts that will benefit ratepayers, as determined by the commission in accordance with subsection 2-A; and
- (3) Of those eligible Class IA resources or combined projects that benefit ratepayers, give preference to eligible Class IA resources or combined projects as follows:
  - (a) Primary preference to those eligible Class IA resources or combined projects that are located on contaminated land; and
  - (b) Secondary preference to those eligible Class IA resources or combined projects that minimize use of farmland that is not contaminated land and minimize use of forested land.

G. In conducting a solicitation and selecting combined projects for contracts under this section, the commission shall:

- (1) Require 2 separate bid proposals, one with the energy storage system and one without; and
- (2) Require an energy storage system selected for a contract to remain stationary and under the same ownership throughout the contract term.

H. The commission may establish a process by rule to allow an energy storage system to apply to the commission to be paired with and added to a contract awarded to an eligible Class IA resource after that resource has been awarded a contract.

**Sec. 4. 35-A MRSA §3210-J, sub-§2-A** is enacted to read:

**2-A. Ratepayer benefits.** The commission may not make a determination that a contract will benefit

ratepayers as required by subsection 2, paragraph F, subparagraph (2), unless the commission determines that the contract is more likely than not to produce benefits to ratepayers that exceed the costs to ratepayers associated with the contract.

**Sec. 5. 35-A MRSA §3210-J, sub-§4**, as enacted by PL 2023, c. 321, §3, is repealed.

**Sec. 6. 35-A MRSA §3210-J, sub-§5**, as enacted by PL 2023, c. 321, §3, is amended to read:

**5. Rules.** The commission shall may adopt rules to implement this section. Rules adopted in accordance with this subsection are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A.

**Sec. 7. 35-A MRSA §3210-K** is enacted to read:

**§3210-K. Renewable energy procurement; repowering and continued maintenance of existing resources**

The commission shall direct investor-owned transmission and distribution utilities to enter into one or more contracts for energy or renewable energy credits from eligible Class IA resources in accordance with this section.

**1. Definition.** As used in this section, "eligible Class IA resource" means a Class IA resource as defined in section 3210, subsection 2, paragraph A-3 that began commercial operation on or before June 30, 2019.

**2. Competitive procurement.** The commission shall conduct one competitive solicitation in order to select eligible Class IA resources for contracts under this section. The commission shall initiate the competitive solicitation by December 31, 2025.

A. Through a competitive solicitation under this section, the commission shall procure an amount of energy or renewable energy credits or a combination of energy and renewable energy credits from eligible Class IA resources that is equal to 5% of the retail electricity sales in this State for the period from January 1, 2023 to December 31, 2023, as determined by the commission.

B. In conducting the solicitation and selecting eligible Class IA resources for contracts under this section, the commission shall consider the benefits to ratepayers and to the economy as set forth in section 3210-G, subsection 1, paragraph C, subparagraph (2) and must determine that the contract award is more likely than not to produce benefits to ratepayers that exceed costs to ratepayers in the State.

C. If the commission concludes that the solicitation is not competitive or, following a review of bids received, that approval of a contract or contracts is

not in the public interest, the commission must make a determination not to award a contract.

**3. Contract requirements.** A contract entered into pursuant to this section must:

A. Be for a term of 10 years unless the commission finds a contract for a longer term to be prudent; and

A growth management program must include at least a comprehensive plan, as described in subsections 1 to 4 ~~A 4~~, and an implementation program as described in subsection 5.

**1. Inventory and analysis and needs assessment.** A comprehensive plan must include an inventory and analysis section addressing state goals under this subchapter and issues of regional or local significance that the municipality or multimunicipal region considers important. The inventory must be based on environmental systems mapping and other information provided by the State, regional councils and other relevant local sources. The analysis must include 10-year projections of local and regional ~~growth in~~ population and residential, ~~commercial and industrial trends; the best available projection of trends in economic activity;~~ the projected need for public facilities and services; and the vulnerability of and potential impacts on natural resources. The department shall adopt rules to establish a tiered framework for inventory requirements based on municipal and regional conditions. The rules must allow flexibility in the timing and quantity of data collected so that communities may pursue a strategy of iterative rounds of public participation, data collection

and data generation and require that the comprehensive plan include a map of existing conditions that identifies areas in the municipality where development would be inconsistent with the plan and areas that may be considered suitable for development. The map of existing conditions must, at a minimum, include data related to the environment, the natural resource-based economy, local or regional water supplies and natural hazards. The map is required only if the department provides data and tools that allow municipalities to produce the map at a minor cost or less.

~~The inventory and analysis section~~ A comprehensive plan must include, but is not limited to: a needs assessment that identifies conditions within the municipality or multimunicipal region that are necessary to support housing, economic growth and development; protect public health, safety and welfare of the community; and protect the environment and critical resources. The plan must describe the public input received to determine those needs.

