READ.

Representative MALON of Biddeford moved that the House **ACCEPT** the Majority **Ought Not to Pass** Report.

Representative BOYER of Poland **REQUESTED** a roll call on the motion to **ACCEPT** the Majority **Ought Not to Pass** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Poland, Representative Boyer.

Representative **BOYER**: Thank you, Mr. Speaker. Mr. Speaker, I stand against the pending motion.

This is a good bill. This is a Bill that asserts our power as a Legislative Branch of government. Basically, all the bill does is say the Director of BABLO, OCP and GCU; so, that's alcohol, cannabis and gambling; would have to be confirmed by the committee of jurisdiction, the VLA Committee. The Chief Executive would still get to appoint these people, but it would allow some legislative oversight to the process.

We've had issues in OCP, we've had less issues than these other Departments, but I would say that, you know, these three Departments put together bring in over a billion dollars in sales and revenue for the State, hundreds of millions in tax dollars for our State, so, a little, advising consent by the Legislature is really not asking for much.

And I guess I would just say, you know, this bill goes into effect next year, it doesn't affect our current Chief Executive and to the folks on the other side of the aisle, you guys might not always inherit the second floor, so, let's have some checks and balances on the power on the Executive Branch. Thank you, Mr. Speaker, and I'd like a Roll Call.

The SPEAKER: The Chair recognizes the Representative from Biddeford, Representative Malon.

Representative **MALON**: Thank you, Mr. Speaker. I rise in support of the pending motion, which is the Majority bipartisan Ought Not to Pass Report. The bipartisan majority of the Committee listened to feedback on this matter and determined that putting so many different positions up for Senate confirmation would gum up the works for positions that are essentially civil service in nature and should not be overly politicized, in our view.

I will also note that the bill's Sponsor joined us in that Majority Report, seeing the wisdom of those arguments, so, I hope folks will follow my light and vote for the pending motion.

The SPEAKER: The Chair recognizes the Representative from Newport, Representative Fredette.

Representative **FREDETTE**: Thank you, Mr. Speaker. Mr. Speaker, Ladies and Gentlemen of the House, I think that this is an opportunity for the Legislature to have a very small part in being able to have some say in, you know, essentially, who's running these organizations. My guess is for the most part it's pretty rubber-stamped. And I'd like to ask a question through the Chair.

The SPEAKER: The Member may proceed.

Representative **FREDETTE**: My understanding, for example, Mr. Speaker, is that the newly created Office of Energy, the individual there, Commissioner, was to be appointed, needs to be confirmed by the Senate, and why would this be any different? I understand that this is a Director, not a Commissioner, but I see it as the same exercise and the same sort of consistency. And so, if someone could explain to me why we need to confirm one and not another, that'd be helpful. Thank you, Mr. Speaker.

The SPEAKER: The Representative from Newport, Representative Fredette, has posed a question through the Chair to any Member who wishes to answer. The Chair recognizes the Representative from Biddeford, Representative Malon.

Representative **MALON**: Thank you, Mr. Speaker. My understanding is that the Department of Energy Resources is a Department, as opposed to an Office, and the positions considered in this bill would be inconsistent with other Director

positions throughout State government, and so, we decided to keep that consistency with the Majority Report. Thank you.

The SPEAKER: The Chair recognizes the Representative from Poland, Representative Boyer.

Representative **BOYER**: Thank you, Mr. Speaker. I would just add; Director, Commissioner; semantics. These positions have huge policy-making influence on our Body. We're struggling right now with the OCP pushing policy that would hurt our small businesses and our mom-and-pop operators.

So, again, this is for the next Chief Executive, it doesn't affect the current one, just a little extra oversight. We have it with the Fire Marshal, we have it with other things and these are huge budgets, huge organizations that bring a lot of revenue to our State. And so, again, I don't see the harm in asserting our Legislative power. Thank you, Mr. Speaker.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought Not to Pass Report. All those in favor will vote yes, those opposed will vote no.

READ.

Representative MURPHY of Scarborough moved that the House **ACCEPT** the Majority **Ought to Pass as Amended** Report.

Representative LYMAN of Livermore Falls **REQUESTED** a roll call on the motion to **ACCEPT** the Majority **Ought to Pass as Amended** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Hampden, Representative Haggan.

