

STATE OF MAINE
ONE HUNDRED AND TWENTY-SECOND LEGISLATURE
FIRST SPECIAL SESSION
JOURNAL OF THE SENATE

In Senate Chamber
Wednesday
May 11, 2005

Senate called to order by President Beth Edmonds of Cumberland County.

Prayer by Reverend Arlene Tully of the Randolph and East Pittston United Methodist Church.

REVEREND TULLY: Let us be in the spirit of prayer. Oh Mighty God, we ask Your blessing upon these members of the Senate gathered here. By Your grace, grant them in their work this day clarity of thought, discerning wisdom, and compassionate understanding. Guide their minds, hearts, and actions, that they may be benevolent in their spirit, courageous in the face of difficulty, and thoughtful in their decisions. Inspire their deliberations, that they may reflect Your goodness, justice, and mercy. Holy God, we give You thanks for each Senator here and for their commitment to the common good. Help them to keep faithful to their calling to serve the good people of Maine and give them the courage to be guided by their conscience rather than political pressure, expediency, or personal ambition. Strengthen them in their integrity, wisdom, and compassion. Enable them to be agents of Your will and sustain in them the bold hope of a future in which righteousness, justice, and mercy prevail. Amen.

Reading of the Journal of Tuesday, May 10, 2005.

ORDERS OF THE DAY

The Chair laid before the Senate the following Tabled and Later Today Assigned matter:

HOUSE REPORTS - from the Committee on **NATURAL RESOURCES** on Bill "An Act To Improve the Business Climate in Maine"

H.P. 837 L.D. 1219

Majority - **Ought Not to Pass** (7 members)

Minority - **Ought To Pass as Amended by Committee Amendment "A" (H-276)** (6 members)

Tabled - May 11, 2005, by Senator **GAGNON** of Kennebec

Pending - motion by same Senator to **ACCEPT** the Majority **OUGHT NOT TO PASS** Report, in concurrence

(In House, May 10, 2005, the Majority **OUGHT NOT TO PASS** Report **READ** and **ACCEPTED**.)

(In Senate, May 11, 2005, Reports **READ**.)

THE PRESIDENT: The Chair recognizes the Senator from Androscoggin, Senator Snowe-Mello.

Senator **SNOWE-MELLO:** Thank you, Madame President, ladies and gentlemen of the Senate. I rise today to support the minority report. In the Natural Resources Committee, one of the representatives put a bill forth that would like the DEP to have an economist but we realized that probably was not practical so instead the sponsor of the bill and the minority members of this report wanted something from the department that said that they will be ever mindful of taking the position that they will be very supportive of the economy. The amendment amends the mission of the Department of Environmental Protection to direct the department to undertake the department's stated purposes with action that protects natural resources and public health but also promotes a sustainable economy. We feel that it was extremely important that the department sets off in a direction that says we want a wonderful and healthy environment but we have to be mindful of what it does to our businesses and we are able to encourage businesses and not stand in the way. Whatever we do, we need to take that into consideration. I felt that was really important as we move forward. I live in a district that has a lot of beautiful lakes and mountains, but we need businesses at the same time. We need jobs. The Commission of DEP was all for this. He thought it was a good idea. I'm asking you to, please, support the minority report. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Kennebec, Senator Cowger.

Senator **COWGER:** Thank you, Madame President and colleagues of the Senate. This bill, An Act to Improve the Business Climate of Maine, has a wonderful title, but as the good Senator just mentioned, this bill amends the mission of the Department of Environmental Protection. I don't think we have a mission that's broken in the Department of Environmental Protection. In fact, the DEP constantly looks at environmental impact as well as economic impact, especially when developing new rules. The Administrative Procedures Act, title 5 in state statutes, already says that, and this is actually for all state agencies, 'The agency shall consider all relevant information available to it, including but not limited to, economic, environmental, fiscal and social impact, analyses and statements.' Our current statute already requires agencies, including the DEP, to look at economic impact. I don't think this is an appropriate vehicle for amending the mission of the department. If we need to take a closer look at the DEP's mission, I think we should have a resolve to direct them to do so, require broader stakeholder input, but not to do it in the form of this legislation. I hope you will support the pending motion. Thank you.