A. Economic and demographic data describing the municipality or multimunicipal region and the region in which it is located;

B. Significant water resources such as lakes, aquifers, estuaries, rivers and coastal areas and, when applicable, their vulnerability to degradation;

C. Significant or critical natural resources, such as wetlands, wildlife and fisheries habitats, significant plant habitats, coastal islands, sand dunes, scenic areas, shorelands, heritage coastal areas as defined under Title 5, section 3316, and unique natural areas;

D. Marine-related resources and facilities such as ports, harbors, commercial moorings, commercial docking facilities and related parking, and shell fishing and worming areas;

E. Commercial forestry and agricultural land;

F. Existing recreation, park and open space areas and significant points of public access to shorelands within a municipality or multimunicipal region;

G. Existing transportation systems, including the capacity of existing and proposed major thoroughfares, secondary routes, pedestrian ways and parking facilities;

H. Residential housing stock, including housing for low income and moderate income households; an assessment of community needs and environmental effects of municipal regulations; an examination of the effect of excessive parking requirements that limit the reuse of upper floors of buildings in downtowns and on main streets and an identification of opportunities for accessory dwelling units;

~~H.1. Housing that meets the needs of older residents, including housing that is rehabilitated, adapted or newly constructed to help older adults age in place;~~

~~I. Historical and archeological resources including, at the discretion of the municipality or multimunicipal region, stone walls, stone impoundments and timber bridges of historical significance;~~

~~J. Land use information describing current and projected development patterns;~~

~~K. An assessment of capital facilities and public services necessary to support growth and development and to protect the environment and health, safety and welfare of the public and the costs of those facilities and services; and~~

~~L. For a municipality or multimunicipal region that has adopted a local climate action plan, a climate vulnerability assessment specific to the municipality or multimunicipal region prepared by the municipality or multimunicipal region.~~

- E. Promote consistency with the State's climate action plan under Title 38, section 577.

**3. Implementation strategy.** A comprehensive plan must include an implementation strategy section that contains a timetable for the implementation program, including land use ordinances, ensuring that the goals established under this subchapter are met. These implementation strategies must be consistent with state law and guidelines for the implementation program as described in subsection 5 and must actively promote policies developed during the planning process. The timetable must identify significant ordinances to be included in the implementation program. The strategies and timetable must guide the subsequent adoption of policies, programs and land use ordinances, including a capital investment plan for the replacement and expansion of public facilities and services required to meet projected growth and development, and periodic review of the comprehensive plan.

The department shall develop and maintain a catalog of implementation strategies appropriate for various place types.

**3 A. Guidelines for policy development and implementation strategies.** ~~In developing its strategies and subsequent policies, programs and land use ordinances, each municipality or multimunicipal region shall employ the following guidelines consistent with the goals of this subchapter:~~

~~A. Except as otherwise provided in this paragraph, identify and designate geographic areas in the municipality or multimunicipal region as growth areas and rural areas, as defined in this chapter.~~

~~(1) Within growth areas, each municipality or multimunicipal region shall:~~

- ~~(a) Establish development standards;~~
- ~~(b) Establish timely permitting procedures;~~

~~(2) Within rural areas, each municipality or multimunicipal region shall adopt land use policies and ordinances to discourage incompatible development. These policies and ordinances may include, without limitation, density limits, cluster or special zoning, acquisition of land or development rights, transfer of development rights pursuant to section 4328 and performance standards. The municipality or multimunicipal region should also identify which rural areas qualify as critical rural areas as defined in this chapter. Critical rural areas must receive priority consideration for proactive strategies designed to enhance rural industries, manage wildlife and fisheries habitat and preserve sensitive natural areas.~~

~~(3) A municipality or multimunicipal region may also designate as a transitional area any portion of land area that does not meet the definition of either a growth area or a rural area. Such an area may be appropriate for medium-density development that does not require expansion of municipal facilities and does not include significant rural resources.~~

~~(4) A municipality or multimunicipal region is not required to identify growth areas within the municipality or multimunicipal region for residential, commercial or industrial growth if it demonstrates, in accordance with rules adopted by the department pursuant to this article, that:~~

~~(a) It is not possible to accommodate future residential, commercial or industrial growth within the municipality or multimunicipal region because of severe physical limitations, including, without limitation, the lack of adequate water supply and sewage disposal services, very shallow soils or limitations imposed by protected natural resources;~~

~~(b) The municipality or multimunicipal region has experienced minimal or no residential, commercial or industrial development over the past decade and this condition is expected to continue over the 10-year planning period;~~

~~(c) The municipality or multimunicipal region has identified as its growth areas one or more growth areas identified in a comprehensive plan adopted or to be adopted by one or more other municipalities or multimunicipal regions in accordance with an interlocal agreement adopted in accordance with chapter 115 with one or more municipalities or multimunicipal regions; or~~

~~E. Ensure the preservation of access to coastal waters necessary for commercial fishing, commercial mooring, docking and related parking facilities. Each coastal area may identify and designate one or more critical waterfront areas and implement~~

~~policies to ensure protection of those areas or otherwise discourage new development that is incompatible with uses related to the marine resources industry;~~

~~F. Ensure the protection of agricultural and forest resources. Each municipality or multimunicipal region shall discourage new development that is incompatible with uses related to the agricultural and forest industries;~~

~~G. Ensure that the municipality's or multimunicipal region's land use policies and ordinances encourage the siting and construction of affordable housing within the community and comply with the requirements of section 4358 pertaining to individual mobile home and mobile home park siting and design requirements. The municipality or multimunicipal region shall seek to achieve a level of at least 10% of new residential development, based on a 5 year historical average of residential development in the municipality or multimunicipal region, that meets the definition of affordable housing. A municipality or multimunicipal region is encouraged to seek creative approaches to assist in the development of affordable housing, including, but not limited to:~~

~~(1) Cluster housing;~~

~~(e) Address disparities in access to educational and occupational opportunities related to housing;~~

~~(6) Provisions for accessory dwelling units and greater density where such density is consistent with other laws governing health and safety;~~

~~(7) Promotion of housing options for older adults that address issues of special concern, including the adaptation, rehabilitation and construction of housing that helps older adults~~

age in place with adequate transportation and accessibility to services necessary for them to do so in a safe and convenient manner; and

I. Encourage the availability of and access to traditional outdoor recreation opportunities, including, without limitation, hunting, boating, fishing and hiking, and encourage the creation of greenbelts, public parks, trails and conservation easements. C. A future land use plan may identify and designate more place types to provide further guidance

on the establishment or modification of a municipality's or multimunicipal region's rate of growth ordinance, zoning ordinance or impact fee ordinance.