Representative **HAGGAN**: Thank you, Mr. Speaker. Mr. Speaker, Members of the House, I rise in opposition to this pending motion.

The purpose of this bill is to expand public preschool so that three-year-olds who have been identified as having special needs can attend. Our Committee has asked on several occasions to meet with the Child Development Services to better understand how these three-year-olds are identified as having special needs. We want to know who is making these determinations and what tools are being used to make that determination. We're now nearing the end of the 132nd Legislature and we still have not received clear answers. That raises a serious concern. How can Members of our Committee, Education Committee, support this bill without that information?

This bill also establishes that only those three-year-olds identified with special needs will be funded by the State. At the same time, in order to meet federal requirements for the least restrictive environment, the bill allows three-year-olds without identified special needs to attend these programs as well, but without funding, leaving the cost to local school districts. That creates pressure on local schools and our taxpayers who are already feeling a lot of pressure.

The bill is just not ready. We still don't have clear answers on how it will work, how it will be paid for or how it will impact our children in our schools. We need the opportunity to fully understand this process and work with Child Development Services to ensure these children are placed in the right

programs. For those reasons, I urge this Body to vote Ought Not to Pass. Thank you.

The SPEAKER: The Chair recognizes the Representative from Scarborough, Representative Murphy.

Representative **MURPHY**: Thank you, Mr. Speaker. This bill does not create a mandate at all. It's fully optional for districts to accept typically developing three-year-olds into their public pre-K programs.

The Good Representative from Hampden is exactly right that the State subsidy would only apply to those students with special education needs. This is completely at the discretion of districts. If they want to include three-year-olds to create a least restrictive environment or if they just want to enroll three-year-olds. It's not necessary, however, for a district to enroll the three-year-olds. If they do want to create a least restrictive environment, they could blend their typically developing four-year-olds with their three-year-olds that have special education needs. It's completely at the discretion of the districts. Costs are completely covered by the district if they choose to do this. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Phillips, Representative Soboleski.

Representative **SOBOLESKI**: Thank you, Mr. Speaker, Ladies and Gentlemen. I rise today because rural Maine is facing a financial breaking point, and every bit that expands the scope of public education, no matter how well intended, must be examined through the lens of what towns can actually afford.

For years, rural communities have watched education costs rise at a pace that far outstrips local income, enrollment and outcomes. Budgets climb, taxes climb and yet, academic results do not. In many districts, spending has doubled while enrollment has fallen by a third. And the people paying the bill are not wealthy suburban families, they are the elderly residents on fixed incomes, they are working families living paycheck to paycheck, penny to penny, they are small town taxpayers who have already reached the limit of what they can sustain.

LD 2114, even as Amended, opens the door for school districts to expand into services traditionally provided by parents or private child care providers. Let's be honest about what this means in practice. If a district chooses to offer a program for three-year-olds, many parents will understandably choose it over paying for daycare. This is not criticism of parents, it is recognizing the basic economics. If the State authorizes a free program, families will use it, but the cost does not disappear. It simply shifts from the household budget to the property tax bill. And that shift is not small. Rural districts already struggle to fund transportation, special education and basic classroom operations. Adding another year of publicly funded care, because that is what this becomes, adds staffing, space, transportation and regulatory costs that will fall directly on the towns; not the State, not the Department; the towns.

We also cannot ignore the impact on the few child care providers who still operate in rural Maine. These small businesses are already hanging on by a thread. When the State authorizes schools to expand downward into the age group they serve, we risk putting them out of business entirely. And once a rural daycare closes, it does not reopen. Families lose options, employers lose workers and community loses capacity.

Colleagues, we must be clear-eyed about the cumulative effect of every new educational expansion. Rural taxpayers are not bottomless wells, they are not invisible, they are not disposable. They are the very people we represent and they are telling us loudly they cannot absorb one more cost. This Amendment may clarify eligibility, but it does not change the underlying reality. Expanding preschool to three-year-olds will increase local spending, increase local taxes and further strain the fragile child care ecosystem in rural Maine. Before we authorize another expansion of public education, we must ask a simple question, can our rural towns afford it right now; the answer is no. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Livermore Falls, Representative Lyman.

