SPECIAL SENTIMENT CALENDAR

In accordance with House Rule 519 and Joint Rule 213, the following items:

Recognizing:

Wilfred Beriau, of Gray, who was inducted into the American Academy of Chefs Culinary Hall of Fame in 2024. We extend our congratulations and best wishes;

(HLS 621)

Presented by Representative GRAHAM of North Yarmouth. Cosponsored by Senator PIERCE of Cumberland, Representative ARATA of New Gloucester.

On **OBJECTION** of Representative GRAHAM of North Yarmouth, was **REMOVED** from the Special Sentiment Calendar.

READ.

The SPEAKER PRO TEM: The Chair recognizes the Representative from North Yarmouth, Representative Graham.

Representative **GRAHAM**: Thank you, Madam Speaker Pro Tem. Ladies and Gentlemen of the House, I am so honored to be able to honor my friend, Will Beriau, along with his wife of 42 years, Gitana.

You know, you never know who lives in your neighborhood until you knock on their door. I met Will several years ago when I served in a previous Legislature, and he and his wife and I have become fast friends.

Will shared with me his bio, and it's enormously extensive, but let me share a couple things. Will started his culinary career professionally in 1969. Since then, he was fortunate enough to be chosen for the 2005 Maine Restaurant Association Chef of the Year Award, a National Chef Educator of the Year in 2009, a Lifetime Achievement Award from Maine Hospitality and he was elected to the American Academy of Chefs Hall of Fame. He even had his own television show.

What's more important is that he gave back to his community. He worked with the Boy Scouts, the Red Cross, Wayside Soup Kitchen and I remember him serving and helping people during the pandemic. He has subsequently retired from Southern Maine Community College after 27 years. From there, he became the Curriculum Director for Maine Hospitality and the ProStart program up until 2023, visiting up to 15 schools annually. And the thing that he pointed out to me was in 2011, he served over 1,100 people in the Hall of Flags, along with his students from Southern Maine Community College. I understand we had Lobster Newburg; I'm allergic to it, so I didn't have it that day, but that he's given back again and again and again.

So, I am, again, so honored, I'm so happy to recognize that Will has been inducted into the American Academy Chefs Culinary Art Hall of Fame in 2024. Thank you, Madam Speaker Pro Tem.

Subsequently, this Expression of Legislative Sentiment was **PASSED** and sent for concurrence.

READ.

Representative SACHS of Freeport moved that the House **ACCEPT** the Majority **Ought to Pass as Amended** Report.

The SPEAKER: The Chair recognizes the Representative from Bar Harbor, Representative Friedmann.

Representative **FRIEDMANN**: Thank you, Mr. Speaker. Mr. Speaker, as you know, electricity prices are rising rapidly for Maine households. These rising costs --

The SPEAKER: The Member will defer. The Chair will remind the Member -- The Member may proceed.

Representative **FRIEDMANN**: These rising costs hit low- and moderate-income households, renters and seniors especially hard. LD 1730 expands access to affordable clean energy by allowing residents to use small, portable, plug-in solar systems without the complex interconnection requirements typically associated with large rooftop arrays. The bill is designed to help Mainers lower their electricity bills.

Plug-in solar refers to small solar units that can be plugged into an AC outlet and used to provide electricity to a home, barn, camp or a small business. These units typically consist of one to four panels, an inverter to convert DC to AC power and cabling to plug it in. Some include battery storage and the cost is just \$500 to \$3,000, making it affordable to many. Plug-in solar is thriving in Europe, with four million registered systems in Germany alone, totaling about 700 megawatts, the equivalent of a large power plant. Twenty-five European countries have legalized plug-in solar, and here in the U.S., Utah is the first state to pass a law legalizing plug-in

solar systems. Twenty other states have plug-in solar legislation pending.

So, why LD 1730? My friend, Sue Inches, suggests five reasons. Number one, plug-in solar needs to be defined with a maximum power output, so people and utilities have a shared understanding of exactly what it is. This bill limits plug-in solar to 1,200 watts or less, about what's needed to run lights and ventilation in your barn, garage or camp or an electric hair dryer. Number two, to establish these units are off grid and behind the meter. This bill specifies that they would be free from fees, interconnection agreements or any other obligations to utilities. Owners will only need to file a form registering their units, so the number of units can be tracked. Number three, the bill prohibits plug-in solar from net metering. Unused power cannot be banked for later use. Generally, plug-in units are too small to generate excess power, but this bill rules that possibility out. Number four, LD 1730 allows homeowners and renters to install plug-in solar devices without a professional installer or licensed electrician. And finally, the Law specifies safety requirements so that like other electrical appliances, plug-in solar units will be tested and certified.