D. A future land use plan is not required to identify growth areas within the municipality or multimunicipal region for residential, commercial or industrial growth if the municipality or multimunicipal region demonstrates, in its comprehensive plan and in accordance with rules adopted by the department pursuant to this article, that:

(1) It is not possible to accommodate future residential, commercial or industrial growth within the municipality or multimunicipal region because of severe physical limitations, including, without limitation, the lack of adequate water supply and sewage disposal services, very shallow soils or limitations imposed by protected natural resources;

(2) The municipality or multimunicipal region has experienced minimal or no residential, commercial or industrial development over the past decade and this condition is expected to continue over the 10-year planning period; or

(3) The municipality or multimunicipal region has no downtown or densely developed area.

A municipality or multimunicipal region exercising the discretion afforded by this paragraph shall review the basis for its demonstration during the periodic revisions undertaken pursuant to section 4347-A.

Once notified, the municipal officer or county commissioner may evaluate the risk to travelers based on existing roadway surface and the season of the year and recommend a reasonably achievable repair. ~~In default thereof, those liable may be indicted, convicted and a reasonable fine imposed therefor.~~ If a municipal officer or county commissioner unreasonably neglects to repair the defective town way in a reasonable amount of time after receiving notice, a person who

**An Act to Allow Nonprofit Organizations to Sell Progressive Sealed Ticket Games and to Offer Partner-assisted Beano**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** current interpretation of sealed ticket games does not include games designed by the manufacturer to include a jackpot prize that is carried over to a subsequent series of tickets or cards with the same form number in the event that jackpot prize is not won, also known as progressive pull-tab games, despite historical practice allowing such games; and

**Whereas,** many eligible nonprofit organizations have already registered with the Department of Public Safety's Gambling Control Unit to offer such games and not being able to offer progressive pull-tab games will result in a negative financial impact; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 17 MRSA §311, sub-§10** is enacted to read:

The element of chance must be provided by the ticket itself, not by the dispenser. The Gambling Control Unit may adopt rules to facilitate the use of dispensers. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

A shuffle of a deck of cards, a roll of a die, a random drawing or generation of an object or some other event the result of which is determined by chance that is employed to determine impartially the initial order of play in a game, contest, scheme or device does not alone make a game, contest, scheme or device a game of chance. For the purposes of this chapter, "game of chance" includes a sealed ticket game. For purposes of this chapter, beano, bingo and table games as defined in Title 8, section 1001, subsection 43-A are not games of chance.

"Sealed ticket game" includes a sealed ticket game that is designed by the manufacturer to include a jackpot prize that is carried over to a subsequent series of tickets or cards with the same form number in the event that jackpot prize is not won. allowed is 300. Winners are determined by a process of elimination. The use of currency is prohibited as part of tournament game play. The maximum entry fee to play in the tournament game is \$100, except the organization may add to the player entry fee to defray the cost of the license fee, as long as the total additional amount collected from all players does not exceed \$125. Only one entry fee is permitted per person. A tournament game must be completed within 48 hours. Other games of chance on the premises are prohibited during a tournament game, except for high-hand competitions under subsection 7, ~~lucky seven or similar sealed tickets ticket games~~ and no more than one 50/50 raffle per tournament with a prize value up to \$2,000. All prizes awarded in accordance with this subsection must be paid in cash or by check.

**Sec. 13. 17 MRSA §1838, sub-§1, ¶A**, as enacted by PL 2009, c. 487, Pt. A, §2, is amended to read:

**Sec. 4. 17-A MRSA §107, sub-§5-A**, as amended by PL 2003, c. 143, §3, is repealed.

**Sec. 5. 17-A MRSA §107-A** is enacted to read:  
**§107-A. Physical force in corrections**

**1.** A corrections officer, corrections supervisor, transport officer, law enforcement officer or another individual responsible for the custody, care, treatment or

transport of persons in custody pursuant to an order of a court or as a result of arrest is justified in using a reasonable degree of nondeadly force:

A. When and to the extent the individual reasonably believes it necessary to prevent an escape from custody or to enforce a rule of the Department of Corrections or a jail; or

B. In self-defense or to defend a 3rd person from what the individual reasonably believes to be the imminent use of unlawful nondeadly force encountered while seeking to prevent an escape or enforce a rule as described in paragraph A.

**2.** A corrections officer, corrections supervisor, transport officer or law enforcement officer responsible for the custody, care, treatment or transport of persons in custody pursuant to an order of a court or as a result of arrest is justified in using deadly force when the officer or supervisor reasonably believes such force is necessary:

A. For self-defense or to defend a 3rd person from what the officer or supervisor reasonably believes is the imminent use of unlawful deadly force; or

B. To prevent an escape from custody when the officer or supervisor reasonably believes the person has committed a crime involving the use or threatened use of deadly force, is using a dangerous weapon in attempting to escape or otherwise indicates that the person is likely to seriously endanger human life or to inflict serious bodily injury unless apprehended without delay and:

(1) The officer or supervisor has made reasonable efforts to advise the person that the officer or supervisor is attempting to prevent the escape from custody and the officer or supervisor reasonably believes that the person is aware of this advice; or

(2) The officer or supervisor reasonably believes that the person in custody otherwise knows the officer or supervisor is attempting to prevent the escape from custody.