Representative **LYMAN**: Thank you, Mr. Speaker and Members of the House. We've all heard the saying, the cart before the horse. Well, this piece of legislation is missing the horse, the cart and most of the wheels.

Bottom line, three-year-old toddlers; let me emphasize, toddlers; do not belong in a general education program within a public school. They belong with their family, or the closest setting to the family, during their most impressionable years of development. This bill has the potential to cause harm. Could it put into practice ineffective screening of three-year-olds' development? It certainly could. Could it come up short of providing and establishing the least restrictive environment as required by law? It certainly could. Subsidizing three-year-olds identified with a disability and not their three-year-old could have unintended consequences that negatively impacts the least restrictive environment. Does this piece of legislation take into account all the necessary needs that housing three-year-olds in a public school requires? It does not. Needs in regard to physical space, age-appropriate equipment, staffing, screening, general education curriculum, developmental considerations. This list could go on. And funding issues? There are many. Each of these areas I just named are very costly. This State doesn't even have a clue as to the level of funding needed to implement this legislation. But here's the unpopular issue regarding this piece of legislation; should three-year-olds be raised within a public school setting? They should not.

As lawmakers, we are supposed to pass laws that benefit the people of our State. This one will not. It threatens parental responsibilities and robs children of their most loving and nurturing environment. The laws we pass should encourage and support families in raising their children in the least restrictive environment. And for three-year-olds, it is not, not a public school setting.

Mr. Speaker, it should be the parents and the family and the people who love them most to teach the principles and fundamental understandings that will guide and carry these precious young souls through their life.

The SPEAKER: The Chair recognizes the Representative from Pittsfield, Representative Collamore.

Representative **COLLAMORE**: Thank you, Mr. Speaker. May I pose a question through the Chair?

The SPEAKER: The Member may proceed.

Representative **COLLAMORE**: Thank you, Mr. Speaker. I've heard one person say this is a mandate and one person say this is not, but when I look at the Fiscal Impact Statement, it says unfunded State mandate, moderate limited scope affecting the schools. So, I'm confused, is it a mandate or not?

The SPEAKER: The Representative from Pittsfield, Representative Collamore, has posed a question through the Chair to any Member who wishes to answer.

The Chair recognizes the Representative from Scarborough, Representative Murphy.

Representative **MURPHY**: Thank you, Mr. Speaker, for allowing me to rise again, and I'm happy to answer that question. This is not a mandate. This simply allows districts to enroll three-year-olds if they choose, entirely at their own cost.

The earlier students with special needs receive interventions, the more successful they are in their future as students. Science bears this out. And four-year-olds with special education needs are paid for entirely by the State, at no cost to the local districts. That's part of the law that was passed last session. Additionally, as part of that law, districts are permitted and, in fact, encouraged to contract with private providers; child care centers, private pre-Ks; in the districts to provide the pre-K services for the students.

So, I appreciate the concern about local private providers, including child care providers, especially in rural areas, but that was considered when the law was passed last year, moving special education needs for three- and four-year-olds from CDS to the Department of Education. It specifically allows students to receive public pre-K services in private settings. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Livermore Falls, Representative Lyman.

Representative **LYMAN**: Thank you, Mr. Speaker, for letting me rise again. First time ever, in three sessions.

This particular bill, I just feel it's important to stress that this particular bill is before us because it is not in Statute for three-year-olds identified with special needs to attend general education public schools. No matter what your opinion is on three-year-olds being placed in a public school, this is an opportunity to put the brakes on for further consideration and analysis of this matter. It's an opportunity to make sure that best practices are in place for the screening and potential diagnosis of three-year-olds with handicapping conditions. We certainly do not want to over-identify or misdiagnose. After all, we're all well aware of the sudden developmental changes a three-year-old toddler can demonstrate in just a few weeks, even a few days.

This is also an opportunity to further consider and analyze matters concerning, as I said earlier, the physical environment, least restrictive environment. Fiscal responsibility that such an endeavor involves. Again, as lawmakers for the State of Maine, I respectfully ask you to consider a pause for the benefit of our little toddlers. This decision is not about party affiliation or winning a debate. It needs to be about our treasured three-year-old souls. Please visualize that little child that places their head on their loved one's shoulder as they raise their three fingers when they're asked their age. Imagine that three-year-old hugging tightly the legs of their trusted loved one or as they reach up to be picked up and held closely. Could we please vote to allow further analysis, further planning and vital considerations for this very vulnerable and precious population of our children?