Mr. Speaker, this is an exciting and promising technology that complements Maine's independent spirit, frees ratepayers from the volatility of fossil fuels and promotes the frugal self-sufficiency that has kept us strong. I urge you to vote yes on this bill. Thank you, Mr. Speaker.

Subsequently, the Majority **Ought to Pass as Amended** Report was **ACCEPTED**.

The Bill was **READ ONCE**. **Committee Amendment "A" (S-544)** was **READ** by the Clerk and **ADOPTED**.

READ.

On motion of Representative MATHIESON of Kittery, **TABLED** pending **ACCEPTANCE** of either Report and later today assigned.

The **SPEAKER:** The Chair recognizes the Representative from Harrington, Representative Strout, who wishes to address the House on the record.

Representative **STROUT:** Thank you, Mr. Speaker, Ladies and Gentlemen of the House. My heart is racing almost as it was the other day for the Point of Order, but not quite.

So, I just wanted to rise today and recognize the Narraguagus Junior-Senior High School Class D Volleyball State Champions three years in a row. They've made the trip from Harrington, so it'll be a six-hour bus ride, so to get the best out of it, I'm going to take a little minute and highlight some of their great accomplishments.

So, they were DAC Champions four years in a row, and this is specific to the players. So, Eden Fraser was PVC's Spirit of the Game Award; Eileen Berry, All-Star, PVC Second Team; Kaitlyn Grant, All-Star, PVC Second Team; Lola Worcester, DAC All-Star, PVC First Team, AVCA National Player of the Week; Natalie Stanwood, she's a senior DAC All-Star, DAC Player of the Year, PVC First Team, PVC Player of the Year, AVCA National Player of the Week, Senior All-Star MVP and Eastern Maine Sports Volleyball Player of the Year. That's just to name a few of their accomplishments.

The program has grown immensely, with the dedication of their coach, Holly Strout. She is the DAC Coach of the Year for the ninth year in a row and PVC Coach of the Year. In addition, what she has done for our community is she brings these kids together to appreciate getting and giving back. So, she started the Volley for the Cure and over the past 10 years, they've raised over \$60,000 to help people in our area battling cancer. Most recently, you guys will probably remember the Honorable Robert Alley. We raised \$7,000 for his great-grandson, Isaac Hall.

So, I just wanted to take a minute and highlight all of the good things going on in the county. Our All-State players were just announced, and it's no surprise that Natalie Stanwood is on the Class D First Team, but we also have Lola Worcester on the First Team and then Eden Fraser, Eileen Berry, Kaitlyn Grant. And in addition to their academics, Keyontae Pinkham just won the Bronze medal at the SkillsUSA for First Aid and CPR. Serenity McLaughlin won the Bronze medal for Basic Health Care. So, I'm very proud of these kids and all their accomplishments and everything that goes on in Downeast. So, thank you.

LIBBY of Auburn

Came from the Senate with Report "A" **OUGHT TO PASS AS AMENDED READ** and **ACCEPTED** and the Bill **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (S-546)**.

READ.

Representative ROEDER of Bangor moved that the House **ACCEPT** Report "A" **Ought to Pass as Amended**.

Representative DRINKWATER of Milford **REQUESTED** a roll call on the motion to **ACCEPT** Report "A" **Ought to Pass as Amended**.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The **SPEAKER:** The Chair recognizes the Representative from Milford, Representative Drinkwater.

Representative **DRINKWATER:** Thank you, Mr. Speaker. Mr. Speaker, under Maine law, the amount of disability retirement benefits available through MainePERS generally is 59% of a member's average final compensation. If the member is also receiving or has received a Worker's Comp payment for the same disability, the law currently requires the disability benefit be reduced so that the two benefits combined do not exceed 80% of their annual income. This bill would increase the amount the recipients of MainePERS disability retirement benefits who also received Worker's Comp benefits from 80% to 100% of the member's annual financial, allowing members to receive full income replacement.