For the purposes of this subsection, "a reasonable belief that another person has committed a crime involving use or threatened use of deadly force" is a reasonable belief in facts, circumstances and the law that, if true, would constitute such an offense by the person. If the facts and circumstances reasonably believed would not constitute such an offense, an erroneous but reasonable belief that the law is otherwise justifies the use of deadly force to prevent an escape.

**3.** A corrections officer, corrections supervisor, transport officer or law enforcement officer is justified in using deadly force against a person in the custody of the Maine State Prison or in the custody of an officer or supervisor of the Maine State Prison when the officer or

supervisor reasonably believes that deadly force is necessary to prevent an escape from custody by that person. The officer or supervisor shall make reasonable efforts to advise the person that, if the attempt to escape does not stop immediately, deadly force will be used. This subsection does not authorize any corrections officer, corrections supervisor, transport officer or law enforcement officer who is not employed by a state agency to use deadly force.

4. A private person who has been directed by a corrections officer, corrections supervisor, transport officer or law enforcement officer who is responsible for the custody, care, treatment or transport of persons in custody pursuant to an order of a court or as a result of arrest to assist the officer or supervisor in preventing an escape from custody is justified in using:

A. A reasonable degree of nondeadly force when and to the extent that the private person reasonably believes such force to be necessary to carry out the officer's or supervisor's direction, unless the private person reasonably believes the order is illegal; or

B. Deadly force only when the private person reasonably believes such force to be necessary for self-defense or to defend a 3rd person from what the private person reasonably believes to be the imminent use of unlawful deadly force or when the officer or supervisor directs the private person to use deadly force and the private person reasonably believes the officer or supervisor is authorized to use deadly force under the circumstances.

5. Notwithstanding any provision of this section to the contrary, a corrections officer or corrections supervisor is not justified in using nondeadly or deadly force, or in directing a private person in the use of such force, in accordance with this section unless the corrections officer or corrections supervisor has received in-service training pursuant to Title 25, section 2804-F, subsection 5 in the use of such force, or in directing a private person to use such force, in the setting in which the force is to be used.

**Sec. 6. 17-A MRSA §110**, as enacted by PL 1997, c. 289, §1, is amended to read:

**§110. Threat to use deadly force against a law enforcement officer, transport officer, corrections officer or corrections supervisor**

A person otherwise justified in threatening to use deadly force against another is not justified in doing so with the use of a firearm or other dangerous weapon if the person knows or should know that the other person is a law enforcement officer, transport officer, corrections officer or corrections supervisor, unless the person knows that the ~~law enforcement~~ officer or supervisor is not in fact engaged in the performance of the ~~law enforcement~~ officer's or supervisor's public duty, or unless the person is justified under this chapter in using deadly force against the ~~law enforcement~~ officer or supervisor.

A law enforcement officer, transport officer, corrections officer or corrections supervisor may not make a nonconsensual warrantless entry into a dwelling place solely in response to a threat not justified under this section.

**Sec. 7. 17-A MRSA §1002-A, sub-§1, ¶B**, as amended by PL 2001, c. 383, §112 and affected by §156, is further amended to read:

B. That other person is a law enforcement officer, transport officer, corrections officer or corrections supervisor in uniform. Violation of this paragraph is a Class D crime; or

**Sec. 8. 17-A MRSA §1004, sub-§4, ¶A**, as enacted by PL 2005, c. 264, §1, is amended to read:

A. A law enforcement officer, transport officer, corrections officer or corrections supervisor engaged in the performance of the law enforcement officer's, transport officer's, corrections officer's or corrections supervisor's public duty if the officer's or corrections supervisor's appointing authority has authorized such use of an electronic weapon; or

**Sec. 9. 25 MRSA §2804-F, sub-§3**, as amended by PL 2013, c. 147, §35, is further amended to read:

**3. Provisions of in-service training.** In-service training programs that meet the requirements established under subsection 2 or 5 or other in-service training may be provided by the Maine Criminal Justice Academy or the agency employing the corrections officer.

**Sec. 10. 25 MRSA §2804-F, sub-§5** is enacted to read:

**5. Additional certifications.** The board shall establish additional in-service training requirements for corrections officers and corrections supervisors who are responsible as part of their official job duties for transferring or conveying from one place to another individuals who are confined in a jail, prison or state correctional facility pursuant to an order of a court or as a result of an arrest. These in-service training requirements must include training on the use of nondeadly or deadly force, or in directing a private person in the use of such force, that is used or directed outside of a jail, prison or state correctional facility. A corrections officer or corrections supervisor who fails to complete this in-service training is not justified in using or directing the use of force under Title 17-A, section 107-A, subsections 1, 2 and 4.

