Also provides funding for related All Other costs. | This position will work with the Department of Education to implement the Advancing Wellness and Resiliency in Education (AWARE) project. Many youths have mental health issues that are either undetected or untreated, leading to long-term poor mental and physical health outcomes that can impact a student's attendance at school and their educational achievement. This position is funded by a five-year grant received by the Department of Education which ends on September 30, 2023. One Human Services Caseworker position was administratively reclassified to a Business Services Manager position on July 16, 2018. To fund this administrative reclassification, the department eliminated one Office Assistant II position and reduced the hours of one Mental Health/Disability Determination Caseworker from 24 hours per week to 20 hours per week. All three positions are being transferred to fund the reclassification of the Human Services Caseworker position to a Business Services Manager position in DAFS. This initiative establishes one Public Service Coordinator II position to oversee and coordinate the department's effort of increasing and enhancing federal grant opportunities. This position will work with program managers to develop grant proposals and coordinate grant planning and writing, and actively seek resources and opportunities to maximize dollars. This position will also review current grants within the department to review compliance and identify ways to increase resources for needed programs and will establish guidelines and suggested templates to enhance grant organization, consistent grant writing and measurable services being delivered under the grant. | | DHHS Mgmt - Policy | General Fund | | IN | | 1372 | \$ 65 | 9,821 | \$ 7: | 5,320 | | 3,839 | * | 3,839 | 1.0 | 1.0 | \$ 73,60 | U \$ | 79,159 |

| 241 HUI | 0143 | Maine Center for Disease Control and Preventio n | C-A-7235 | Provides one-time funding to increase health and cessation interventions. | Adult and youth smoking rates are above the national average, with youth smoking rates rising above the national average in 2015 for the first time in nearly 20 years. Tobacco use is the leading preventable risk factor for 4 of the top 5 causes of death in Maine - cancer, heart disease, stroke, and lung disease. The tobacco industry's introduction of new products - e-cigarettes - and their rapid growth in use, especially among youth is deeply troubling. Most recent data suggest that 16% of Maine high school students use e-cigarettes. When you add in all tobacco products, nearly 1 in 4 Maine high school studen have used some form of tobacco product in the last 30 days. E-cigarettes are leveling the geographic and socioeconomic playing field, making tobacco use a population-wide epidemic and turning the clocks back on the state's and nation's progress. This increase in fundin will be used for an increase in components including but not limited to state and community interventions, mass reach health communication interventions and cessation interventions.