By moving compensation to 100% of income, we are removing the very incentive that has long been built into the system. Instead of encouraging recovery and a timely return to the workforce, we risk creating a system that unintentionally rewards prolonged absence from work. The goal should be recovery, independence and getting people back to work, not

creating conditions that make it easier to stay out of work indefinitely.

This bill also carries a direct and immediate fiscal impact. MainePERS estimates it will cost \$1.7 million. Article IX, Section 18 of the Maine Constitution requires that a Legislature cannot create or expand a benefit without fully funding it at the time of Enactment. Not only does this bill create a requirement to fully fund expanded benefits, it does so without the level of consensus typically needed to secure that funding. We are, in effect, debating a proposal that is unlikely to be funded, while putting forward a policy that increases cost, weakens incentives to return to work and places additional burden on the taxpayers. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Topsham, Representative Macias.

Representative **MACIAS**: Thank you, Mr. Speaker. It's been an honor to serve on the Labor Committee this past year. The work happening there matters deeply to me, because it affects real people, real families and real lives. And while the details can be technical, sometimes even dry, I have great respect for the policy experts and advocates who bring these issues forward. I won't claim to understand every Statute or regulation that has been built over the years, but I do understand fairness and I know when something feels out of balance. And I've spent a lot of time thinking about this bill not just from the policy perspective, but from a human one.

This past Monday, I brought my wife, Gemma, home from Brigham and Women's Hospital in Boston after surgery on her foot. For a few days, her mobility was very limited. She couldn't do the things she normally does without help. It was temporary and she's healing well; she went back to work today with a boot on. But even in that short window, I saw something clearly. The loss of independence, her frustration, the vulnerability, obstacles everywhere.

Now imagine that isn't temporary. Imagine that's your life. That is the reality for many workers in Maine who are injured on the job. People who went to work, did what was asked of them and come home changed, sometimes permanently. And then, on top of that, we tell them that their compensation will be limited or capped. Reduced. We justify it by saying we don't want someone earning more on disability than what they did while they were working. Let's be honest about that. No one is choosing injury. No one is hoping for a life-altering disability so they can navigate a complicated system for partial wages. And even if there are cases of fraud, and there always will be outliers, that is not the reason to undercut the dignity and security of every honest worker who has been hurt in service to their employer and to this State. We are talking about teachers, state employees, people who are already underpaid for the value they provide. When they are injured, our responsibility is not to limit them, our responsibility is to stand with them, to ensure that they know their well-being, not cost containment, is at the center of our decisions.

I also want to recognize Sue Hawes, whose steadfast commitment to her spouse and her advocacy for injured workers has brought this issue into clear focus for many of us. Her voice represents countless families navigating these challenges every day and she's there every day. This is not abstract. This is personal. And it is our responsibility to get it right.

And I'll close with this, if the assumption behind this policy is that people are gaming the system, that workers are lazy, they can't be trusted, then I'd ask us to pause for a moment and look in the mirror. That is not who the people of Maine are, and it is not how we should legislate. We were elected to represent and protect the residents of this State, not to prioritize the profit margins of employers. The free market will take care of profits, right? Our responsibility is people. Labor is not a line item on a balance sheet; labor is a human being. It is a body that can be injured, a mind that can be strained and a family that depends on that person coming home whole. And when that doesn't happen, our measure of success should not be how much we saved, it should be how well we cared. Because labor is not measured in costs to be cut, it is measured in the well-being of the people who do the work.

If we cannot make injured workers whole physically, then we should at least make them whole financially. They gave their labor, they gave their bodies, they gave their futures. The least we can do is ensure they receive 100% of the benefits they've earned. Thank you.

The SPEAKER: The Chair recognizes the Representative from Bangor, Representative Roeder.

Representative **ROEDER**: Thank you, Mr. Speaker. I want to read a portion of the MePERS testimony, because I think this is going to help us understand this particular bill a little bit better.

According to Statute, in order to qualify for disability retirement, a member must demonstrate that one or more medically diagnosable conditions exist, that functional limitations caused by those conditions make the member unable to perform the essential functions of the member's employment position with reasonable accommodations and that the inability can be expected to be permanent. This is not about temporary disabilities and getting back to work, this is about long-term disabilities. And I am grateful that the majority of the Committee understood that 80%, which is currently in Statute, was not adequate. The Majority Report is a full 100% cap, and we heard from the folks that were testifying that even 100% is not enough. When someone is disabled and they'd been counting on an income in order to pay their mortgage, to feed their families, to pay their bills and then you add on top of that ongoing medical expenses, even 100% is not enough.