**5. Tariff rate; bill credits.** The commission shall establish by rule tariff rates for customers participating in the program. ~~The initial tariff rate must be established no later than December 1, 2019.~~

A. The tariff rate for a customer participating in net energy billing with a distributed generation resource described in this paragraph, until December 31, 2025, must equal the standard-offer service rate established under section 3212 that is applicable to the customer receiving the credit plus 75% of the effective transmission and distribution rate for the rate class that includes the smallest commercial customers of the investor-owned transmission and

distribution utility. The tariff rate under this paragraph applies to net energy billing with a distributed generation resource:

(1) With a nameplate capacity of greater than one megawatt if:

(a) The entity developing the distributed generation resource certifies by affidavit with accompanying documentation to the commission that the entity, before September 1, 2022, commenced on-site physical work of a significant nature on the distributed generation resource and the entity has made and will continue to make continuous on-site construction efforts to advance toward completion of the distributed generation resource. For the purpose of this paragraph, continuous on-site construction efforts include, but are not limited to, in the context of a solar facility, the continuous installation of racks or other structures to affix photovoltaic panels, collectors or solar cells to a site. The commission may share information contained in the affidavit submitted in accordance with this paragraph with a transmission and distribution utility, as necessary, to verify a distributed generation resource's compliance with this section. In administering this subsection, the commission may adopt rules including, but not limited to, requiring the entity that submits a sworn affidavit under this subparagraph to provide updated documentation to the commission after submission of the affidavit; or

(b) The distributed generation resource is collocated with a net energy billing customer that is or net energy billing customers that are subscribed to at least 50% of the facility's output; or

(2) With a nameplate capacity of one megawatt or less.

After December 31, 2025, the tariff rate must be calculated in accordance with paragraph A-2.

A-1. The tariff rate for a customer participating in net energy billing under this section with a distributed generation resource not governed by paragraph A must:

(1) In 2022, equal the standard-offer service rate established pursuant to section 3212 that was applicable to the rate class of the customer receiving the credit on December 31, 2020 plus 75% of the effective transmission and distribution rate that was in effect on December 31, 2020 for the rate class that includes the smallest commercial customers of the

investor-owned transmission and distribution utility; and

(2) Increase by 2.25% on January 1st of each subsequent year, beginning January 1, 2023.

A-2. Beginning January 1, 2026, the commission shall establish the tariff rate for a customer participating in net energy billing under this section with a distributed generation resource described in paragraph A in accordance with this paragraph.

(1) For a distributed generation resource with a nameplate capacity of 3 megawatts or more and less than 5 megawatts, the tariff rate must:

(a) Equal the tariff rate calculated under paragraph A-1 applicable in 2026; and

(b) Increase by 2.25% on January 1st of each year, beginning January 1, 2027.

(2) For a distributed generation resource with a nameplate capacity of less than 3 megawatts, the tariff rate must:

(a) Equal the tariff rate established by the commission pursuant to paragraph A that was applicable in 2025 to the rate class of the customer receiving the credit; and

(b) Increase by 2.25% on January 1st of each year, beginning January 1, 2027.

B. A customer participating in the program must receive for electricity delivered to the electric grid from a distributed generation resource in which the customer has a financial interest a bill credit based on the tariff rate to apply against the costs of electricity delivered to the customer by the investor-owned transmission and distribution utility.

C. A bill credit under the program as described in paragraph B may be applied to any portion of a customer's electricity bill. Credits that remain unused at the end of any billing period may be carried forward for up to one year from the end of that billing period.

D. A customer participating in the program who remains eligible to participate in the program must be allowed to receive a bill credit based on the tariff rate for a period of no less than 20 years from the date of first receiving the credit.

The commission shall publish the tariff rates established in accordance with this subsection on its publicly accessible website.

**Sec. 5. 35-A MRSA §3209-B, sub-§7,** as amended by PL 2023, c. 411, §3, is further amended to read:

A. "Distributed generation resource" ~~has the same meaning as in section 3209-D, subsection 1, paragraph A.~~ means an electric generating facility that uses a renewable fuel or technology under section 3210, subsection 2, paragraph B-3, is located in the service territory of a transmission and distribution utility in the State and:

(1) Has met or is reasonably likely to meet the requirements of section 3209-A, subsection 7, paragraph E, as determined by the commission; or

(2) Has a nameplate capacity of at least one megawatt and not more than 2 megawatts and:

(a) Is a member of a cluster study conducted by the transmission and distribution utility with which the distributed generation resource is seeking to interconnect; or

(b) Is likely to receive required transmission approval from the New England independent system operator on or before April 30, 2024.

**Sec. 9. 35-A MRSA §3209-F** is enacted to read:  
**§3209-F. Net energy billing project charge for certain distributed generation projects**

**1. Net energy billing project charge defined.** As used in this section, "net energy billing project charge" means a monthly fee determined by the commission by rule in accordance with this section that a transmission and distribution utility must use to offset distribution costs associated with net energy billing arrangements under sections 3209-A and 3209-B that would otherwise be paid by ratepayers, as determined by the commission.

**2. Net energy billing project charge; applicability.** Except as provided in subsection 5, the commission

shall require a transmission and distribution utility to assess each distributed generation resource participating in net energy billing with a shared financial interest customer in accordance with section 3209-A, subsection 3. The commission shall adopt rules to determine the net energy billing project charges applicable to distributed generation resources described in subsection 3 and establish a process by which a transmission and distribution utility must apply net energy billing project charges against costs associated with net energy billing.