On motion by Senator **DAVIS** of Piscataquis, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from Kennebec, Senator Gagnon to Accept the Majority Ought Not to Pass Report. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

ORDERS OF THE DAY

Unfinished Business

The following matter in the consideration of which the Senate was engaged at the time of Adjournment had preference in the Orders of the Day and continued with such preference until disposed of as provided by Senate Rule 516.

The Chair laid before the Senate the following Tabled and Later (5/10/05) Assigned matter:

SENATE REPORTS - from the Committee on **APPROPRIATIONS AND FINANCIAL AFFAIRS** on Bill "An Act To Establish the Homeland Security Relief Fund"
S.P. 387 L.D. 1125

Majority - **Ought to Pass as Amended by Committee Amendment "A" (S-140)** (8 members)

Minority - **Ought Not to Pass** (5 members)

Tabled - May 10, 2005, by Senator **ROTUNDO** of Androscoggin

Pending - motion by same Senator to **ACCEPT** the Majority **OUGHT TO PASS AS AMENDED** Report

(In Senate, May 10, 2005, Reports **READ**.)

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President, men and women of the Senate. I must admit up front, Madame President, this is just an example. We now, as of today, have about 21 bills on the Appropriations Table. It would be much better if I could stand up today and say I didn't vote for any of those because my argument would be better, but I did. I'm not going to say that I'm any more pure than anybody else here today about this, but I think this argument needs to be made about priorities. This is just an example. This is not any effort to say this bill or what we've done previously is either good or bad. This is a great idea. Homeland security and the setting aside of money is something we should do. I'm not arguing that this is something bad. It's something good. The question is, I think it's important to at least bring it up once, is it more important than solving our court security problem, that we will try to deal with this time? This is another example. We've been through a spring with some flooding. I live in a district that has a lot of dams, for instance. Is this more important than dealing with that problem, which probably won't be in front of us? It's not in the budget. We've done things about dams in this state in prior years. I'm just using this as an example, Madame President, of problems out there. This is one that we probably won't do anything about, won't try to do anything about. I just ask you to look at this putting money aside, in this case \$1 million that is reduced from the original \$3 million. Is it more important than court security? Is it more important than fixing dams in this state, which are in horrible disrepair? I have answered that problem, Madame President, and said no this time. I ask you to vote against the Ought to Pass Report and help us set priorities. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Androscoggin, Senator Rotundo.

Senator **ROTUNDO:** Thank you, Madame President, men and women of the Senate. This is a disaster relief fund and it's needed in order for us to be able to obtain federal match for disaster relief monies that might come from Washington as well as money that can be used to help deal with disasters in local communities when there is no federal help available. The good Senator from York, Senator Nass, is right. We do deal with a variety of priorities and those are difficult decisions for us on the Appropriations Committee to make. It's important for us to have very important bills like this on the Appropriations Table so that we can weigh all those priorities and make those decisions at the end of the session. Thank you.

THE PRESIDENT: The Chair recognizes the Senator from Oxford, Senator Bryant.

Senator **BRYANT:** Thank you, Madame President, men and women of the Senate. I rise today to support this bill. We've had a number of issues around the state and this bill is important as a disaster relief fund. I think some communities, especially in rural communities like where I come from, don't have the number of people to qualify under a lot of the federal programs that happen. Canton is a good example of that. In rural areas where floods happen or wind damage happens, rural communities don't qualify on the federal level because they don't add up to be 100 homes

or they don't add up to have 2,000 people displaced. This bill, I think, will help a lot of rural areas by helping us qualify and helping us get some monies to those towns that are in need. I think this is one of the things people in rural areas expect the state to do. They expect the state to have some kind of system so they can be helped when emergencies happen. That is one thing they believe that their government is going to do for them, and when they actually need it, there will be something there for them. Currently we have zero there for them and everybody has to try to go get the federal money to help in the real times of need. This is an emergency relief fund that helps out when the people need it. That's what we need. That's what we are here for. I would encourage you to vote for it.

