ORDERED,

That the State Controller transfer \$7,890 from the All Other line category to the Capital Expenditures line category within account 013-13A-0027-30, Federal Programs, for the purpose of purchasing one Leica microscope; and,

Be it further ordered,
that the State Controller increase the allotment in account 013-13A-0027-30, Federal Programs, by \$7,890 in the Capital Expenditures line category, and decrease the allotment in account 013-13A-0027-30, Federal Programs, by \$7,890 in the All Other line category for the purpose of purchasing one Leica microscope; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2027", for which this shall be our sufficient warrant.

Statement of Fact

This financial order transfers All Other to Capital Expenditures to make available capital funds for the purpose of purchasing one Leica microscope. The specifications of this microscope match a collaborator's microscope to ensure consistency between measurements taken for this project across two research sites. This portion of All Other funding is no longer required and the All Other line category will have sufficient resources to meet its obligations for the remainder of the fiscal year. Without this dedicated microscope, the department will not have full access to a microscope, improved imaging capabilities, and consistency across research sites.

ORDERED,

That the State Controller increase allotment in account 014-65A-0184-03, Public Utilities Commission Reimbursement Fund, by \$100,000 in the All Other line category for the purpose of allotting a portion of the anticipated unencumbered balance forward for contractual services; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2027", for which this shall be our sufficient warrant.

Statement of Fact

This financial order allots a portion of the anticipated unencumbered balance forward for intervenor funding for contractual services. The Maine Public Utilities Commission has approved intervenor funding as authorized in Title 35-A, section 1310-A and Chapter 840 per commission order Docket Number 2026-00043. In the determination of intervenor funding, the Commission ruled that CMP Ratepayers Unite (CMPRU) is eligible and will be reimbursed for expenses incurred for legal services and expert testimony on return on equity, capital structure, and overall rate of return. The Commission has established a cap for CMPRU of up to \$100,000. Failure to approve this financial order will have a detrimental impact on the intervenor funding program because it will prevent a qualified intervenor from being able to fully participate in a Commission proceeding and deny the Commission from considering a position not otherwise sufficiently represented.