**3. Initial net energy billing project charge.** Beginning January 1, 2026, the initial monthly net energy billing project charge established by the commission must be:

A. For a distributed generation resource with a nameplate capacity of 3 megawatts or more and less than 5 megawatts, \$6.00 multiplied by the nameplate capacity of the distributed generation resource in kilowatts;

C. For a distributed generation resource with a nameplate capacity of less than one megawatt, zero.

**4. Adjustment of net energy billing project charge; compensation.** The commission shall periodically by rule increase the initial net energy billing project charge to account for increases in transmission and distribution rates. Compensation to a distributed generation resource related to transmission and distribution rate credits may not increase by more than 2.25% per year.

**5. Exceptions.** A distributed generation resource is exempt from the net energy billing project charge established in this section if the distributed generation resource demonstrates in a manner satisfactory to the commission that the distributed generation resource is:

A. Wholly owned by the customer or customers receiving the net energy billing credits associated with the output of the distributed generation resource; or

B. Wholly owned by a cooperative corporation organized under Title 13, chapter 85.

**6. Rules.** The commission shall adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**§3209-G. Net energy billing cost rate year adjustment**

**1. Adjustment of net energy billing cost rate year.** The commission shall require a transmission and distribution utility to reconcile costs associated with net energy billing under sections 3209-A and 3209-B, as determined by the commission, in a rate year to begin on January 1st of each year, starting in 2026.

**2. Rules.** The commission may adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 11. 35-A MRSA §3209-H** is enacted to read:

**§3209-H. Net energy billing project procurement**

**1. Definitions.** As used in this section, the following terms have the following meanings.

A. "Distributed generation resource" has the same meaning as in section 3209-A, subsection 1, paragraph B.

B. "Eligible resource" means a distributed generation resource:

(1) That reaches commercial operation before November 1, 2025;

(2) That is participating in net energy billing pursuant to section 3209-A or 3209-B; and

(3) For which 75% or less of the bill credits associated with the distributed generation resource are allocated to a customer of or subscriber to the resource.

**2. Competitive procurement.** The commission shall direct investor-owned transmission and distribution utilities to enter into one or more contracts for energy or renewable energy credits or both from eligible resources in accordance with this section. The commission may not require a distributed generation resource to contract for the sale of energy or renewable energy credits under this section.

A. By November 1, 2025, the commission shall initiate a competitive solicitation for contracts under this section for energy or renewable energy credits or both in an amount determined by the commission.

B. The commission may initiate additional competitive solicitations in its sole discretion after consultation with the Governor's Energy Office.

C. The commission may not award a contract to an eligible resource participating in net energy billing pursuant to section 3209-A at a rate that exceeds the tariff rate calculated under section 3209-B, subsection 5, paragraph A-1 applicable on November 1, 2025 to medium commercial customers as defined in section 3106, subsection 1, paragraph B or

**3. Contract terms.** A contract entered into pursuant to this section must be for a term of no more than 20 years or the remainder of the eligible resource's net energy billing agreement with a transmission and distribution utility, whichever is shorter, unless the commission finds a contract for a longer term to be prudent.

**4. Rules.** The commission may adopt rules to implement this section. Rules adopted in accordance with this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 12. 35-A MRSA §3209-I** is enacted to read:

**§3209-I. Front of meter distributed energy resource program**

**1. Front of meter distributed energy resource defined.** As used in this section, "front of the meter distributed energy resource" means an electric generating facility that uses a renewable fuel or technology under section 3210, subsection 2, paragraph B-3, is located in the service territory of a transmission and distribution utility in the State and is interconnected to the distribution grid on the utility side of a customer's utility meter.

**2. Program design; implementation.** The Governor's Energy Office shall design a program or programs to encourage the development of front of the meter distributed energy resources in the State and submit the proposed program or programs to the commission. If the commission finds that a program or programs proposed by the office provide benefits to ratepayers in the State in excess of the costs to ratepayers, the commission shall by rule implement the program or programs.

**3. Rules.** The commission may adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

port regarding the status of contracts for Class IA resources under this section and the status of contracts for energy or renewable energy credits from distributed generation resources under section ~~3209-D~~ 3209-H to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters. The report must include, but is not limited to, a description of Class IA resources participating in competitive solicitations, information about the resources selected for contracts and the selection process, the benefits and costs of the contracts and recommendations about how to further stimulate investment in Class IA resources or achieve ratepayer benefits from Class IA resources. The report may include information about benefits and costs of the contracts to the State's economy, environmental quality or electricity consumers over both the short and long terms. Any analysis of the benefits or costs of the contracts must be based on a forecast of all avoided costs resulting from the contracts that is transparent and balanced over the long term.

**Sec. 14. Distributed energy resource program; development.** By September 30, 2026 and in accordance with the Maine Revised Statutes, Title 35-A, section 3209-I, subsection 2, the Governor's Energy Office, referred to in this section as "the office," shall design and submit to the Public Utilities Commission, referred to in this section as "the commission," a proposed front of the meter distributed energy resource program or programs to succeed the net energy billing programs established in Title 35-A, sections 3209-A and 3209-B for front of the meter distributed energy resources. For the purposes of this section, "front of the meter distributed energy resource" has the same meaning as in Title 35-A, section 3209-I, subsection 1.

In designing the program or programs, the office shall consider:

1. The marginal benefit to ratepayers in the State of the time value of generation and the location of generation;
2. Reasonable compensation rates specific to a distributed energy resource's size and generation type;
3. The development and use of a compensation model based on the value of distributed energy resources;
4. Opportunities for a load reducer program for commercial customers;
5. Incentivizing energy storage that provides benefits to ratepayers in the State; and
6. Necessary changes to utility rate structure, billing systems, data collection or metering to implement the program.