On motion by Senator **ROTUNDO** of Androscoggin, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Sullivan.

Senator **SULLIVAN:** Thank you, Madame President. May I pose a question through the Chair?

THE PRESIDENT: The Senator may pose her question.

Senator **SULLIVAN:** Thank you, Madame President. It is my understanding that this is a match from the federal government. Is it a one-to-one match? Is this the only way we could qualify for the small communities if there was a disaster? Is this a contingency for us to get federal money? Thank you.

THE PRESIDENT: The Senator from York, Senator Sullivan poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Androscoggin, Senator Rotundo.

Senator **ROTUNDO:** Thank you, Madame President. I'm not sure exactly what the match is, but this is money for the federal match so that we, as a state, can access federal dollars for disaster relief. It's also a fund for those smaller communities such as Canton where we, as a state, do not qualify for federal relief. It's money that is necessary to be able to access federal funds but also to provide direct relief to smaller communities where we don't qualify for federal funds.

THE PRESIDENT: The Chair recognizes the Senator from Oxford, Senator Hastings.

Senator **HASTINGS:** Thank you, Madame President, ladies and gentlemen of the Senate. May I ask a question through the Chair?

THE PRESIDENT: The Senator may pose his question.

Senator **HASTINGS:** Thank you, Madame President. My question would be, has the State of Maine ever been denied or failed to receive federal matching funds because we have not had this fund in existence?

THE PRESIDENT: The Senator from Oxford, Senator Hastings poses a question through the Chair to anyone who may wish to

answer. The Chair recognizes the Senator from Oxford, Senator Bryant.

Senator **BRYANT:** Thank you, Madame President, men and women of the Senate. Currently we are in a situation with the flood that happened two years ago in Canton. We are trying to generate matching funds so that we can draw down federal monies. The problem that we had is that we didn't have a bond issue. I had a bill in last time. We were trying to get some bond money for that. If don't have any access to generate state money to help the town to draw down federal money, you are in a losing situation because the feds will help if you qualify and if your town is big enough or if the disaster is big enough. If you are a town in rural Maine of 1,200 people and your downtown gets flooded and wipes out 20 houses, you don't qualify under the federal program. It's not fair. Just because it didn't happen to a lot of people doesn't mean that the same personal piece of that isn't effective for the rural areas. We need some state match money to come in and help. I really believe that the people of the State of Maine expect us to have some kind of fund to help them when a time of crisis comes. This isn't giving money out. This is a crisis time. We should have some money set aside so we can help our communities. That is the bottom line.

THE PRESIDENT: The Chair recognizes the Senator from Androscoggin, Senator Rotundo.

Senator **ROTUNDO:** Thank you, Madame President. I also would add that there have been numerous instances where local communities have had to wait up to a year to get funds from the state because they had to wait for the legislature to go back into session to appropriate this money.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President. It was not my intent that we debate the contents of this bill. Apparently we are. I would have answered the Senator from Oxford, Senator Hastings' question differently. I would say that I'm not aware of any occasion where, if the community qualified; that money wouldn't be forthcoming. In other words, somebody is making a determination as to whether it was a disaster or not. There is a 25% match requirement, usually what the State of Maine does is the state provides 20% and the locality provides 5%. I think the worse example in our time was the ice storm. The legislature had a little trouble getting together for a few days. When we finally did, one of the first things we did was vote a lot of money, my recollection is \$25 million, for the state's match. It depends on the federal government declaring whether it is a disaster or not. It depends on us, as a state, raising some money and the locality raising some money. Can we fill in the gaps here? That is what this proposal is. Will this do it? It's a start. It's \$1 million. Do we want to get into this business of providing money? How much money? How much money is enough here? I don't know. I don't think this bill is a vehicle we ought to use to answer that question. It's a start. I think it's something we ought to spend a lot more time on figuring out whether we want to get in the business of setting up money and reserving money for disasters, some of which can be hugely expensive.