The SPEAKER: The Chair recognizes the Representative from Chelsea, Representative Lemelin.

Representative **LEMELIN**: Thank you, Mr. Speaker. I'm not crazy about three-year-olds being educated, but that's not why I'm standing. Why I'm standing is with my 30 years' experience dealing with special needs, I see a red flag here. Most schools do their best at educating special ed, but they're not great at it even to this day. And to add more, especially a three-year-old, it's very, very difficult at the younger ages to deal with the needs of special needs and if you're talking about putting special needs children in a specialized school who are

capable of dealing with the situation, you got my vote. But to place them in a regular school, I see red flags. I think this is a mistake. I'm going to be voting against it because after reading the bill and using the knowledge I have with my 30 years' experience in this, I just don't think this bill is ready and I think there's a possibility of some of these sweet little kids falling through the cracks, and that's devastating to me.

So, if there weren't the red flags, I don't care either way. But I know there's red flags as some of my Colleagues in this Body don't fully understand because they haven't lived it. I have. Thank you.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought to Pass as Amended Report. All those in favor will vote yes, those opposed will vote no.

Representative SUPICA of Bangor moved that the House **ACCEPT** the Majority **Ought to Pass as Amended** Report.

The **SPEAKER**: The Chair recognizes the Representative from Poland, Representative Boyer.

Representative **BOYER**: Thank you, Mr. Speaker. Mr. Speaker, I rise against the pending motion.

I stand on behalf of everybody who likes to use credit cards and get points and, you know, we're fiscal conservatives, so, any extra dollar you can make, we take that advantage. We've legalized i-gaming, we've legalized sports wagering. The horse has left the barn. Let's let adults be adults and if they want to use a credit card to gamble, they can do it with the lotto now here with the State of Maine, many other apps, DraftKings and whatnot, they already prevent credit card use, so, I'm all for private businesses setting their own standards, but I don't think this is the role of government. And I'd like a Roll Call. Thank you, Mr. Speaker.

Representative **BOYER** of Poland **REQUESTED** a roll call on the motion to **ACCEPT** the Majority **Ought to Pass as Amended** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The **SPEAKER**: A roll call has been ordered. The pending question before the House is Acceptance of the Majority **Ought to Pass as Amended** Report. All those in favor will vote yes, those opposed will vote no.

On motion of Representative **MOONEN** of Portland, **TABLED** pending **ACCEPTANCE OF COMMITTEE REPORT** and later today assigned.

By unanimous consent, all matters having been acted upon were **ORDERED SENT FORTHWITH**.

The SPEAKER: The Chair recognizes the Representative from Orrington, Representative Campbell.

Representative **CAMPBELL**: Thank you, Mr. Speaker, I request to speak on the record.

The SPEAKER: The Representative from Orrington, Representative Campbell, has requested unanimous consent to address the House on the record. Hearing no objection, it is so ordered. The Member may proceed.

Representative **CAMPBELL**: Thank you, Mr. Speaker, Men and Women of the House. I learned early this morning that the Honorable Mary Sullivan from Bangor passed away.

Mary Sullivan was a pillar of the community. I first met her when I was on the Board of Trustees for John Bapst Memorial High School. She was a teacher there, well liked and just one of the greatest people that I've ever met. She was the first woman Mayor of Bangor way back in the early years when the Good Representative from Portland, the Good Representative from Bangor, Representative Brennan, Representative Faircloth and I ran for the Legislature in 1992. Mary was one of the Bangor legislators. So, as we as freshmen served in the 116th Legislature, we really became good friends and colleagues and obviously, me included with those three, working across the aisle, were quite successful.

So, as we adjourn today, I request that we adjourn in memory of the Honorable Mary Sullivan.

By unanimous consent, all matters having been acted upon were **ORDERED SENT FORTHWITH**.

On motion of Representative CAMPBELL of Orrington, the House adjourned at 11:44 a.m., until 10:00 a.m., Thursday, March 19, 2026, in honor and lasting tribute to the Honorable Mary Sullivan of Bangor.