The office may consider other factors the office determines appropriate and shall solicit public input prior to the submission of a program design to the commission.

To support the office's development of the program, the office may request funds from the commission for the office's administrative costs, which may include, but are not limited to, costs associated with hiring consultants and office personnel and contracting for technical analysis in the design of the program or programs. Notwithstanding Title 35-A, section 117, if the office requests funding in accordance with this section, the commission may provide funding, to the extent available, from the Public Utilities Commission Reimbursement Fund under Title 35-A, section 117. If the Public Utilities Commission Reimbursement Fund does not have sufficient funding, notwithstanding Title 35-A, section 116, subsection 4, the commission may provide funding in accordance with this section from the Public Utilities Commission Regulatory Fund.

In accordance with Title 35-A, section 3209-I, the commission shall approve or reject the proposed program or programs submitted by the office pursuant to this section as expeditiously as possible, but no later than 120 calendar days after the commission receives the design from the office unless otherwise requested by the office. If the commission finds that the program provides benefits to ratepayers in the State in excess of the costs to ratepayers, the commission shall implement the program by rule.

**Sec. 15. Net energy billing; consumer protections.** In accordance with the Maine Revised Statutes, Title 35-A, section 3209-A, subsection 5, paragraph E, by November 1, 2025, the Public Utilities Commission shall initiate rulemaking to establish consumer protection standards for customers participating in net energy billing pursuant to Title 35-A, section 3209-A. The rules must:

1. Require that a distributed generation resource providing service to a customer participating in a net energy billing arrangement based upon a shared financial interest in the distributed generation resource establish a subscription size for a customer that is based on historical customer usage, while taking into account anticipated increases in usage, and require a project sponsor to adjust the customer's subscription size as needed to match changes in usage;
2. Prohibit project sponsors or operators of distributed generation resources from retaining customer payment for unused kilowatt-hour credits that have expired;
3. For a customer participating in net energy billing, require a transmission and distribution utility to provide the relevant project sponsor or owner of a distributed generation resource with the customer's usage and billing information, including net energy billing data needed to administer a customer's net energy billing arrangement; and
4. Prohibit participation in more than one net energy billing agreement pursuant to Title 35-A, section

3209-A, subsection 3 per residential account simultaneously.

Notwithstanding any provision of Title 35-A, section 3209-A to the contrary, rules adopted by the commission pursuant to this section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

See title page for effective date.

In the event that any piece of machinery or equipment is only partially depreciable under the ~~United States Internal Revenue~~ Code, any reimbursement of the sales tax must be prorated accordingly. In the event that electricity or fuel is used in qualifying and nonqualifying activities, any reimbursement of the sales tax must be prorated accordingly.

Application for refunds must be filed with the assessor within 36 months of the date of purchase or execution of the lease.

**Sec. 34. 36 MRSA §2857**, as enacted by PL 1981, c. 711, §10, is amended to read:

**§2857. Returns**

**1. Annual return.** A mining company shall file, on or before the date the mining company's state income tax return is due to be filed, an annual return on a form specified by the ~~State Tax Assessor~~ assessor for each tax year.

**2. Form and contents.** The return ~~shall~~ must indicate:

- A. The tax due;
- B. The estimated tax payments made; and
- ~~C. Credits provided under section 2858; and~~
- D. Information relating to ~~the value of facilities and equipment, gross proceeds, net proceeds~~ or other relevant information as the ~~State Tax Assessor~~ assessor may ~~by rule~~ require.

**3. Payments.** A mining company shall pay the tax due, less estimated tax payments ~~and credits~~, at the time its annual return is due without extensions.

**4. Extensions.** The ~~State Tax Assessor~~ assessor may grant a reasonable extension of time for filing a return, declaration, statement or other document or payment of tax or estimated tax required by this chapter on such terms and conditions as ~~he~~ the assessor may require. The An extension for filing a return, declaration, statement or other document under this chapter may not exceed 8 months, except that, when a mining company is granted an extension of time within which to file a federal income tax return for the tax year, an extension to file the mining company's return with respect to the tax imposed by this chapter is automatically granted for an equivalent period from the date prescribed for filing the return under this chapter plus 30 days. If an extension of time is granted for payment of an amount of tax under this chapter, the assessor may require the taxpayer to furnish a bond or other security in an amount not exceeding twice the amount for which the extension of time for payment is granted, on terms and conditions as the assessor may require.

**5. Computation.** In computing a mining company's tax, gross proceeds ~~and net proceeds shall~~ must be computed as if each ~~mine site~~ mining property were a separate taxpayer. To the extent the mining property is located both in this State and in one or more other states or Canadian provinces, the gross proceeds must be allocated or apportioned in a reasonable manner between the proceeds derived from minerals mined in this State and the proceeds derived from minerals mined in the other jurisdictions. The ~~State Tax Assessor~~ assessor may distribute, apportion or allocate on a reasonable basis gross proceeds, deductions, credits or allowances between or among mining companies or ~~mine sites~~ mining properties, if such distribution, apportionment or allocation is necessary to prevent evasion of taxes imposed by this chapter, or to reasonably reflect ~~clearly~~ the gross ~~or net~~ proceeds of any mining company ~~or mine site~~ from mining activity in the State. For purposes of this subsection, "mining property" has the same meaning as "property" as defined in Section 614 of the Code.

**6. Requirement to file amended Maine returns.** The requirement to file an amended Maine return is governed by this subsection.