THE PRESIDENT: The Chair recognizes the Senator from Penobscot, Senator Plowman.

Senator **PLOWMAN:** Thank you, Madame President. May I pose a question through the Chair?

THE PRESIDENT: The Senator may pose her question.

Senator **PLOWMAN:** Thank you, Madame President. Actually two questions. One, where is the money going to come from? Two, where is the guarantee that this will not be an account that is swept for future use in budget shortfalls as has been in the last several years?

THE PRESIDENT: The Senator from Penobscot, Senator Plowman poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President. As far as I know, the answer is the General Fund is where the money is going to come from and there is no provision, at least that I recognize here, that indicates it could not be used for other purposes.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from Androscoggin, Senator Rotundo to Accept the Majority Ought to Pass as Amended Report. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

S.P. 619

JOINT RESOLUTION MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO PROVIDE A DOMESTIC NATURAL GAS POLICY

WE, your Memorialists, the Members of the One Hundred and Twenty-second Legislature of the State of Maine now assembled in the First Special Session, most respectfully present and petition the Congress of the United States as follows:

WHEREAS, the price of natural gas in the United States, already the highest in the industrial world, has again spiked and shows continued volatility; and

WHEREAS, according to the federal Department of Energy, Energy Information Administration, total natural gas demand is projected to grow 48% over the next 25 years; and

WHEREAS, the United States and the residents, businesses and industries of Maine are increasingly reliant on natural gas, creating an imbalance between natural gas supply and demand; and

WHEREAS, higher natural gas costs are passed on to consumers in the form of spiraling home heating bills, more expensive food, higher costs for electricity and higher prices for many pharmaceuticals and consumer goods; and

WHEREAS, energy rates in Maine recently increased by an estimated 40% and the bill for a typical residential heating customer is already projected to increase significantly for the 2005 fiscal year; and

WHEREAS, the volatility of gas prices is having a negative effect on electricity production, papermaking, metal treating and chemical, fertilizer, plastics, aluminum and steel producers as well as the agricultural sector; and

WHEREAS, the chemical and plastics industries of the United States, once leading exporters, now have large trade deficits, in part due to rising gas prices; and

WHEREAS, hundreds of jobs in the State of Maine are threatened in industries using natural gas as a raw material, including the businesses of papermaking and chemistry; and

WHEREAS, the pulp and paper industry in the State of Maine employs approximately 10,000 workers, contributing \$1,400,000,000 to the state economy in direct and indirect wages; and

WHEREAS, the plastics industry in the State of Maine employs more than 4,000 workers with \$723,000,000 in plastics industry shipments; and

WHEREAS, the business of chemistry in Maine employs 1,600 workers in 50 manufacturing facilities, with average wages of \$46,000 and foreign exports of \$52,000,000; and

WHEREAS, natural gas is the cleanest fossil fuel for producing electricity, and new combined-cycle power plants in Maine fueled by natural gas produce 99.9% less sulfur dioxide, 98% less nitric oxide and nitrogen dioxide, half as much carbon dioxide and 100% less mercury than the United States average fossil fuel fleet; and

WHEREAS, the natural gas imbalance is a multifaceted issue and will require various solutions, including increased production, improved energy efficiency, greater conservation and increased importation; now, therefore, be it

RESOLVED: That We, your Memorialists, respectfully urge that the Congress of the United States provide a domestic energy policy that ensures an affordable supply of natural gas to the Nation and we urge Congress to embrace a concerted national effort to promote greater energy efficiency and environmentally responsible natural gas production; and be it further

RESOLVED: That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Speaker of the United States House of Representatives and the President of the United States Senate and to each Member of the Maine Congressional Delegation.