So, this is a step in the right direction. It is still not going to take care of the vast needs that disabled workers have, but at least it is a step in the right direction. Thank you.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of Report "A" Ought to Pass as Amended. All those in favor will vote yes, those opposed will vote no.

STATE OF MAINE
DEPARTMENT OF THE
SECRETARY OF STATE
AUGUSTA, MAINE 04333-0148

March 17, 2026

Honorable Robert B. Hunt

Clerk of the House

2 State House Station

Augusta, ME 04333

Dear Clerk Hunt:

Enclosed please find my official certification to the 132nd Legislature of the citizen initiative petition entitled "An Act to Designate School Sports Participation and Facilities by Sex".

Sincerely,

S/Shenna Bellows

Secretary of State

STATE OF MAINE
SECRETARY OF STATE

I, Shenna Bellows, Secretary of State, hereby certify that written petitions bearing valid signatures of 71,033 electors of this State were addressed to the Legislature of the State of Maine and were filed in the office of the Secretary of State on February 2, 2026, requesting that the Legislature consider an act entitled, "An Act to Designate School Sports Participation and Facilities by Sex".

I further certify that the number of signatures submitted is in excess of ten percent of the total votes cast in the last gubernatorial election preceding the filing of such petitions, as required by Article IV, Part Third, Section 18 of the Constitution of Maine, that number being 67,682.

I further certify this initiative petition to be valid and attach herewith the text of the legislation circulated on the petition's behalf.

In testimony whereof, I have caused the Great Seal of the State of Maine to be hereunto affixed. Given under my hand at Augusta on the seventeenth day of March in the year Two Thousand and Twenty-six.

S/Shenna Bellows

Secretary of State

On motion of Representative KUHN of Falmouth, the accompanying Bill "An Act to Designate School Sports Participation and Facilities by Sex"

(I.B. 3) (L.D. 2239)

Was **REFERRED** to the Committee on **JUDICIARY**, ordered printed and sent for concurrence.

By unanimous consent, all matters having been acted upon were **ORDERED SENT FORTHWITH**.

The **SPEAKER**: The Chair recognizes the Representative from Falmouth, Representative Kuhn, who wishes to address the House on the record.

Representative **KUHN**: Thank you, Mr. Speaker, Colleagues of the House. Today is Access to Justice Day, when we recognize and celebrate Maine's seven civil legal services providers and the critical work they're doing for Maine people in every corner of our State. These providers are the clinics at Maine Law, Disability Rights Maine, Immigrant Legal Advocacy Project, Legal Services for Maine Elders, Maine Equal Justice, Pine Tree Legal Assistance and the Volunteer Lawyers Project.

One of the fundamental principles of our legal system is that everyone, regardless of circumstance, should have access to the courts and a fair opportunity to seek justice. And every year, thousands of Maine people with low incomes depend on civil legal services to help them respond to pivotal, often life-changing legal issues. This includes: helping Mainers stay housed and prevent evictions and foreclosures; access health care and income supports when benefits are wrongly terminated; escape abuse, exploitation, unsafe living conditions; protect the educational rights of children with disabilities; respond to crises and community emergencies by providing trusted legal guidance and critical resources when Mainers need help the most and achieving and maintaining

economic stability for families, older people and people with disabilities.

The impact of Maine's civil legal services in these situations extends far beyond the individuals who are helped, but rather contributes to the overall health, stability and resilience of our communities. Legal services also help our legal system run better. When individuals are represented, the courts run more efficiently, because lawyers can resolve the cases that can be resolved and removes those cases from dockets and reduces court costs.

If we want people to respect the courts and trust the rule of law, we have to ensure that there is justice for all. Investing in civil legal services is a proven strategy that will make our communities healthier, stronger and more resilient. So, I urge my colleagues to take advantage of the opportunity to meet with these providers today, they are in the Hall of Flags, and learn more about the great work they're doing in our State. Thank you.

On motion of Representative RIELLY of Westbrook, the House adjourned at 11:19 a.m., until 10:00 a.m., Tuesday, March 24, 2026, or until the call of the Speaker of the House and the President of the Senate, respectively, pursuant to the Joint Order (S.P. 916).