A. A taxpayer shall file an amended Maine return as required by this subsection when the taxpayer files an amended federal return affecting the taxpayer's liability under this chapter, the Internal Revenue Service changes or corrects any item affecting the taxpayer's liability under this chapter or for any reason there is a change or correction affecting the taxpayer's liability under this chapter.

B. The amended Maine return required pursuant to paragraph A must be filed within 180 days from the final determination date of the change or correction or the filing of the amended federal return. For purposes of this paragraph, "final determination date" means, when the taxpayer files an amended federal

return affecting the taxpayer's liability under this chapter, the date on which the earliest of the following events occurs with respect to a taxable year for federal income tax purposes:

(1) The taxpayer has made payment of an additional income tax liability resulting from a federal audit, the taxpayer has not filed a petition for redetermination or claim for refund for the portions of the audit for which payment was made and the time for filing a petition for redetermination or refund claim has expired;

(2) The taxpayer receives a refund from the United States Treasury that resulted from a federal audit;

(3) The taxpayer signs federal Internal Revenue Service Form 870-AD or another Internal Revenue Service form consenting to a deficiency or accepting an overassessment;

(4) The taxpayer's time for filing a petition for redetermination with the United States Tax Court expires;

(5) The taxpayer and the Internal Revenue Service enter into a closing agreement;

(6) A decision from the United States Tax Court, a United States District Court, a federal court of appeals, the United States Court of Federal Claims or the United States Supreme Court becomes final; and

(7) The taxpayer files an amended return or similar report pursuant to the Code, Section 6225(c).

C. The amended Maine return filed pursuant to this subsection must indicate the change or correction and the reason for that change or correction. The amended return constitutes an admission as to the correctness of the change unless the taxpayer includes with the return a written explanation of the reason the change or correction is erroneous. If the taxpayer files an amended federal return, a copy of the amended federal return must be attached to the amended Maine return under this chapter.

D. The assessor may require additional information to be filed with the amended Maine return filed pursuant to this subsection. The assessor may prescribe exceptions to the requirements of this subsection.

**Sec. 35. 36 MRSA §2857-A** is enacted to read:

**§2857-A. Accounting periods and methods of accounting**

**1. Accounting periods.** The determination of a tax year is subject to the following.

A. If a taxpayer's tax year is changed for federal income tax purposes, the taxpayer's tax year for

purposes of the tax imposed by this chapter must be similarly changed.

B. Notwithstanding paragraph A and section 2855, subsection 15, if the assessor makes a determination of jeopardy and terminates the taxpayer's reporting period under section 145, the tax must be computed for the period determined by that action.

**2. Method of accounting.** The method of accounting used by a taxpayer is subject to this subsection.

A. For purposes of the tax imposed by this chapter, a taxpayer's method of accounting must be the same as the taxpayer's method of accounting for federal income tax purposes. If a method of accounting has not been regularly used by the taxpayer, gross income from mining for purposes of this chapter must be computed under a method that in the opinion of the assessor fairly reflects gross proceeds.

B. If a taxpayer's method of accounting is changed for federal income tax purposes, the taxpayer's method of accounting for purposes of this chapter must be similarly changed.

C. In computing a taxpayer's gross proceeds for any tax year under a method of accounting different from the method under which the taxpayer's gross proceeds for the previous year were computed, there must be taken into account those adjustments that are determined to be necessary solely by reason of the change in order to prevent amounts from being duplicated or omitted.

**Sec. 36. 36 MRSA §2858**, as amended by PL 1987, c. 772, §26, is repealed.

**Sec. 37. 36 MRSA §2859**, as repealed and replaced by PL 1985, c. 691, §§27 and 48, is repealed and the following enacted in its place:

**§2859. Estimated tax requirements**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Allowable credits" means the total amount of payments by a taxpayer that have been or will be paid to the bureau prior to the date the payment against which they are to be used as a credit is due and that are available to offset any tax liability estimated under this chapter.

B. "Estimated tax" means the total amount of tax that a person estimates will be due for a tax year under this chapter, after subtracting allowable credits for that tax year.

C. "Period of underpayment" means the period of time from the date an estimated tax installment is due until the underpayment is satisfied or until the

tax return to which the estimated tax installment applies is due, whichever is less.

**2. Requirement to pay estimated tax.** A person subject to taxation under this chapter shall make payment of estimated tax as required by this chapter. The requirement to make estimated tax payments is waived if:

A. The person's tax liability pursuant to this chapter reduced by allowable credits for the tax year is less than \$1,000 for the tax year; or

B. The person had less than \$1,000 tax liability under this chapter for the immediately preceding tax year.

**3. Amount of estimated tax to be paid.** A person required to make payment of estimated tax under this chapter is liable for an estimated tax that is no less than the lesser of:

A. An amount equal to the person's tax liability under this chapter for the immediately preceding tax year, if that preceding year was a tax year of 12 months; and

B. An amount equal to 90% of the person's tax liability under this chapter for the current tax year.

**4. Amount of installment.** The amount of estimated tax to be paid in a tax year by a taxpayer is to be paid in installments by the dates established in this section. The amount of the estimated tax is to be paid in 4 equal installments unless the taxpayer establishes by adequate record the actual distribution of tax liability and allowable credits, or both, in which case the amount of the installment payments must be adjusted accordingly and be determined in accordance with the portion of the taxpayer's estimated tax liability applicable to that portion of the taxpayer's tax year, completed by the close of the month preceding the installment's due date, less estimated tax payments already made for the tax year.
